

Going Green in the Garden: Sustainable Strategies for Ontario Home Landscapes

By: Melanie Sifton NPD, MPS, *Director of Humber Arboretum & Centre for Urban Ecology in Toronto, and plant studies instructor in the Landscape Technology program at Humber College*

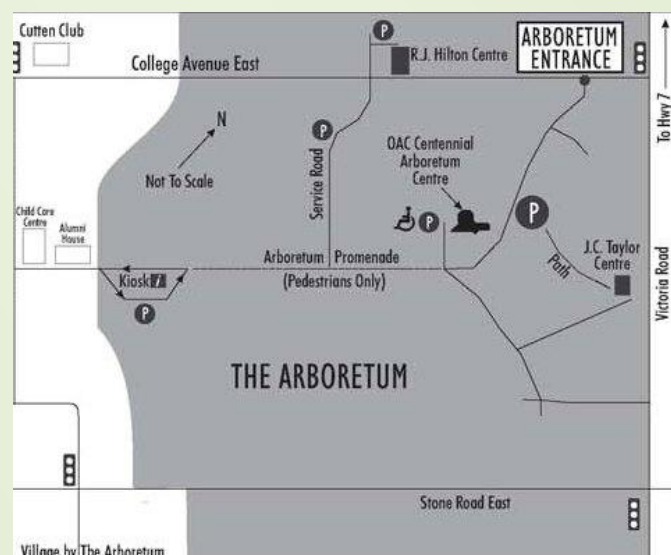

How to be more sustainable and environmentally-friendly in the garden can be a significant and sometimes confusing challenge for professional and home gardeners alike. What are some of the basic concepts behind sustainable landscaping, and how can gardeners make use of the latest information to create easy, beautiful and green landscapes?

This free event is open to everyone

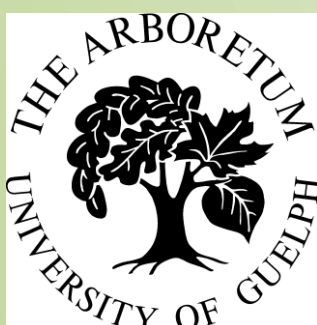

Date: Tuesday April 5th

Time: 7:00 pm

Place: OAC Centennial Arboretum Centre, University of Guelph

Presented by:

The Waterloo-Wellington
Wildflower Society
