

Guelph Agri-Food Cluster

The City of Guelph, Ontario has become one of the largest agri-food clusters in Canada. Since 2002, over \$330 million in investment has been drawn to the region, with the result that there are now approximately 60 agricultural companies, and numerous other public sector laboratories and research centres in the cluster.

The partnership between the University of Guelph and OMAFRA, located adjacent to the campus, has created ease of access to expertise, facilities and resources for Ontario's agri-food industry.
