## Address for University Communication

Depending on the nature and timing of the communication, the University may use one of these addresses to communicate with students. Students are, therefore, responsible for checking all of the following on a regular basis:

## Email Address

The University issued email address is considered an official means of communication with the student and will be used for correspondence from the University. Students are responsible for monitoring their University-issued email account regularly. See Section I--Statement of Students' Academic Responsibilities for more information.

## Home Address

Students are responsible for maintaining a current mailing address with the University. Address changes can be made, in writing, through Undergraduate Program Services.

## Name Changes

The University of Guelph is committed to the integrity of its student records, therefore, each student is required to provide either on application for admission or on personal data forms required for registration, his/her complete, legal name. Any requests to change a name, by means of alteration, deletion, substitution or addition, must be accompanied by appropriate supporting documentation.

## Student Confidentiality and Release of Student Information Policy Excerpt

The University undertakes to protect the privacy of each student and the confidentiality of his or her record. To this end the University shall refuse to disclose personal information to any person other than the individual to whom the information relates where disclosure would constitute an unjustified invasion of the personal privacy of that person or of any other individual. All members of the University community must respect the confidential nature of the student information which they acquire in the course of their work.

## Bachelor of Applied Science (B.A.Sc.)

## Program Information

The University of Guelph offers an 8 semester ( 20.00 credits) honours program leading to a Bachelor of Applied Science (B.A.Sc.) degree. Students must select one of the 3 following major areas of study:
Adult Development, Families and Well-Being
Applied Human Nutrition
Child, Youth and Family
Co-operative Education is available in the following programs:
Adult Development, Families and Well-Being
Child, Youth and Family
Elective offerings enable students to select courses which support or complement their primary field of study.
The program is interdisciplinary and provides a distinctive and integrated focus of applied social science in each of the 3 majors. Courses from the traditional disciplines in other departments in the University are coupled with courses offered by faculty members in the Department of Family Relations and Human Development whose own backgrounds reflect the interdisciplinary nature of the program.
Laboratory, practicum and field experiences enhance the students' opportunities to grasp the contributions of the social, physical and biological sciences to significant facets of human behaviour and experience, whether in family, community, or in educational settings.

## Academic Counselling

## Program Counselling

A B.A.Sc. program counsellor is available to assist prospective students in the selection of their major and initial courses, and to respond to questions regarding any other aspects of their anticipated program. The program counsellor will also assist in-course students who need information or advice about their program or other academic regulations, who seek information on services and resources available to students or who are contemplating transfer into or out of their current major or degree program.

## Academic Advising

On entering the program all students are assigned to a departmental advisor by major. Co-operative Education students in all majors are also assigned to an advisor. This advisor is thoroughly familiar with the academic requirements of the program and is also knowledgable about career opportunities which relate to a student's specific major. Students are strongly encouraged to attend all meetings called by their departmental advisors, and to set up individual meetings with them when they have questions or concerns about their major, or their performance in the program.

## Continuation of Study

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII--Undergraduate Degree Regulations \& Procedures.

## Conditions for Graduation

To qualify for the degree Bachelor of Applied Science, the student must satisfy the following conditions:

- the student must have successfully completed the schedule of studies requirements for the specified major
- the student must have a cumulative average of $60 \%$ or higher
- the student must have a term academic standing of Eligible to Continue or Continue on Probation

## Schedule of Studies

Courses specified in the Schedule of Studies are required courses and must be completed successfully. A full course load normally includes 2.50 credits (normally 5 courses). The requirements for each major are set out below.

## Special Expenses

Expenses for field trips can range from $\$ 20$ to $\$ 30$ per semester in the first 4 semesters and from $\$ 25$ to $\$ 50$ in each of the last 4 semesters. In certain courses modest expenses will be incurred for supplies and where appropriate for laboratory costs. According to recent Ontario legislation, agencies licensed by the Ministry of Community and Social Services which care for, or provide service to, children or vulnerable adults are required to do criminal reference checks on all their employees. Students enrolled in practica or field placement courses may be required to submit to the agency with which they are placed, personal information about any criminal convictions and pending criminal charges. The cost of acquiring this criminal reference check (Canadian Police Information Check) will be the responsibility of each student.

## Adult Development, Families and Well-Being (ADFW)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.
The Adult Development, Families and Well-Being major focuses on health and well-being from young adulthood to old age within the context of changing family relationships and diverse social and cultural influences. Courses focus on current research and theory in
adult development and aging, family relationships, human sexuality, social policy and community services. Field placements and community service learning opportunities enable students to gain knowledge, skills and values appropriate for work with individuals and groups in a variety of settings.
Graduates of this program are pursuing careers in a variety of settings including family and community service agencies, government departments, services for seniors and their families, health care agencies, employee and family assistance programs, and local social planning councils. This program provides a solid foundation for the pursuit of graduate studies in fields such as social work, family relations, gerontology, occupational therapy, family law and mediation, couple and family therapy, education, sexual health, human resource management (business), and health studies.
This interdisciplinary program is designed to provide students with an understanding of the influence of psychological, social, biological and economic factors on individual development, capabilities, health and relationships across the lifespan. It is one of several majors in the Department that share an over-riding goal of applying knowledge to promote individual and family well-being. This major offers a high degree of flexibility for students, who may choose to deepen their studies in one or more of the core content areas in the major (adulthood and aging, family and social relationships, human sexuality, or health and well-being) and/or to choose electives in a related or complementary field.

## Program Requirements

All students in the Adult Development, Families and Well-Being major must successfully complete a minimum of 20.00 passed credits, including the core of 11.50 required credits as outlined in the Schedule of Studies.
Some students may wish to select courses that provide a broad background appropriate for teaching, business, public service management or other careers. Students interested in pursuing graduate education are encouraged to complete an undergraduate thesis in their senior year and to participate in faculty research projects.
In addition to the core requirements and options, there are courses in various departments throughout the University which may be taken as electives. Lists of suggested electives that relate to particular careers or areas of interest and requirements for admission to various graduate programs, including Faculties of Education, are available from the B.A.Sc. Program Counsellor.

Students must meet the continuation of study requirements at the time of graduation and have a minimum $60.00 \%$ cumulative average.
Students may take one minor in addition to the Adult Development, Families and Well-Being major. See the B.A. Program information for the list of minors: http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c10/c10ba.shtm. The $60.00 \%$ requirement applies to each major and minor.

## Double Counting of Courses

A maximum of 50 percent of the courses applied to a minor may be courses taken in fulfillment of the major where required courses are the same.

## Counselling on Minors

The B.A.Sc. program counsellor assists students in the selection of minors, interpreting program and academic regulations.
Academic departments offer the minors and assign faculty advisors to assist students with academic planning (e.g., a faculty advisor in the Psychology department handles queries about a minor in Psychology). Students should consult the appropriate faculty advisor, along with the B.A.Sc. Program Counsellor, when declaring a minor or requiring advice on the completion of specialization requirements. The list of faculty advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/uaic/students_faculty.shtml or contact the B.A.Sc. Program Counsellor for further information.

and Professional Studies
Students have successfully used the B.A.Sc. degree to gain admission into graduate programs in social work, applied psychology, sociology, anthropology, occupational therapy, speech and language, and social policy. If you plan to enter a graduate program after completing the Adult Development, Families and Well-Being major of the B.A.Sc. degree program you will need to select certain courses as part of your undergraduate program to meet graduate program admission requirements. Sometimes these requirements are quite particular which means that you must plan your course selections early and carefully.
Although graduate programs differ in their entrance requirements, most graduate programs require that you have taken (at least): one course in research methods; two undergraduate statistics courses; and have completed an undergraduate thesis.
For many of the programs you will be required to take Graduate Record Exams (GREs) in the specific field of study. You are strongly advised to contact the graduate programs that interest you early in your program to determine the specific entrance requirements of each program.

## * Exchange/Study Abroad Opportunities

Students interested in study abroad experience could consider this in either Semester 5 or 7. If it is in Semester 5, then students could defer FRHD*3040 and FRHD*3070 to Semester 7 and FRHD*3400 can be taken in Winter Semester 6 with the Practicum FRHD*3290 (with permission). If the study abroad experience is preferred in Semester 7, the Professional Issues course (FRHD*4310) could be taken in Semester 5 (with permission).

## Adult Development, Families and Well-Being (Co-op) (ADFW:C)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.
The Adult Development, Families and Well-Being Co-op major focuses on health and well-being from young adulthood to old age within the context of changing family relationships and diverse social and cultural influences. Courses focus on current research and theory in adult development and aging, family relationships, human sexuality, social policy and community services. Work placements and community service learning opportunities enable students to gain knowledge, skills and values appropriate for work with individuals and groups in a variety of settings.
Graduates of this program are pursuing careers in a variety of settings including family and community service agencies, government departments, services for seniors and their families, health care agencies, employee and family assistance programs, and local social planning councils. This program provides a solid foundation for the pursuit of graduate studies in fields such as social work, family relations, gerontology, occupational therapy, family law and mediation, couple and family therapy, education, sexual health, human resource management (business), and health studies.
This interdisciplinary program is designed to provide students with an understanding of the influence of psychological, social, biological and economic factors on individual development, capabilities, health and relationships across the lifespan. It is one of several majors in the Department that share an over-riding goal of applying knowledge to promote individual and family well-being. This major offers a high degree of flexibility for students, who may choose to deepen their studies in one or more of the core content areas in the major (adulthood and aging, family and social relationships, human sexuality, or health and well-being) and/or to choose electives in a related or complementary field.

## Program Requirements

All students in the Adult Development, Families and Well-Being Co-op major must successfully complete a minimum of 20.00 passed credits, including the core of 11.00 required credits as outlined in the Schedule of Studies. Students in the Co-op program must also complete COOP*1100 in the third semester.
Some students may wish to select courses that provide a broad background appropriate for teaching, business, public service management or other careers. Students interested in pursuing graduate education are encouraged to complete an undergraduate thesis in their senior year and to participate in faculty research projects.
In addition to the core requirements and options, there are courses in various departments throughout the University which may be taken as electives. Lists of suggested electives that relate to particular careers or areas of interest and requirements for admission to various graduate programs, including Faculties of Education, are available from the B.A.Sc. Program counsellor.

## Co-operative Education Program

Students must be either a Canadian Citizen or Permanent Resident. A cumulative average of $70 \%$ is required in courses taken in Semesters 1 and 2 to permit continuation in the program.
Conditions for Graduation from the B.A.Sc. Co-operative Education Program
Conditions for graduation are the same as the corresponding regular B.A.Sc. program. In addition, all work reports and work performance evaluations must have a grade of satisfactory or better.

## Applied Human Nutrition (AHN)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.
The Applied Human Nutrition major recognizes both the biological and the social facets of human nutrition. It focuses on nutrition from a preventive, maintenance and therapeutic perspective, all of which require a thorough understanding of the related biological sciences and of selected aspects of the behavioral sciences. Students learn about nutrition and its application to the maintenance of health and the prevention and treatment of disease. They also learn about individual and social behaviour, particularly in family settings, and the implications of behavioral factors in the establishment of good nutrition status from conception through to old age.
The B.A.Sc. Applied Human Nutrition program is accredited by the Dietitians of Canada.
All students in the Applied Human Nutrition major must include the core of 14.00 required and 1.50 restricted electives in the minimum of 20.00 passed credits. Students normally
register for courses according to the semesters indicated below for Fall and Winter sequencing.
Those students wishing to compete for admission to a post-graduate dietetic internship will be assisted by departmental advisors in the selection of courses that will meet the academic requirement of the Dietitians of Canada and the College of Dietitians of Ontario for eligibility for internship and/or membership.
Successful completion of the requirements will allow students to compete for a limited number of dietetic internship positions. Most graduates completing dietetic internships are employed in hospitals and other health care agencies such as community health centres and long-term care facilities. Others find employment in a wider range of vocations including those associated with health and education in the government or private sectors, or with the food industry. Still others proceed to graduate study in fields such as nutrition, public health nutrition, medicine or education.

## Electives

There are 4.50 electives throughout the major which may be fulfilled by electing courses in any subject provided that the student has the prerequisite courses and can schedule them. Some electives and restricted elective courses are intended to contribute to a liberal education, while others permit students to work toward specific academic and career goals. Departmental advisors will assist students in selection of courses that will meet the requirements of the Dietitians of Canada for eligibility for Internship and/or membership, and when requested, can assist in selection of electives to complement the core requirements.

## Child, Youth and Family (CYF)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.
The Child, Youth and Family major, administered by the Department of Family Relations and Applied Nutrition, examines the psychological, social and physical conditions which influence the growth and development of children and adolescents. While the primary focus of the major is on children and youth, the program regards the family as a primary context of development and as the key to successful interventions for children with developmental, behavioural, or socio-emotional difficulties. Through the effective use of elective courses, the core requirements in the major can be supplemented to create a program of study which will prepare graduates for a variety of careers in child and youth services. Graduates are pursuing child and youth-related careers in a variety of settings including child and youth treatment facilities, elementary schools, paediatric wards in hospitals, family and community service agencies, and child care centres. Further academic preparation may be required for certain careers. Many graduates go on to pursue graduate education in fields such as family studies, human development, psychology, counselling psychology, social work, speech pathology, and occupational therapy.

## Articulation Agreements

The University of Guelph is a partner in several Articulation Agreements concerning the Child, Youth and Family major. Students who enter the B.A.Sc. Child, Youth and Family major with advanced standing through an articulation agreement should identify themselves to the B.A.Sc. Program Counsellor for specific guidance around their Schedule of Studies (see Section IV of this calendar).

Students in the Child, Youth and Family major who are interested in proceeding to teachers college should refer to Section IV--Admissions Information, Articulation Agreements for information about admission to the Bachelor of Education program at Nipissing University.

## Program Requirements

All students in the Child, Youth and Family major must include the following core of 15.00 required credits and 0.50 restricted electives to a minimum of 20.00 passed credits. Students are encouraged to plan their use of electives carefully in order to focus their program on one or a combination of the career options open to graduates. Discussion with a departmental advisor regarding the various choices possible from within the major is strongly recommended. Students will normally register for courses according to the semesters indicated below for Fall and Winter sequencing. Students who register for Summer semesters and other students for whom the semester offerings present difficulty may, where they have the approval of their departmental advisor, take some courses in alternative semesters.

## Education - Primary / Junior / Intermediate

Graduates interested in elementary school teaching need an additional year of study at a Faculty of Education. For those who wish to teach primary (junior kindergarten to grade 3) or junior (grades 4 to 6), each faculty of education may have certain required courses for admission. Often recommended are courses in visual or performing arts, mathematics, languages, physical or natural sciences, history or geography. Students interested in intermediate (grades 7 to 10) level teaching need to acquire a teachable subject in a specific discipline. Normally, this requirement consists of six semester courses in an area of concentration. Students are strongly advised to contact the Faculties of Education that interest them early in their programs to determine the specific requirements.

## Graduate and Professional Studies

Students have successfully used the B.A.Sc. degree to gain admission into graduate programs in social work, applied psychology, sociology, anthropology, occupational therapy, speech and language, and social policy. If you plan to enter a graduate program after completing the Child, Youth and Family major of the B.A.Sc. degree program you will need to select certain courses as part of your undergraduate program to meet graduate program admission requirements. Sometimes these requirements are quite particular which means that you must plan your course selections early and carefully.
Although graduate programs differ in their entrance requirements, most graduate programs require that you have taken (at least): one course in research methods; two undergraduate statistics courses; and have completed an undergraduate thesis.
For many of the programs you will be required to take Graduate Record Exams (GREs) in the specific field of study. You are strongly advised to contact the graduate programs that interest you early in your program to determine the specific entrance requirements of each program.
Child, Youth and Family (Co-op) (CYF:C)
Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences.
All students in the Child, Youth and Family Co-op major must include the following core of 14.00 required credits and 0.50 restricted electives to a minimum of 20.00 passed credits.
The first four semesters are as for the students in the regular program. Students in the co-op program must also complete COOP*1100 in the third academic semester. Thereafter the schedule is as follows:

### 2.50 electives

## Restricted Electives

In addition to the 14.00 required credits, 0.50 must be taken from the Department of Family Relations and Applied Nutrition at the 4000 level.

## Bachelor of Arts (B.A.)

The University of Guelph offers general and honours programs leading to the B.A. degree. The General Program consists of a minimum of 15.00 credits requiring the equivalent of 6 semesters of successful full time study. The Honours Program consists of a minimum of 20.00 credits requiring the equivalent of 8 semesters of successful full time study. A student may register in Summer, Fall and Winter semesters. The normal course load is 2.50 credits per semester for a full time student on regular status. Students may register for 0.50 credit more at their own discretion. Part time study consists of 1.50 credits or fewer per semester.

## Program Information

A student's selection of courses must follow the B.A. Program Regulations (including Distribution Requirements), a pattern of study for either the General or Honours degree (below), and the detailed schedule(s) of studies which follow for any special subject(s) studied.
In fulfilling distribution requirements a) and b) students must in semester 1 choose 2 courses from 2 different schools or departments in the College of Arts and 2 courses from 2 of the following departments in the College of Social and Applied Human Sciences and the College of Management and Economics: Economics, Geography, Political Science, Psychology, Sociology and Anthropology.
Students entering the B.A. program with advanced standing must complete the distribution requirements $a$ ) and $b$ ) as soon as possible after entrance to the program. Requirement $c$ ) need not be completed immediately but is a graduation requirement.
Note: Courses taken to satisfy the distribution requirements may also be counted toward a specialization in the general or honours program.

## Academic Counselling

## Program Counselling

Students are urged to seek the assistance of the counsellors in the B.A. Counselling Office regarding their program and academic regulations, selecting courses, services and resources available on campus, and when they are experiencing difficulties that affect their academic progress.

## Departmental Advising

Every academic department has advisors available to assist students in their course selection planning. Students should seek the advice of the faculty advisor when declaring a major, area of concentration, or minor, regarding course scheduling and completing the requirements for the specializations.
Students encountering difficulties within a course should first consult the instructor of the course. Co-operative education students in Computing and Information Science, Economics and Psychology will also have a departmental Co-op Academic Advisor and Co-ordinator, and should consult Co-operative Education Services regarding scheduling work terms and the COOP*1000 course.

## Academic Residence Requirements

1. At least 5.00 of the credits required for graduation by the student's program must be taken at the University of Guelph.
2. At least $60 \%$ of the 3000 and 4000 level courses required for graduation must be taken at the University of Guelph.
University of Guelph courses include courses taken on exchange and on study abroad programs. Letter of Permission courses are not included.

## Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures of this calendar.

## Conditions for Graduation

In addition to meeting the general and honours degree requirements listed below under Program Regulations, students will not normally be eligible to graduate while on probationary or required-to-withdraw status.

## Distribution Requirements

The distribution requirements are designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Social Sciences and Mathematical and Natural Sciences.
The distribution requirement of 8 courses (minimum 4.00 credits) is as follows:
A. A minimum of 1.50 credits over at least 2 different subject areas in the humanities:

ARTH Art History
CHIN Mandarin
CLAS Classical Studies
ENGL English
EURO European Studies
FREN French Studies
GERM German Studies
GREK Greek
HISP Hispanic Studies
HIST History
HUMN Humanities
ITAL Italian Studies
LAT Latin
LING Linguistics
MUSC Music
PHIL Philosophy
PORT Portuguese
SART Studio Art
THST Theatre Studies
B. A minimum of 1.50 credits over at least two of the following subject areas in the social sciences:

```
ANTH Anthropology
ECON Economics
GEOG Geography
```

IDEV International Development
ISS Interdisciplinary Social Science
POLS Political Science
PSYC Psychology
SOAN Sociology and Anthropology
SOC Sociology
C. 1.00 credits in natural and/or mathematical sciences from the list below.

## Natural and Mathematical Science Courses Acceptable for B.A. Distribution

 RequirementsStudents must take 1.00 credits in natural and/or mathematical science courses to fulfill the B.A. science requirements. Students should choose their courses from the list below or any course for which those listed serve as prerequisites. Students are advised to fulfill this requirement before their final semester. Any problems related to this requirement should be discussed with a B.A. Program Counsellor.
Courses recommended for students with limited preparation (e.g.. lacking 4 U credit in a specific area):
BIOL*1020 [0.50] Introduction to Biology
BIOL*1500 [0.50] Humans in the Natural World
BIOM*2000 [0.50] Concepts in Human Physiology

MET*2030 [0.50] Meteorology and Climatology
PHYS*1XXX [0.00] Any PHYS course at the 1000 level
STAT*2XXX [0.00] Any STAT course at the 2000 level

## Double Counting of Courses

A maximum of 50 percent of the courses in a second major or minor may be courses taken in fulfillment of the first major where required courses are the same. Double counting is not allowed in the General Program.

## Program Regulations

The General Degree Program provides the opportunity for a sound general education in the arts and social sciences, mathematics and sciences, while allowing for concentration of studies in one or more subjects.
The Honours Degree Program provides depth of study in one specialization, strengthening written and oral communication skills, research and analytical abilities, as well as ensuring a breadth of study in the arts, social sciences, mathematics and sciences.

## General Degree Requirements (BAG)

To graduate from a general program a student must:
a. earn 15.00 credits. These must include courses that fulfill the distribution requirements (see below). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credits requirement.
b. 9.00 of the required 15.00 credits must be in courses offered by the College of Arts, the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the College of Management and Economics), the Department of Computing and Information Science, or the Department of Mathematics and Statistics.
c. no more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.
While students are encouraged to complete the requirements of one or more areas of concentration, this is not a graduation requirement.
The requirements for each area of concentration are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.

## Honours Degree Requirements (BAH)

To graduate from an honours program a student must:
a. earn 20.00 credits. These must include courses that fulfill the distribution requirements (see below), and courses that fulfill the requirements of at least 1 major. At least 7.00 credits must be at the 3000 level or above. Not more than 6.00 credits from courses at the introductory $(1000)$ level may be counted towards the 20.00 credits requirement.
b. fulfill the course and credit requirements of at least one major with a cumulative average of at least $70 \%$ in all course attempts at the University of Guelph in that major. Grades in all courses in the discipline area of the major are included in the cumulative average. Grades from those courses in other disciplines listed as options toward the major are also included in the average. (This condition does not apply to majors in the interdisciplinary programs of International Development and European Studies, where only courses in the core and chosen area of emphasis will be counted toward the specialization average.) Students may take more than one major. They may also take one or more minors. The $70 \%$ requirement applies to each major and minor.
c. no more than 14.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards an Honours Degree.
The requirements for each major and minor are set out separately in the pages following the list of Honours and General Specializations Available in the B.A. Degree.
University recognition that a student has graduated with a particular major or minor requires a cumulative average of $70 \%$ for all course attempts at this University in that major or minor.
Students failing to meet the graduation requirements of the Honours Program may apply to graduate with a General Degree if the requirements for the General Degree are met. Students should note that a specialization is not required to graduate with a General Degree.
Honours B.A. students, except those doing a major in Computing and Information Science, Mathematics or Statistics, must take a minimum of 12.00 credits from either or both of the departments in the College of Arts and the departments of Economics, Geography, Political Science, Psychology, Sociology and Anthropology (in the College of Social and Applied Human Sciences and the College of Management and Economics.

## Semester One Requirements

Students in the General and Honours Programs must take:
Semester 1
1.00 credits from the following:

Art History - ARTH*1220, ARTH* 1510
Chinese - CHIN*1200
Classical Studies - CLAS*1000

Economics - ECON* 1050
Geography - GEOG*1200, GEOG*1220, GEOG*1300
Political Science - POLS*1150, POLS* 1400 , POLS* 1500
Psychology - PSYC*1100, PSYC*1200
Sociology - SOC*1100, SOC*1500

## Study at Other Universities

Students contemplating study at another university for credit towards a Bachelor of Arts degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII--Degree Regulations \& Procedures in this calendar.
Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum average of $60 \%$.
The normal limit of credits taken on a Letter of Permission is 2.50 based on Guelph credits. Students with a specialization in languages who want to undertake a program of study in Quebec or abroad should consult the appropriate departmental advisor or the Director of the School of Languages and Literatures.

## Special Study Options

## London Study Semester

A special program of studies designed to make use of the uniquely rich resources of London, England, is offered as a regular part of the B.A. program every Fall semester. The program is supervised by a faculty member from Guelph who directs the studies in London and supervises correspondence with faculty in Guelph. Courses in London are of 2 kinds: London based courses and correspondence courses. London based courses in music, theatre and fine art are given by British tutors, and the coordinator offers courses in his/her area of interest. Students are also permitted to arrange correspondence courses to meet their particular needs. Students wishing to apply for the London Semester should have good academic standing and should have completed at least 2 semesters at the University of Guelph at the time of application; although preference will be given to those with a cumulative average of $70 \%$ or above, all applications will be given careful consideration. More detailed information about academic requirements, bursaries, courses, etc. can be obtained from the B.A. Program Counselling Office, Room 130 in the MacKinnon Building.
The University of Guelph offers many other Study Abroad and Exchange opportunities for students to enrich their learning experience. Bachelor of Arts students are encouraged to participate in any of the diverse options available. Courses taken while on exchange or study abroad can be used as electives or core requirements. For further information on the programs available, please refer to Section V - International Study. Students are advised to meet with a B.A. Program Counsellor to discuss the feasibility of participating in an exchange or semester abroad.

## Anthropology (ANTH)

Department of Sociology and Anthropology, College of Social and Applied Human Sciences
The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC*; anthropology courses with the prefix ANTH*; and departmental courses with the prefix SOAN*. The departmental category of courses recognizes the fact that the disciplines of sociology and sociocultural anthropology have developed in tandem and it is possible to identify large areas of overlap and convergence in the work of practitioners both historically and in the present. Departmental courses include most of the core theory and methods courses as well as many elective courses. They contribute equally to the subject matter of sociology as well as the subject matter of sociocultural anthropology for purposes of the undergraduate programs of study in both disciplines. Please see the listings for all courses required for the Anthropology program. Note: the following course may be used towards an anthropology specialization: ISS*2990.
Courses will normally be offered in the semesters designated. Please check with the department for information about additional semester offerings. In addition to regularly scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom he/she wishes to work. Please note, a student is allowed a total of 1.00 credits only for reading courses.

## Art History (ARTH)

## School of Fine Art and Music, College of Arts

The School provides for concentrated study in Art History or Studio Arts, or for a more balanced study combining the two disciplines. Both Studio Art and Art History degree
programs require some work in both the programs. Many Art History courses are also open to non specialized students.
The Art History program covers historical perspectives on the visual arts, study of the methodologies of art history and critical theory, and consideration of contemporary issues in the practice and display of art. Students pursuing a Major or Minor in Art History are required to take a minimum number of courses in each of three areas of focus in the program: Western Art and Cross-Cultural Perspectives; Visual Arts of the Americas; and Art Theory, Critical Methodology and Museology. The groups of courses that comprise these areas of focus are listed below.
Students majoring in other programs who are also interested in the study of Art History are encouraged to consider the Minors offered in Visual Arts of the Americas, Museum Studies, and Art Theory and Criticism. Specific requirements for the Art History Honours Major and Minor are listed below.

## Student Counselling

The students who elect to take a substantial number of courses in Art History with the objective of graduate work are advised to obtain counselling from faculty regarding their choices. It is important to know that graduate studies in Art History will usually require a reading knowledge of at least 2 languages other than English. German, French, Italian and Latin are among the most useful choices. Cognate electives in other disciplines in the College of Arts (such as History) will almost certainly prove an asset.

## Art History Core Requirements

All students are required to complete the following core courses [1.50 credits]:
ARTH* $1220 \quad[0.50] \quad$ The Visual Arts Today
ARTH*1510 [0.50] Art Historical Studies I
ARTH* $1520 \quad[0.50] \quad$ Art Historical Studies II

## Major (Honours Program)

A minimum of 9.00 credits is required, including:

## Art Theory and Criticism (ATC)

## School of Fine Art and Music

The Minor program in Art Theory and Criticism offers students the opportunity to engage critically with the most significant interpretative methods art historians and critics use to analyze artwork. Courses will provide an overview of important debates in the field and of their contexts, as well as informed discussions of the issues that are raised when textuality and visuality come together.
This program of study is designed as a complement to a significant number of Major specializations, and is suitable for any student wishing to broaden their knowledge beyond their Major area of study. Students wishing to combine this Minor with a Major in Art History are advised that the selection of their required courses should begin early in their degree, and that they should obtain counselling from faculty to ensure they can achieve the correct distribution.

## Minor (Honours Program)

A minimum of 5.00 credits is required, including:

| a. ARTH* 1220 | [0.50] | The Visual Arts Today |

## Criminal Justice and Public Policy (CJPP)

Department of Sociology and Anthropology, and the Department of Political Science, College of Social and Applied Human Sciences
Criminal Justice and Public Policy is offered as a minor in the honours program and as a major in the honours program. It is designed to provide students seeking a career in the criminal justice system, or planning to pursue an advanced degree with a knowledge base that will enable them to pursue their career objectives. The program offers a unique blend of sociological courses dealing with the criminal justice system as well as courses in Political Science dealing with public policy formation and implementation. It also provides students with the conceptual and methodological tools needed for further study.
Students who are not admitted directly into the CJPP major and subsequently wish to declare the specialization must apply directly to the department. In order to be eligible, applicants must have a cumulative average of $70 \%$ or better in the following foundation courses:

| POLS*1400 | $[0.50]$ | Issues in Canadian Politics |
| :--- | :--- | :--- |
| POLS*2250 | $[0.50]$ | Public Administration and Governance |
| POLS*2300 | $[0.50]$ | Canadian Government and Politics |
| SOAN*2120 | $[0.50]$ | Introductory Methods |
| SOC*1500 | $[0.50]$ | Crime and Criminal Justice |
| SOC*2700 | $[0.50]$ | Criminological Theory |

Note: The requirement for an average of $70 \%$ or better applies only to students admitted to the University of Guelph after 30 April 2002.
Students wishing to declare the CJPP minor must also meet the above requirement.
Students from other institutions who transfer to the University of Guelph and wish to declare the CJPP major or minor must also meet the above requirement. If an external transfer student is granted credit for one or more of the foundation courses listed above, then he or she must attain a cumulative average of $70 \%$ or better in the remaining required CJPP foundation courses.
Note: There is no CJPP Area of Concentration in the General Program as of Fall 2002.

2.50 other credits in Economics at the 3000 or 4000 level, at least 1.50 of which must be at the 4000 level
Note: Students contemplating graduate studies in Economics should take ECON*4640, Applied Econometrics and ECON*4840, Applied Econometrics II.

## Minor (Honours Program)

A minimum of 5.00 credits in Economics is required, including:
a. the Economics core
b. 2.50 other credits in economics at the 3000 or 4000 level

## Notes:

## 1. $\mathrm{ECON} * 3740$ is recommended.

2. Students wishing to pursue a more structured Economics minor should take ECON*3710 as well as ECON*3740.
3. Only one of $\mathrm{ECON} * 2200$ or $\mathrm{ECON} * 3200$ may be counted towards the minor. ECON* 4800 may not be counted at the 4000 level for purposes of satisfying the minimum 4000 level credit requirements in the B.A. Honours Economics major. Only one of $\mathrm{ECON} * 4900$ or $\mathrm{ECON} * 4910$ may count in the B.A. program towards the minimum 4000 level requirement.

## Economics (Co-op) (ECON:C)

## Department of Economics, College of Management and Economics

The Economics Co-op program provides an integrated academic/work experience for students with co-operating employer organizations. Students in the program complete 4-5 work terms while fulfilling the requirements of their honours Economics program.
All co-op students must complete the Economics core plus an introductory computer science course (CIS*), ECON*2770 and ECON*3740 in their first 4 semesters. Admission in the co-op program is limited to students of high academic standing and will be considered only at semester 1 entry or at the end of semester 2 . The first 2 work terms normally follow completion of the first 4 semesters of academic study. Students will only be permitted to take these work terms if they are eligible to continue in the Honours Economics program, have completed the required courses and are maintaining a satisfactory standing in their Economics program. The 3rd and 4th work terms will normally follow the 6th academic semester. For further information on the Economics Co-op program students are urged to consult the department's Program Guide and Co-operative Education Programs in Section X-degree Programs in this calendar.
Students should review the Economics section in the schedule of studies for additional program information.

## English (ENGL)

## School of English and Theatre Studies, College of Arts

The School of English and Theatre Studies offers courses in the B.A. Program in English that focus on the study of literature and related texts across a broad range of theoretical, historical, and geographical sites. The School also welcomes non-majors into its courses at the 1000,2000 , and 3000 levels, suitable to other majors within the College of Arts and beyond. Certain courses in Theatre Studies (THST) and in Literature in Translation (CLAS, GERM, HUMN, SPAN) may be counted towards a degree in English. Consult the School of English and Theatre Studies for details.
First-year students registered in or considering one of the programs in English should register for ENGL*1080 in the first semester and ENGL*2080 in the second semester.

## Area of Concentration (General Program)

A minimum of 5.50 English credits is required in the English core and the English electives. English elective courses must be chosen to fulfill the Distribution Requirements for the Area of Concentration.
English core -2.00 credits as follows:

- $18^{\text {th }}-$ and $19^{\text {th }}-$ century Literature
- $20^{\text {th }}$-and $21^{\text {st }}$-century Literature

Of these 3.00 credits, at least 0.50 credits must be in Canadian Literature.
A maximum of 2.00 credits at the 4000 level may be counted towards a major in English. Note: Please visit the School of English and Theatre Studies website: http://www.arts.uoguelph.ca/sets for a list of courses that fulfill these requirements.
Honours students interested in a more concentrated program or contemplating graduate work in English are strongly advised to:

- attain a good reading knowledge of another language, such as French
- take ENGL*3380 (Studies in the History of Literary Production), ENGL*3690 (History of Literary Criticism), ENGL*4890 (Contemporary Literary Theory)
The M.A. program in English at Guelph gives preference to qualified applicants with a broad experience in literary and cultural studies and related disciplines.

## Minor (Honours Program)

The program of study and requirements are the same as for the Area of Concentration in the General Program.

## Environmental Governance (EGOV)

## Interdisciplinary Program

Environmental governance refers to the processes through which societies make decisions that affect the environment. Governments have long been dominant players in this context However, in Canada and around the world, the ability of governments alone to address environmental problems is being called into question. As a result, contemporary environmental governance increasingly involves citizens, non-government organizations, and businesses.
The interdisciplinary Major in Environmental Governance introduces students to the challenges of environmental governance. Through completing courses from the disciplines of geography, political science, agricultural economics, and economics, students will receive: a solid foundation in the processes and mechanisms of environmental governance in Canada and elsewhere; an understanding of geographical, political, and economic factors that shape governance in Canada and around the world; and exposure to innovative approaches to environmental governance that address persistent and emerging societal concerns. Students completing the major will have the skills and experiences needed to participate effectively in environmental governance in a variety of settings. Hence, they will find careers in the public sector, in environmental non-government organizations, and, increasingly, in the private sector.
Completion of required courses, and careful selection from among optional courses, will facilitate students completing a minor in Geography, Political Science, or Economics. Minors in other programs also may complement the Major in Environmental Governance.

## Major (Honours Program)

## European Studies (EURS)

## Interdisciplinary Program

The European Studies program is designed for students who seek a career in International Relations - especially in International Business and Administration - between Canada and Europe. It offers a combination of languages, specially designed courses in European thought, letters and history and specialization in either European Business or European Culture and Civilization
Successful completion of the European Studies major requires proficiency in one of the following languages (French, German, Italian or Spanish). In order to demonstrate language proficiency, students have two options: they may study for a year at a European University, in the country where their chosen core language is spoken, or they may write a final research paper in the chosen core language within a required fourth year European Studies course (see EURO*4740). It is highly recommended that students spend their third year studying at a European university, in the country where their chosen core language is spoken. The benefits of such an experience are considerable, both academically and personally. One specific academic outcome of a successful year abroad will be recognition that the student has fulfilled the program's core language requirement. For students who have spent one year studying at a European university in a country where their chosen core language is spoken, a course taken in that year involving a major academic paper or exam in the core language will, upon approval of the Co-ordinator of European Studies, be substituted for EURO*4740. See the Coordinator for the European Studies program for more information. See also the course description for EURO*4740.

## Major (Honours Program)

A minimum of 12.50 credits is required, including:
a. the three components of the European Studies core ( 7.50 credits)
b. 5.00 credits in either the European Culture and Civilization or the European Business

Studies area of emphasis

Note: in order to demonstrate language proficiency, students must write a research paper (EURO*4740) in their core language unless they have spent one year studying at a European university, in the country where their chosen core language is spoken. Where that is the case, a course taken in that year involving a major academic paper of exam in the core language will, upon approval of the Co-ordinator for European Studies, EURO*4740.

Year 3 or year 4 will provide students with the opportunity to continue their studies abroad. Students will select up to 6.00 credits which can be included in the area of emphasis, as electives, or both. They are subject to approval by the program coordinator and the departmental advisor. Courses taken in Europe will not count towards the specialization average.

## Practicum Opportunity:

HUMN* $3501 / 2$ is available for those students wishing to participate in a practicum experience as part of the year abroad. The practicum must be a job or volunteer experience that contributes to the student's area of study and intended career. It must be approved in advance as a Letter of Permission by the Coordinator. A final report, written in the student's chosen language, is a requirement of this course.

## Family and Child Studies (FCS)

Department of Family Relations and Applied Nutrition, College of Social and Applied Human Sciences

Family and Child Studies is offered as a minor in the honours program. It is designed to provide students with an opportunity to pursue interdisciplinary studies which have a specific focus on human development over the life span and on the applied questions which relate to the needs of children and the functioning of families. Elective courses may be chosen to emphasize the family, the child, or a combination of the two. Students seeking counselling should consult with a departmental advisor in the Department of Family Relations and Applied Nutrition.

## Minor (Honours Program)

A minimum of 5.00 credits is required, including:
FRHD* 1010 [0.50] Human Development
FRHD* $1020 \quad$ [0.50] Couple and Family Relationships

A further 2.50 credits offered by the Department of Family Relations and Applied Nutrition (FRHD or NUTR*2050), of which at least 1.50 must be at the 3000 level or above including at least 0.50 at the 4000 level.
Note: where students are required to complete PSYC*2450 for their program of study, FRHD*2270 will not be required in the FCS minor, PSYC* 2450 will be substituted for FRHD*2270.

## Food, Agricultural and Resource Economics (FARE)

Department of Food, Agricultural and Resource Economics, Ontario Agricultural College
The Food, Agricultural and Resource Economics major addresses the means by which individuals, acting in a society, achieve their wants and desires with respect to food quality and production, environmental quality and resource use, and broader goals as they relate to the food-resource-agriculture interface. This major builds the student's capacity to address these issues by developing an understanding of economic theory and applied methods in both the Canadian and world context. Beyond the core offering, the major provides the flexibility for students to pursue thematic areas of study, as well as an opportunity to take additional liberal arts courses. In addition, this major provides excellent
background for those students planning to undertake graduate work in food, agricultural or resource economics and other fields of applied economics.

## Major (Honours Program)

A minimum of 10.00 credits, consisting of the 8.50 credits specified below plus 1.50 credits of restricted electives, is required, including:

Notes: A student may obtain permission to substitute certain other courses for the ones listed if the substitute courses fit with the students program. Approval from a departmental advisor is required.
Unless taken to satisfy the requirements of another program, no student may receive credit in this program for more than one of the following statistics prerequisites ECON*2740, STAT*2040, STAT*2060, or STAT*2080.

## French Studies (FREN)

School of Languages and Literatures, College of Arts
All language courses carry 0.50 credits. Please note that students with Ontario Grade 12 credit or its equivalent in French are not normally admitted into FREN*1090, FREN* 1100, FREN*1120 or FREN*1150. Francophone students usually start the program with second-year courses conditional upon approval by the Faculty Advisor. Students majoring in French are advised to take elective courses in another Romance language and in Latin. It is also recommended that students include CLAS*1000 and LING*1000 among the electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in French courses are expected to have the appropriate academic background.

## Area of Concentration (General Program)

A minimum of 5.00 French credits taught in French is required, including FREN*1200, FREN*2020, FREN*2030, FREN*2060, FREN*2520, FREN*3520.

## Major (Honours Program)

A minimum of 8.00 French credits taught in French is required, including:
a. FREN* 1200, FREN*2020, FREN*2030, FREN*2060, FREN*2520, FREN*3230
b. at least 0.50 credits from FREN*2500, FREN*2540
c. at least 2.00 additional credits from FREN*3000, FREN*3010, FREN*3070, FREN*3120, FREN*3150, FREN*3200, FREN*3240, FREN*3560
d. at least 1.00 credits from FREN*3500, FREN*3520, FREN*3530 e. at least 1.50 credits at the 4000 level

## Minor (Honours Program)

A minimum of 5.00 French credits taught in French is required, including:
a. FREN*1200, FREN*2020, FREN*2030, FREN*2060, FREN*2520, FREN*3520
b. 1.00 credits in French literature from FREN*3000, FREN*3010, FREN*3070, FREN*3120, FREN*3200 , FREN*3240, FREN*3560, FREN*4300, FREN*4050, FREN*4220, FREN*4290,
c. 1.00 additional credits from French

## Notes:

1. Students are strongly urged to take 0.50 language credits each semester.
2. Students in the general program may take 4000 level courses, but must previously have taken FREN*3520.
3. Students of French are encouraged to take advantage of the French residence on this campus. Applications for accommodation in the Maison Française should be made well in advance of registration.
4. FREN* 1000, FREN* 1090, FREN* 1100, FREN* 1120, FREN* 1150 , are not counted toward a specialization in French.
5. Native speakers of French (or non-francophone equivalent) will not normally be admitted into FREN*1200 and FREN*2030. It is recommended they start their program with FREN*2020, FREN*2060, FREN*2500, or FREN*2520 with the approval of the Faculty Advisor.

## Studies in Quebec or Abroad

The French program encourages students to spend 1 or 2 semesters in a French-speaking province or country, or to pursue their studies in an immersion program at the university level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance of registration to the Director of the School of Languages and Literatures. A letter of permission is required (see Section VIII--Undergraduate Degree Regulations \& Procedures). Students may also take advantage of federal-provincial programs such as the Second-Language Monitor program.

## Year in Nice

A special year-long program in Nice, France, is offered to Guelph students at semester levels 5 and 6. All courses for which transfer credits have been arranged are credited at Guelph without the need for letters of permission; students pay only Guelph academic fees and are eligible for OSAP. For further information see the Head of French Studies.

## Geography (GEOG)

## Department of Geography, College of Social and Applied Human Sciences

The Department of Geography provides students with a broad range of courses in Human and Physical Geography which focus on the nature and evolution of the numerous and complex physical and human environment systems of the world. Students are required to select courses from both the human and physical fields. Within the program of studies it is possible for students through course selection to follow a particular line of interest in, for example, Rural Geography, Resource Management, Urban and Economic Geography, Biophysical Resources or Geomorphology.
The 1000 level courses provide a foundation for the Geography programs and are prerequisites or are strongly recommended for many of the 2000 level courses. The 2000 level systematic courses are prerequisite to the corresponding advanced courses at the 3000 and 4000 level. All students should obtain a copy of the department program planning guide and consult with faculty before planning their course of studies.
Students contemplating graduate or professional programs of study following completion of the honours program should consult a departmental advisor for advice on additional courses that they should take.
The department also offers a B.SC. honours Earth Surface Science program (jointly with Land Resources Science), a B.SC.(ENV.) honours Environmental Geography Major program, and a B.SC. honours program Minor in Geographic Information Systems and Environmental Analysis which are described in the schedule of studies for each of the programs (Section X). Geography B.A. honours Majors are eligible to take the B.SC. Minor. All Geography students are encouraged to consult with a departmental advisor regarding course selection.
The following courses may be counted as Geography credits: ENVS*4220, GEOL*2150 , MET*2030, SOIL*2010.

## German (GERM)

## School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Students with two years of high school German or equivalent may not be admitted into GERM*1100. Students with 12 U German credit or its equivalent may be admitted into GERM*1110 only with the approval of the department. All language students are advised to include LING* 1000 among their electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in these courses will be expected to have the appropriate knowledge.

## Study Abroad

The School of Languages and Literatures encourages students in the German program to spend 1 or 2 semesters in a German speaking country to continue their studies at the University level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements.). For more information, contact the Centre for International Program or the School of Languages and Literatures.

## Minor (Honours Program)

A minimum of 5.00 credits in German is required.
Upon passing both the German designation and its Humanities co-requisites, students may also count HUMN*3020 and HUMN*3470 toward the German minor.
Students enrolled in the German program must contact the School of Languages and Literatures for an up-to-date sequence of course offerings.

## Hispanic Studies (HISP)

## School of Languages and Literatures, College of Arts

The Hispanic Studies program enables students to concentrate on the Spanish language and on Spanish and Latin American literature. Language courses provide study of the grammatical concepts required to establish and enrich reading, writing, oral and aural skills from basic through advanced levels of study. Through literature and film, students are introduced to a variety of cultural, historical, social, and political topics.
The usual first course in Spanish is HISP*1100. Students with 4U Spanish commonly take HISP*2000. They may be admitted into HISP*1110 only with the approval of the Instructor or the Faculty Advisor. Students with native or near native fluency normally begin language courses with HISP*2000. Such students should consult the Head of Hispanic Studies before beginning their studies, so that pre-requisite waiver forms are completed.

All language students are strongly advised to include CLAS*1000 and LING*1000, among their electives in order to derive the maximum benefit from their studies.

## Study Abroad

The Hispanic Studies program encourages its students to take advantage of the University of Guelph's exchange programs and the semester abroad opportunities. Exchange programs with the University of Málaga and the University of La Rioja in Spain and with the Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM) in Mexico are very popular. Students also enjoy the semester abroad opportunity every second winter in Guatemala. It is recommended that students go on exchange in their third year. In order to be eligible for an exchange, students should have completed at least HISP*2010, HISP*2990 and HISP*2040 and HISP*3080. Credits successfully completed at the host university are applied towards University of Guelph degree requirements. Please see the International Study section of the undergraduate calendar and consult the Coordinator of Hispanic Studies for more information.

## Area of Concentration (General Program)

A minimum of 5.00 credits in Hispanic Studies is required, including:
a. 2.50 credits from HISP*1110, HISP*2000, HISP*2010, HISP*3500, HISP*3530, HISP*4500, HISP*4520
b. HISP*2040, HISP*2990, HISP*3080
c. 0.50 credits in literature
d. additional 0.50 credits in Hispanic Studies.

## Major (Honours Program)

A minimum of 8.00 credits in Hispanic Studies is required, including:
a. HISP*2000, HISP*2010, HISP*2040, HISP*2990, HISP*3080, HISP*3220, HISP*3230, HISP*3240, HISP*3500, HISP*3530, HISP*4410, HISP*4420, HISP*4500, HISP*4520

## Minor (Honours Program)

A minimum of 5.00 credits in Hispanic Studies is required, including:
a. 2.50 credits from HISP*1110, HISP*2000, HISP*2010, HISP*3500, HISP*3530, HISP*4500, HISP*4520
b. HISP*2040, HISP*2990, HISP*3080
c. 1.00 credits in literature

Students wishing to substitute required courses with courses taken abroad, or other options, should consult the faculty advisor.

## History (HIST)

Department of History, College of Arts
Courses marked (H) are designed as honours courses. Students in a general program wishing to take these must obtain the permission of instructors concerned. All other courses may be taken by both general and honours students. Students wishing to take a 3000 level course must have pass standing in at least 5.00 credits in university courses.
Students wishing to take a 4000 level course must have pass standing in at least 10.00 university credits. Access to all 4000 level history courses is restricted to students in the B.A. Honours program with at least a $70 \%$ average in all history course attempts. Students should note the prerequisite requirements of upper level courses in planning their individual programs.
Students entering semester 1 are advised to choose from 1000 level courses. Second semester students wishing to take an advanced level History course should select that course from the History core.

## Core Requirements

a. HIST*1010, HIST*2100, HIST*2450, HIST*2600
b. 0.50 credits from each of a) Pre-Modern; b) Developing World; and c) Thematic. Course lists available in the Department of History and at http://www.uoguelph.ca/history/.

## Area of Concentration (General Program)

A minimum of 5.00 credits in History is required, including:
a. at least 1.50 credits in History must be at the 3000 level (excluding HIST*3470)
b. students should take the History Core Requirements

Note: With the permission of the department, students may select as part of their program 0.50 credits outside the History Department such as ECON*2420, ECON*3730, EURO*4600, WMST*4010.

## Major (Honours Program)

A minimum of 8.00 credits in History courses is required, including:
a. the History Core Requirements
b. 4.50 additional credits in History including 2.00 at the 4000 level.

## Minor (Honours Program)

A minimum of 5.00 credits in History is required, including:
a. the History Core Requirements
b. 1.50 additional credits in History, including 1.00 at the 3000 or 4000 level.

Note: Honours students in History may, with the permission of the department, take up to 1.00 credits from outside the department such as ECON*2420, ECON*3730, EURO*4600, WMST*4010. Students considering graduate work are advised to take 2.00 - 3.00 additional upper level History credits perhaps including the Special History Project Seminar (HIST*4470, HIST*4970) and to acquire a reading knowledge of a foreign language. Honours students must complete HIST* 2450 by the end of their third semester to be eligible for 3000 level History courses.

## Individual Studies (IS)

## Interdisciplinary Program

## B.A. Counselling Office, Room 130, MacKinnon Building, Ext. 52140.

Honours B.A. students have the option of doing an Individual Studies Major. Students in the Individual Studies Major have the opportunity to determine the goals and methods of their studies. Areas of study can include courses in any of the colleges and where the University of Guelph has faculty expertise to assist students. Students are encouraged to develop an interdisciplinary perspective, and to explore the methods of inquiry which provide depth of knowledge in a specific subject.
A student submitting a proposal for the Individual Studies Major must submit the complete proposal to the B.A. Program Counsellor before the third week of classes of semester four. The B.A. Program Committee will consider proposals once, and will approve, approve with revisions, or deny the proposal. Proposals cannot be resubmitted.
Proposals will not be considered unless they articulate a detailed rationale for a coherent program of studies that is significantly different from any existing major and minor combination at the University of Guelph, and unless the proposal meets the following criteria:
a. minimum of 9.00 credits
b. minimum of 4.00 credits at the 3000 level and above, including at least 1.00 credits at the 4000 level
c. minimum of 1.00 credits in methods and/or theory
d. maximum of 1.50 credits at the 1000 level
e. a senior level Directed Readings or Special Project course must be completed. When appropriate, the Committee will identify a faculty member as the supervisor for a student's course of study.
A student wishing to submit a proposed program of studies for the Individual Studies Major must prepare a proposal that will include the following:
a. a clear statement of theme or areas of study
b. a clear statement of the contribution of the major to a post-graduation field of work or study
c. a clearly set out rationale for inclusion of the specific courses and how they relate to or develop the theme or areas of study
d. a list of required "core" courses and "restricted electives" following the above criteria. When proposing core and restricted elective credits, students should keep in mind the prerequisites for their desired 3000 and 4000 level courses
Note: Students undertaking the Individual Studies Major must fulfill the requirements of the B.A. Honours Program as set out in Section X. The B.A. Program Counsellor is the academic counsellor. The Individual Studies designation will appear on the student's transcript upon graduation, but the title or subject of the major will not.

## Information Systems and Human Behaviour (ISHB)

## Interdisciplinary Program

As computers and communications play progressively more subtle and significant roles in society, this program of study brings together the elements of 3 disciplines to provide students with an understanding of technical, behavioural and social aspects of information technology. This program of study is a co-operative effort of the Department of Computing and Information Science, Department of Psychology, and Department of Sociology and Anthropology. Students in this program will be advised by the program coordinator in the Department of Computing and Information Science.

## Interdisciplinary Program

## Faculty Advisor: Room 045 MacKinnon Building, ext 56175.

The International Development program provides students with an opportunity to pursue interdisciplinary and comparative studies of long-term change and international inequality. A broad coverage of the process of international development, from the perspectives of history and social science, forms the basis for more in-depth study on such topics as economic growth, the biophysical environment, gender, agriculture and rural life, politics and administration, and the Latin American region.
The primary participating departments are Economics, Geography, Political Science, and Sociology and Anthropology.

## Area of Concentration (General Program)

A minimum of 5.25 credits is required, including:

## Major (Honours Program)

A minimum of 12.50 credits is required, including the core of 7.50 credits and one of seven areas of emphasis for 5.00 credits. The areas are: Economic and Business Development, Gender and Development, Rural and Agricultural Development, Environment and Development, Latin American Studies, Political Economy and Administrative Change, and Historical Perspectives in Development. Students must select an area of emphasis by the end of the 4th semester of university study.
International Development students are encouraged to acquire at least one foreign language and to work or study abroad.
With the permission of the International Development Studies faculty advisor, students may replace 0.50 credits from their area of emphasis with IDEV*3200, or 1.00 credits from their area of emphasis with IDEV*4190 and IDEV*4200.
Note: When selecting courses, students should keep in mind the prerequisites for their desired 3000 and 4000 level courses.

Italian (ITAL)

## School of Languages and Literatures, College of Arts

All language courses carry 0.50 credits. Students with Year 4 or grade 12 Italian or their equivalent may be admitted into ITAL*1060 or ITAL*1070 only with the approval of the department. Students advancing in a Romance language (French, Spanish, Italian) are advised to take elective courses in a second Romance language and in Latin. All language students are strongly advised to include CLAS*1000 and LING*1000 among their electives in order to derive the maximum benefit from their studies. Except where stated otherwise, literary texts are, at all levels, studied in the original language. Students registering in these courses will be expected to have the appropriate knowledge.

## Study Abroad

The School of Languages and Literatures encourages students in modern languages to spend 1 or 2 semesters in another country to study a particular language at the university level. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements. Requests should be addressed well in advance to either the School or a particular section of the School. A letter of permission is required (see Section VIII--Undergraduate Degree Regulations and Procedures.)
Italian may be taken as a minor in the honours program. Students in Italian will be counselled by the School of Languages and Literatures.

## Minor (Honours Program)

A minimum of 5.00 credits is required, including:

## Mathematics (MATH)

Department of Mathematics and Statistics, College of Physical and Engineering Science
Mathematics and Statistics have become crucial components in the understanding and exploration of more and more disciplines. Persons with a strong background in mathematical sciences have access to a broad range of rewarding opportunities. Within the B.A. program, the Department of Mathematics and Statistics offers areas of concentration, majors and minors, both in Mathematics and Statistics. The Mathematics programs are designed to provide considerable flexibility for students to pursue their own interests, whether they be in the concepts of "pure" mathematics or techniques and applications. As a result, these programs open up opportunities for careers in many sectors such as business, education, government, industry, or medicine.

## Area of Concentration (General Program)

A minimum of 5.00 Mathematics credits is required, including:
a. 4.00 credits in Mathematics, including at least 1.00 from courses at the 3000 level or above
b. 1.00 additional credits from Mathematics, Statistics and/or Computing Science

## Honours Programs

Students without MHF4U Advanced Functions and/or MCV4U Calculus and Vectors should consult with the department advisor.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Of the minimum of 20.00 credits required to complete an Honours BA degree, at least the following 9.50 credits must be completed for the Mathematics Major:
CIS*1500 [0.50] Introduction to Programming
MATH*1200 [0.50] Calculus I
MATH ${ }^{*} 1210 \quad[0.50] \quad$ Calculus II
MATH*2000 [0.50] Set Theory
MATH*2130 [0.50] Numerical Methods
MATH*2160 [0.50] Linear Algebra I
MATH*2170 [0.50] Differential Equations I
MATH $2200 \quad[0.50] \quad$ Advanced Calculus I
MATH*2210 [0.50] Advanced Calculus II
MATH*3100 [0.50] Differential Equations II
MATH*3130 [0.50] Abstract Algebra
MATH*3160 [0.50] Linear Algebra II
MATH*3200 [0.50] Real Analysis
MATH $3260 \quad[0.50] \quad$ Complex Analysis
STAT*2040 [0.50] Statistics I
0.50 additional credits in MATH or STAT at the 3000 level or above.
1.50 additional credits in MATH at the 4000 level ( 0.50 of which may include STAT* 4340 ).

## Recommended Schedule of Studies for Major (Honours Program)

Semester 1
CIS*1500 [0.50] Introduction to Programming
MATH* $1200 \quad[0.50] \quad$ Calculus I
1.50 credits selected from the College of Arts and the College of Social and Applied

Human Sciences*
Semester 2
MATH* $1210 \quad[0.50] \quad$ Calculus II
0.50 credits selected from the College of Arts and the College of Social and Applied Human Sciences*
2.00 electives** (PHIL*2110 and CIS*2500 are recommended in Semester 2 or Semester $^{*}$. 4).

1.00 electives***

Note: Students are encouraged to take STAT*3100 or STAT*3240. Students who wish to take STAT* 4340 in Semester 8 should take STAT*3100 in Semester 5, STAT*3110 in Semester 6 and STAT*3240 in Semester 5 or 7.

## Semester 6

MATH*3160 [0.50] Linear Algebra II
(If not taken earlier; otherwise 0.50 electives)
MATH*3260 [0.50] Complex Analysis
1.50 electives***

## Semester 7

2.50 electives***

Semester 8
2.50 electives***
*These courses should be chosen from the list of Semester 1 requirements as listed in the Program Regulations for the BA
**Students are reminded that they must meet the BA distribution requirements of 1.50 credits in the humanities and 1.50 credits in the social sciences.
***These electives must include at least 0.50 credits in MATH or STAT at 3000 level or above, and at least 1.50 credits at the 4000 level in MATH (which may include STAT*4340).

## Minor (Honours Program)

A total of 5.00 credits is required to complete the Minor including:
2.50 credits from (MATH*1080 or MATH*1200), (MATH*1210 or MATH*2080), MATH 2000 , (MATH 2150 or MATH*2160), MATH*2200
0.50 STAT credits at the 2000 level or above
2.00 additional Mathematics credits at the 2000 level or above, including 1.50 credits at the 3000 or 4000 level

## Museum Studies (MS)

## School of Fine Art and Music

The Minor program in Museum Studies offers an introduction to museum culture from both theoretical and practical perspectives. Courses in the program cover the history of museums, examination of assumptions that have guided the collecting and classifying of visual culture, and consideration of how these institutions serve the needs of national and group identity construction.
This program of study is designed as a complement to a significant number of Major specializations, suitable for any student wishing to broaden their knowledge beyond their Major area of study.

## Minor (Honours Program)

(May not be taken in combination with Art History Honours Major).
A minimum of 5.00 credits is required, including:
a. ARTH* $1220 \quad[0.50] \quad$ The Visual Arts Today

ARTH* $1510 \quad[0.50] \quad$ Art Historical Studies I
ARTH* 1520 [0.50] Art Historical Studies II
b. 3.50 additional credits in Art History including:

ARTH*2120 [0.50] Introduction to Museology
ARTH*2480 [0.50] Introduction to Art Theory and Criticism
ARTH*3220 [0.50] Nationalism \& Identity in Art
ARTH*3330 [0.50] Display: Visual Culture in Western Europe
ARTH*4620 [0.50] Museum Studies
Music (MUSC)
School of Fine Art and Music, College of Arts
The School offers courses in music history, theory, ethnomusicology, and performance. Many courses are open to all students, while others require knowledge of the rudiments
of musical notation or other prerequisites. Students are urged to plan their program in consultation with a Music advisor. Music programs allow considerable flexibility for students to elect one or more areas of interest, such as individual study on an instrument, performing in vocal or instrumental ensembles, specialized historical or theoretical study, directed readings, or an independent project. Physics of Music (MUSC*1090) is strongly recommended for all Music students and will count as one of the courses for the B.A. math/science requirement.
Courses in Music are offered in several of the semesters abroad, especially London. Credit for programs of study successfully completed may be applied towards the University of Guelph degree requirements.

## Applied Music

MUSC*1500 is available only by audition. MUSC* 1500 is restricted to students in Semesters 1-4. Students who wish to continue to the 2000 level in Applied Music must be enrolled in a Music program, general program; area of concentration; honours program, major or minor.
Applied Music courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students may be required to reapply (re-audition) before registering to continue in Applied Music. Students must achieve a minimum grade $70 \%$ in Applied Music courses in order to proceed to the next level.

## Applied Composition

Private instruction is offered in music composition. In order to register in Applied Composition (MUSC*2410), students must submit a portfolio of compositions (scores and recordings) to the School of Fine Art and Music at the time of course selection. Interviews are held prior to the first day of classes each semester (see School of Fine Art and Music for interview schedule). In order to enrol in Applied Composition, students must be registered in a Music program: Area of Concentration (General Program), Major or Minor (Honours Program). Applied Composition courses are designed to be taken during successive Fall and Winter terms. If this sequence is interrupted for more than one semester, students may be required to reapply before registering to continue in Applied Composition. Students must achieve a minimum grade of $70 \%$ in Applied Composition courses in order to proceed to the next level.

## Core Requirements

The Music core is designed to provide the concepts and skills students need for successful study in higher level courses. All students in the general program area of concentration and honours program major must complete the following courses:
MUSC*1180 [0.50] Musicianship I
MUSC* $1250 \quad[0.50] \quad$ Melody and Counterpoint
MUSC*2180 [0.50] Musicianship II
MUSC*2360 [0.50] Tonal Harmony I
MUSC*2370 [0.50] Tonal Harmony II
MUSC*2600 [0.50] Music History: Chant to Josquin
MUSC*2610 [0.50] Music History: The Reformation to J.S. Bach
MUSC*2620 [0.50] Music History: Classical and Romantic Eras
MUSC*3630 [0.50] 20th Century Music
Note: MUSC* 1130 does not count toward either the Major (Honours), Minor (Honours), or Area of Concentration (General Program).

## Area of Concentration (General Program)

A minimum of 6.00 Music credits is required, including:
a. the Music core ( 4.50 credits)
b. at least 1.00 Music credits at the 3000 level or above
c. two of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560.

## Major (Honours Program)

A minimum of 9.00 Music credits is required, including:
a. the Music core ( 4.50 credits)
b. two of MUSC*2530, MUSC*2540, MUSC*2550, MUSC*2560.
c. one of MUSC*2110, MUSC*2140, MUSC*2150, MUSC*2200
d. one of MUSC*2100, MUSC*2220
e. MUSC*4401/2 or MUSC*4450
f. 2.00 additional Music credits at the 3000 or 4000 level

Participation in Applied Music courses is strongly recommended for all honours students. Students contemplating graduate studies in Music should consult music faculty early in their program.

## Minor (Honours Program)

A minimum of 5.00 Music credits is required, including MUSC*1180 and at least 2.00 Music credits at the 3000 or 4000 level. Students should be aware that courses at the 3000 or 4000 level may require additional prerequisites.
Honours students considering graduate work in ethnomusicology, performance, theory, and other music specializations should consult the School Director or a faculty adviser early in their program. Students should take courses covering a broad range of historical periods and methodologies, and also consider courses in Humanities (HUMN), dramatic
theory, art history, anthropology, and English literature. A reading knowledge of at least one language other than English is also recommended.

## Philosophy (PHIL)

## Department of Philosophy, College of Arts

The Department of Philosophy offers programs emphasizing the history of philosophy and the study of metaphysics, epistemology, ethics and logic. The requirements for the various Philosophy programs are designed to ensure a basic competence in the discipline while permitting varying degrees of flexibility. It is important that students discuss their programs with a departmental advisor in order to ensure that the best selection of elective Philosophy courses is made. This is especially important for students who are contemplating graduate work in Philosophy.
Students may take PHIL*1000, PHIL*1010 and PHIL*1050 but only one may be counted towards the minimum number of Philosophy courses required for a degree.

## Area of Concentration (General Program)

A minimum of 5.00 credits in Philosophy is required, including:
a. 1 of PHIL*2140, PHIL*2160, PHIL*2170, PHIL*3060, PHIL*3080, PHIL*3130, PHIL*3200, PHIL*3280
b. 1 of PHIL*2110, PHIL*2130, PHIL*2180, PHIL*2250, PHIL*3180, PHIL*3190, PHIL*3240, PHIL*3250, PHIL*3420, PHIL*3450, PHIL*3910, PHIL*3920, PHIL*3930, PHIL*4360, PHIL*4370, PSYC*3280
c. 1 of PHIL*2030, PHIL*2060, PHIL*2070, PHIL*2120, PHIL*2600, PHIL*3040, PHIL*3050, PHIL*3230, PHIL*4040, PHIL*4060, PHIL*4310, PHIL*4340
d. 3.50 additional credits in Philosophy

Note: Students must have at least 1.50 Philosophy credits at the 3000 or 4000 level.
The Department of Philosophy also offers a Minor in Ethics in the Life Sciences (Honours Program)
This program draws together critical and foundational analysis of the sciences (scientific method and concepts) with the philosophical disciplines of pure and applied ethics.
For more information, please see the program listing for Ethics in the Life Sciences (ELS).

## Major (Honours Program)

A minimum of 8.50 credits is required, including:
a. PHIL*2110, PHIL*2120, PHIL*2140, PHIL*2160, PHIL*3080
b. 2 of PHIL*2170, PHIL*2180, PHIL*2250, PHIL*3180, PHIL*3190, PHIL*3240, PHIL*3250, PHIL*3450, PHIL*4360, PHIL*4370, PSYC*3280
c. 2 of PHIL*2060, PHIL*3050, PHIL*3230, PHIL*4310, PHIL*4340
d. 2 of PHIL*2030, PHIL*2070, PHIL*2130, PHIL*2600, PHIL*3130, PHIL*3200, PHIL*3280, PHIL*3420, PHIL*3910, PHIL*3920, PHIL*3930, PHIL*4040, PHIL*4060
e. 3.00 additional credits in Philosophy

Note: Students must have at least 3.50 credits in Philosophy at the 3000 level or above, and at least 1.50 of these at the 4000 level.
Students planning to do graduate studies in philosophy should take PHIL*2110, PHIL*2120, PHIL*2140, PHIL*3080, PHIL*3130, PHIL*3200, (PHIL*4500 and/or PHIL*4550), PHIL*4800.

## Minor (Honours Program)

A minimum of 5.00 credits in Philosophy is required, including:
a. 1 of PHIL*2140, PHIL*2160, PHIL*2170, PHIL*3060, PHIL*3080
b. 1 of PHIL*2110, PHIL*2180, PHIL*2250, PHIL*3180, PHIL*3190, PHIL*3240,

PHIL*3250, PHIL*3450, PHIL*4360, PHIL*4370, PSYC*3280
c. 1 of PHIL*2060, PHIL*2120, PHIL*3050, PHIL*3230, PHIL*4310, PHIL*4340
d. 1 of PHIL*2030, PHIL*2070, PHIL*2130, PHIL*2600, PHIL*3130, PHIL*3200, PHIL*3280, PHIL*3420, PHIL*3910, PHIL*3920, PHIL*3930, PHIL*4040, PHIL*4060
e. 3.00 additional credits in Philosophy

Note: Students must have at least 2.00 credits in Philosophy at the 3000 level or above.
The Department of Philosophy also offers a Minor in Ethics in the Life Sciences (Honours Program).
This program draws together critical and foundational analysis of the sciences (scientific method and concepts) with the philosophical disciplines of pure and applied ethics.
For more information, please see the program listing for Ethics in the Life Sciences (ELS).

## Political Science (POLS)

## Department of Political Science, College of Social and Applied Human Sciences

The Department of Political Science offers courses in the following areas: Political Thought; Canadian Politics; Public Policy, Governance, and Law; Comparative Politics; and International Relations and Global Studies. The Department of Political Science also participates in several interdisciplinary programs, including Criminal Justice and Public Policy, International Development Studies, Environmental Governance, and European Studies.

Students taking courses in Political Science may enrol initially in POLS*1150, POLS*1400, POLS* 1500 , the latter 2 courses providing overview and introductory treatments of particular interest to students who wish to take higher level courses in the department but who do not intend to specialize in the discipline. For students intending to pursue a general or honours specialization in Political Science, however, POLS*1150 is required.
Courses at the 2000 level provide students with essential grounding in specific areas of the discipline and are normally prerequisite for enrolment in 3000 and 4000 level courses. Students in the honours program major are required to take POLS*3180 and POLS*3650. Students in the honours program minor are required to take POLS*3180.
In addition to the requirements set out in the B.A. Program Regulations, the Department of Political Science requires that students pursuing general and honours programs successfully complete a core requirement of 2.50 credits and meet specific distribution requirements as follows:

## Core Requirements

a. POLS*1150, POLS*2000, POLS*2300
b. POLS*2080 or POLS*2100
c. POLS*2200 or POLS*2250

## Area of Concentration (General Program)

A minimum of 5.00 credits in Political Science is required, including:
a. the Political Science core
b. 2.50 additional credits, at least 1.50 of which must be at the 3000 level or above

## Major (Honours Program)

A minimum of 9.00 credits in Political Science is required, including:
a. the Political Science core
b. POLS*3180 and POLS*3650
c. at least 0.50 credits at the 3000 level in three of the five fields in the department
d. 2.00 credits at the 4000 level, two of which may include the POLS*4970/POLS*4980 Honours Thesis **
** Students interested in pursuing graduate or professional studies related to Political Science are encouraged to consider taking the POLS*4970/POLS*4980 Honours Thesis sequence. Interested students must obtain instructor consent in order to register for this option.

## Minor (Honours Program)

A minimum of 5.00 credits in Political Science is required, including:
a. the Political Science core
b. POLS*3180
c. 0.50 credits at the 4000 level

Choices for fulfillment of prerequisites for 4000 level courses (see course descriptions for corresponding requirements).

POLS*3790 [0.50] The Political Economy of International Relations
The Department of Political Science offers a comprehensive counselling service for students in Political Science. As part of their program, the department also permits students to include 0.50 credits towards the general degree and 1.00 credits towards the honours degree from an approved list of courses offered by other departments.
Students are encouraged to consult with the departmental advisor for either of these programs about course selection, substitution of courses offered by other departments, or other matters.

## Psychology (PSYC)

Department of Psychology, College of Social and Applied Human Sciences
The discipline of Psychology is normally associated with the social sciences, the biological sciences, and the health professions. Specialization in Psychology at Guelph is available as a B.A. honours program major, a B.A. honours program major (co-op), and as an honours specialization in the B.SC. program (described in the schedule of studies for B.SC. programs). Through its different undergraduate programs, the Psychology Department attempts to provide a) a broad general education emphasizing psychological theory and methodology, with an empirical basis in course work (e.g. experiments and projects); b) an appropriate background in psychology for those who leave the University with an undergraduate degree to embark on careers in related areas (e.g. social services); and c) a sound preparation for graduate study in psychology. Students intending to apply for admission to graduate programs in Psychology are advised to refer to the Graduate Studies Advisory Note.
A cumulative average of at least $70 \%$ in all course attempts in Psychology is required to enter or continue in the Honours Psychology program major in semesters 4, 5, 6, 7, and 8.

## Minors

Students interested in a Minor in Psychology should examine the schedule of studies for the Minors in Psychology and Educational Psychology. The department does not offer Psychology as an Area of Concentration in the General BA Program.

## Note on Honours Courses

Courses marked (H) are designed for students in a psychology major or minor, the Information Systems and Human Behaviour major or the Educational Psychology minor. Students in other programs wishing to take these courses must obtain the permission of the instructors concerned. Courses designated with (H) are Honours level courses requiring for registration a cumulative average of at least $70 \%$ in all course attempts in Psychology, or registration in the ISHB Major.

## Core Courses

Students must complete at least 3.00 credits ( 2.00 credits for the PSYC minor) of the following 2000-level Psychology courses. Psychology students are advised that they are normally expected to complete at least four 2000 level Psychology core courses prior to attempting any 3000 level Psychology courses.
PSYC*2310 [0.50] Introduction to Social Psychology
PSYC*2330 [0.50] Principles of Learning
PSYC*2390 [0.50] Principles of Sensation and Perception
PSYC*2410 [0.50] Behavioural Neuroscience I
PSYC*2450 [0.50] Introduction to Developmental Psychology
PSYC*2650 [0.50] Cognitive Psychology
PSYC*2740 [0.50] Personality

## Major (Honours Program)

A minimum of 9.00 credits in Psychology is required, including (see notes below):
PSYC* $1100 \quad[0.50] \quad$ Principles of Behaviour
PSYC*1200 [0.50] Dynamics of Behaviour
6 of the 2000 level Psychology core courses listed above
PSYC*2010 [0.50] Quantification in Psychology
PSYC*2040 [0.50] Research Statistics
PSYC*2360 [0.50] Introductory Research Methods
PSYC*3250 [0.50] Psychological Measurement
1.50 additional Psychology credits at the 3000 level or above (see Graduate Studies Advisory Note).
1.50 additional psychology credits at the 4000 level (See Graduate Studies Advisory Note).
Notes:

1. PSYC*2010 should normally be completed by the end of semester 3
2. PSYC $* 2360$ should normally be completed by the end of semester 4
3. PSYC* 2040 SHOULD NORMALLY BE COMPLETED BY THE END OF SEMESTER 4.
Note: The regulations of the B.A. program state that 7.00 credits must be taken at the 3000 level or above (see B.A. Program Regulations).
With permission of the Psychology Department PRIOR to course selection, up to 1.00 non-psychology credits that would enhance the student's studies in Psychology, especially in preparation for post-graduate work, may be credited towards the total number of credits required for graduation in the honours program major in Psychology.
Graduate Studies Advisory Note: Most graduate programs require the student to have at least a B+ average in order to be considered for admission. Students contemplating graduate work in Psychology are strongly advised to complete the major by completing 0.50 electives credits at the 3000 level or above and 0.50 elective credits at the 4000 level beyond PSYC* 4870 and PSYC*4880 (the Honours Thesis courses) which would otherwise satisfy the 3000-4000 level elective requirement for the major.
These students are encouraged to complete the Psychology major as follows:
a. PSYC* 1100 and PSYC* 1200
b. 6 of the 2000 level Psychology core courses
c. PSYC*2010 and PSYC*2040
d. PSYC*2360 and PSYC*3370 and PSYC*3380
e. an additional 0.50 credits in Psychology at the 3000 level or above
f. PSYC* 3250
g. PSYC* 4370 or $\mathrm{PSYC} * 4900$
h. 0.50 electives at the 4000 level
i. PSYC* 4870 plus PSYC*4880

Students should note that the Honours Thesis courses are normally taken in a Fall-Winter sequence worth the equivalent of 1.50 credits toward the 20.00 credits Honours B.A. degree requirements.

## Minor (Honours Program)

(May not be taken in combination with a Psychology Honours Major)
A minimum of 6.00 credits is required including:
PSYC*1100 [0.50] Principles of Behaviour
PSYC*1200 [0.50] Dynamics of Behaviour
PSYC*2010 [0.50] Quantification in Psychology
PSYC*2360 [0.50] Introductory Research Methods
2.00 credits in the 2000 level Psychology core courses listed above
2.00 credits in Psychology at the 3000/4000 level

Note: Courses designated with (H) in Section XII-Course Descriptions, are Honours level courses requiring for registration a cumulative average of at least $70 \%$ in all course attempts in Psychology.

## Psychology (Co-op) (PSYC:C)

Department of Psychology, College of Social and Applied Human Sciences
Co-operative Education formally integrates the student's academic study with 3 work terms (COOP*1000, COOP*2000, COOP*3000) in co-operating employer organizations. The Co-op program is offered as a B.A. honours program major degree taken as one of two major options combined with 3 work terms. One of the options is recommended for Co-op students expecting to apply for admission to graduate studies in Psychology. (See Graduate Advisory Note.)
All Co-op students are strongly advised to complete the B.A. requirements by including in their program 3 or more courses from the listing of courses under Business Administration, to ensure that they have 1 or more courses in computer science, accounting and management, or organizational behaviour. (Business Administration is also available as a minor.) Although not required, Co-op students are strongly encouraged to select a minor as part of the program.
Depending on career aspirations, students should have a good working knowledge of one or more of the following before their first work semester: psychological measurement, quantitative methods, computer science, accounting and management, or organizational behaviour.
The first work term normally follows 3 or 4 semesters of academic study (see Section X-Co-operative Education Programs). Students must be eligible to continue in the Honours Psychology program in order to remain in the Co-op program.
Admission to the Co-op program is limited and will be based on academic background. Admission will normally be considered only at semester 1 entry or during semester 2 when the student selects courses for semester 3.

Note: Courses designated with (H) in Section XII--Course Descriptions are Honours level courses requiring for registration a cumulative average of at least $70 \%$ in all course attempts in Psychology.

## Major (Honours Program) - Stream A

The following Co-op schedule of studies is for students not intending to apply for admission to graduate programs in Psychology (includes 3 work terms).
Note: When selecting core and elective credits the student should keep in mind the prerequisites for their desired 3000 and 4000 level courses. When selecting courses beyond Psychology the student should keep in mind both their second specialization and courses appropriate for potential work-term placements.
Semester 1 - Fall

## Rural and Development Sociology (RDS)

Department of Sociology and Anthropology, College of Social and Applied Human Sciences
The program of Rural and Development Sociology focuses on the study of rural institutions and processes in industrialized societies with an emphasis on changes in rural communities, agriculture and natural resources, including historical and comparative analyses of the development of rural life. It provides students with major research and conceptual tools needed for the understanding of rural transformation, their interdependence with the natural environment and with urban society.

## Major (Honours Program)

A minimum of 8.00 credits in Sociology and Anthropology is required, including:
a. $\mathrm{ANTH}^{*} 1150, \mathrm{SOAN}^{2} 2111 / 2, \mathrm{SOAN}^{2} 2120, \mathrm{SOAN}^{2} 3070, \mathrm{SOAN}^{2} 3120, \mathrm{SOAN}^{2} 4500$, SOC*1100, SOC*2080, (ANTH*3690 or SOC*3310), SOC*3380, SOC*4210
b. 4 of SOAN* 4220, SOAN $^{2} 4240, S O C * 2010, S O C * 2280, S O C * 2390, S O C * 4880$, SOC * 4890, SOC $* 4900$, SOC $* 4910$
c. at least 1.00 credits at the 4000 level

## Sociology (SOC)

Department of Sociology and Anthropology, College of Social and Applied Human Sciences

The Department of Sociology and Anthropology offers three types of courses: sociology courses with the prefix SOC*; anthropology courses with the prefix ANTH*; and departmental courses with the prefix SOAN*. The departmental category of courses recognizes the fact that the disciplines of sociology and sociocultural anthropology have developed in tandem and it is possible to identify large areas of overlap and convergence in the work of practitioners both historically and in the present. Departmental courses include most of the core theory and methods courses as well as many elective courses. They contribute equally to the subject matter of sociology as well as the subject matter of sociocultural anthropology for purposes of the undergraduate programs of study in both disciplines. Please see the listings for all courses required for the Sociology program. Note: the following courses may be used towards a sociology specialization:
FRHD*3060 [0.50] Principles of Social Gerontology

| ISS*2990 | $[0.50]$ | Introduction to Marx |
| :--- | :--- | :--- |
| PHIL*2180 | $[0.50]$ | Philosophy of Science |

Courses will normally be offered in the semesters designated. For information on other semesters these courses will be offered and the semester those courses without designations will be offered, please check with the department. In addition to regularly scheduled courses, students may elect to do independent study. A student who wishes to do a reading course should first consult the professor with whom he/she wishes to work. Please note, a student is allowed a total of 1.00 credits only for reading courses.
SOAN courses will be used towards the Sociology specializations.

## Area of Concentration (General Program)

A minimum of 5.00 credits in Sociology and Anthropology is required, including:

| ANTH*1150 | $[0.50]$ | Introduction to Anthropology |
| :--- | :--- | :--- |
| SOAN*2111/2 | $[1.00]$ | Classical Theory |
| SOAN*2120 | $[0.50]$ | Introductory Methods |
| SOC* 1100 | $[0.50]$ | Sociology |

2.50 additional credits in SOC and SOAN courses, including at least 1.00 credits at the 3000 level

Statistics (STAT)
Department of Mathematics and Statistics, College of Physical and Engineering Science
The discipline of Statistics is essential in the social sciences, biological sciences, physical sciences, and health professions. The specialization in Statistics emphasizes applications of statistical theory and methods to other disciplines and is available in the B.A. Honours Program as a major or minor and as an area of concentration in the General Program.
Students are encouraged to combine the study of statistics with another field.
Statistical computing is a fundamental tool for the application of modern statistical methods. Students in these programs will develop skills in computer applications programming using such high-level languages as SAS and S-PLUS.

## Area of Concentration (General Program)

A minimum of 5.00 credits in Statistics and Mathematics is required, including:
a. no more than 1.00 credits from courses at the 1000 level
b. 3.00 credits in statistics (STAT), 2.00 of which must be from courses at the 3000 level or above

## Recommended Courses

## Studio Art (SART)

## School of Fine Art and Music, College of Arts

The School offers programs that allow for concentrated study in Art History or in Studio
Art, or for a more balanced study in the two disciplines. Both programs, however, require work in both Studio Art and Art History. Specific requirements are listed below.

## Cost of Studio Supplies

The majority of the cost of supplies must be borne by the student. In order to permit the University to subsidize this cost and to allow for savings through discount buying, some materials are obtained through the school by payment of a lab fee. The amount of the fee is established for each semester prior to registration.

## Student Counselling

The students who elect to take a substantial number of credits in either Art History or Studio Art with the objective of graduate work are advised to obtain counselling from faculty regarding their choices. However, in general, it is important to know that graduate studies in Art History will usually require a reading knowledge of at least 2 languages other than English. German, French, Italian and Latin are among the most useful choices. Cognate electives in other disciplines in the College of Arts (such as History) will almost certainly prove an asset. A Studio career to the graduate level will normally require some education in all the traditional and contemporary media as well as an awareness of art theory.

## Core Requirements

1. Students in the Art History Major or Minor cannot count more than 11.00 credits in Art History or 11.00 credits in Studio Arts towards their honours degree.
2. Details of advanced standing for transfer students from the Ontario College of Art and Design (OCAD) can be found in the section on Admission Information.
3. In accordance with the B.A. program regulation limiting the number of credits to be taken in any subject area, OCAD graduates granted the maximum advanced standing of credits in Studio Arts will be limited to 2.00 additional credits in Studio Arts at the University of Guelph.
4. A cumulative average of at least $70 \%$ in all course attempts in Studio Arts and Art History is required in order to enter or continue in the Honours Studio Arts program.
5. Students in SART can fulfill one of the natural and mathematical sciences B.A. distribution requirements with $\mathrm{HK} * 2100$. This credit cannot be used towards the SART major.

## Theatre Studies (THST)

## School of English and Theatre Studies, College of Arts

The Theatre Studies program is a component of a liberal education, and is dedicated to integrating academic study and theatre practice. The program offers introductory and advanced courses in dramatic literature, theatre history, criticism and theory, together with directing, acting, design, technical theatre, playwriting, and media studies.
The program has a special interest in the drama and theatre of Canada. Course offerings reflect this interest where appropriate.

## Notes:

1. A maximum of 2.00 credits in Directed Readings or Special Studies Courses (THST*3410, THST*3420, THST*3600, DRMA*3610) is allowed in the honours program major. A maximum of 1.00 credits in such courses is allowed in honours program minor or the general program area of concentration. Students will normally be permitted to take only 0.50 credits in Directed Readings or Special Studies courses per semester.
Certain approved Dramatic Literature courses from the English Program within the School of English and Theatre Studies or other departments may be counted towards a degree in Theatre Studies. A list of approved courses may be obtained from the School's website: http://www.arts.uoguelph.ca/sets/.
2. In connection with THST*1040 and some upper-level courses, students are required as part of the course to attend various specified theatre performances in cities such as Toronto, Stratford, Niagara-on-the-Lake, and London. A special fee is charged for travel to these performances and students will be notified during the first week of classes of the amount of this fee and the dates of the performances.
3. In any given semester, a student may not enroll in more than ONE production-related course at a time. These include: THST*2230, THST*3110, THST*3120, THST*3220, THST*3230, THST*3410, THST*3420, THST*4090, THST*4250, THST*4280.

## Area of Concentration (General Program)

A minimum of 5.00 credits in Theatre Studies is required, including:
a. THST*1040, THST*2010, THST*2230, THST*3550, THST*3850
b. at least one of THST*2080, THST*2120, THST*2240
c. at least one of ENGL*3420, THST*3650, THST*3660
d. 1.50 other credits in Theatre Studies

## Major (Honours Program)

A minimum of 9.00 credits in Theatre Studies is required, including:
a. THST*1040, THST*1150, THST*2010, THST*2230, THST*3550, THST*3850, THST*4280
b. two of THST*2080, THST*2120, THST*2240
c. at least one of ENGL*3420, THST*3650, THST*3660
d. at least one of THST* 4320 or THST* 4330
e. 2.50 other credits in Theatre Studies

## Minor (Honours Program)

A minimum of 5.00 credits in Theatre Studies is required, including :

Visual Arts of the Americas (VAA)
School of Fine Art and Music
The Minor program in Visual Arts of the Americas enables students to study the art history of Canada, the United States, and Central and South America as an integrated field where certain basic conditions are shared: the existence of aboriginal traditions persisting from the pre-conquest period, the confrontation of a variety of European, African and Asian cultural heritages, and a continuing post-colonial evolution producing hybrid cultural identities.
This program of study is designed as a complement to a significant number of Major specialization, suitable for any student wishing to broaden their knowledge beyond their Major area of study.

## Bachelor of Arts and Sciences (B.A.S.)

The University of Guelph offers an 8 semester (20.00 credits) honours program leading to a Bachelor of Arts and Sciences (B.A.S.) degree.
The Bachelor of Arts \& Sciences program is designed for students who are motivated equally by the study of Arts/Social Sciences and the Sciences, and who find challenge and satisfaction in testing the traditional boundaries of study through undergraduate level interdisciplinary work. The program meets these objectives through a unique structure that accredits students in an Arts/Social Sciences core, a Sciences core, a Subject Area core of interdisciplinary humanities and sciences courses (ASCI*), and a minor in each of the Arts/Social Sciences and the Sciences (see below for choices of minors). The structure of the program ensures disciplinary rigour and breadth through completion of core requirements for a B.A.S. degree, concentration in two distinct minors, and concentration of learning in an academic cohort of B.A.S. students through the interdisciplinary ASCI courses in the B.A.S. core. This core is open only to students in the B.A.S. program.

## Program Information

## Academic Counselling

The B.A.S. program counsellor assists students in the selection of minors, interpreting program and academic regulations, and with the selection of appropriate courses for chosen minors and distribution requirements. Students should consult the counsellor when experiencing particular difficulties affecting academic standing and progress through the program. Students are encouraged to check the B.A.S. program website regularly for course information and cross-listing of acceptable credits where appropriate.

## Counselling on Minors

Academic departments offer the minors in the B.A.S. program and assign faculty advisors to assist students with academic planning (e.g., a faculty advisor in the History department handles queries about a minor in History). Students should consult the appropriate faculty

## Continuation of Study

To be eligible to continue in the program, students must meet the requirements for Continuation of Study as noted in Section VIII--Undergraduate Degree Regulations \& Procedures of this calendar (Schedules 1 and 2).

## Conditions for Graduation

To qualify for the degree Bachelor of Arts and Sciences, the student must successfully complete a minimum of 20.00 credits as identified below. In addition, students must meet the continuation of study requirements at the time of graduation and have a $60.00 \%$ cumulative average.

## Distribution Requirements

This program will require the completion of 20.00 credits as indicated below, with a maximum of 7.00 credits at the 1000 level. First year core courses may be counted towards the minors.

1. Science Core - 2.00 credits.
2. Arts/Social Science core -2.00 credits.
3. Subject Area Core - (ASCI) - 3.00 credits.
4. Arts/Social Science Minor -5.00 credits minimum.
5. Science Minor - 5.00 credits minimum.
6. Free Electives - 3.00 credits.
7. Science Core - $\mathbf{2 . 0 0}$ credits

Science Core - 2.00 credits as identified by minor below:

| Psychology: Brain and Cognition | MATH ${ }^{*} 1080$, STAT $^{*} 2040$, [(CHEM ${ }^{*} 1040$, CHEM*1050) or ( 2 of BIOL*1070, BIOL*1080, BIOL*1090)] |

## 6. Free Electives - $\mathbf{3 . 0 0}$ credits

The program includes 3.00 free electives. Electives may be completed in any subject area. The number of free electives is reduced if a minor requires more than 5.00 credits.
This program includes 3.00 credits at the 3000 or 4000 level, including 2.00 credits at the 4000 level. This requirement is partially fulfilled by senior level courses in the Subject Area Core (ASCI) requirements.
A maximum of 7.00 credits at the 1000 level may be counted toward the 20.00 credits requirement.
Students cannot, of course, select Psychology or Mathematics for both their B.Sc. and B.A. minors.

## Double Counting Rule

A maximum of 3.00 credits may be double-counted:
a. 1.00 credits may be double-counted between minors.
b. 2.00 credits may be double-counted between a core and one minor.

Students may not triple-count a course between a core and two minors.

## Bachelor of Bio-Resource Management Degree (B.B.R.M.)

The University of Guelph, in collaboration with the regional campuses at Ridgetown and Kemptville, offers a 20.00 credit program, normally completed over 8 semesters, leading to a Bachelor of Bio-Resource Management degree (B.B.R.M.). This degree was designed for students who do not intend to pursue post-graduate studies and are strongly focused on securing employment that makes use of the knowledge acquired in their bachelor's degree.
This degree is a unique blend of applied and theoretical learning, with an emphasis on experiential learning opportunities. At the present time, two majors, Environmental Management and Equine Management, are available in the program through University of Guelph's Ridgetown campus and Kemptville campus respectively with Semester 5 to 8 offered at the Guelph campus.

## Program Information

The Bachelor of Bio-Resource Management degree program combines business studies and technical training with a strong emphasis on hands-on learning. A solid foundation in applied aspects of science, technology and business provides graduates with sufficient breadth and expertise to become competent managers in the environmental or equine fields. Students begin studying in one of the following management majors during the first semester: Environmental Management, Equine Management.
The first 10.00 credits of the Environmental Management Major are available through the Ridgetown campus and the first 10.00 credits of the Equine Management Major are available through the Kemptville campus. The additional 10.00 credits for both majors are available through the Guelph Campus.
Students will be encouraged to integrate their academic program with a well-planned series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities. There is a strong commitment in the curriculum to personal development and students are encouraged to identify goals that they wish to accomplish throughout their university career.

## Academic Advising and Counselling

## Program Counselling

Program Counsellors are available at both the Ridgetown, Kemptville and Guelph campuses to assist in-course students who require information or advice about their program or other academic regulations and who seek information about resources available to students. For information about how to contact a program counsellor, and for more information about program counselling, see Section VII -- Academic Counselling of the current Undergraduate Calendar.

## Departmental Advising

On entering the program all students are assigned to a faculty advisor who will mentor them throughout their first two years. The faculty advisor is familiar with the academic requirements of the program and is aware of career opportunities. Students are strongly encouraged to attend all meetings called by their advisor, and to set up individual meetings with him/her when they have questions or concerns about their performance or progress in the program.

## Continuation of Study

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII -- Undergraduate Degree Regulations \& Procedures in the current calendar.

## Conditions for Graduation

To qualify for the degree Bachelor of Bio-Resource Management, the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies as listed. In addition, students must meet the continuation of study requirements at the time of graduation and have a minimum cumulative average of $60 \%$.

## Schedule of Studies

Courses specified in the Schedule of Studies are required courses and must be successfully completed. A full time course load normally includes 2.50 credits.

## Special Expenses

Equine Management students may have the opportunity to board their horse on campus or at a local facilities. Please contact BBRM program counsellor Katrina Merkies at [kmerkies@kemptvillec.uoguelph.ca](mailto:kmerkies@kemptvillec.uoguelph.ca) for more information.

## B.B.R.M. Program Regulations

## Recommendations

Students entering the degree program who are deficient in $U$ level Mathematics or Chemistry should consult with the program counsellor.

## Bachelor of Commerce (B.Comm.)

The University of Guelph offers an eight semester (20.00 credits) honours program leading to a Bachelor of Commerce degree (B.Comm.). The normal course load is 2.50 credits per semester for a full-time student. The program is of an interdisciplinary nature and designed to give students a sound professional management education with a focus on specific industry sectors or management functions which prepare the graduates for positions of responsibility in particular areas of management and business.
Given the professional and applied nature of the program, there are no double majors or minors associated with the degree. Elective options enable students to select courses which support or complement their primary field of study.
In their first semester, students may be admitted to either one of eight specialized majors or the undeclared (unspecialized) major. Students in the unspecialized first year, must declare a specialized major in semester two in order to gain access to required courses in semester three.

## Bachelor of Commerce Majors

Undeclared (only available in semesters one and two)
Accounting
Agricultural Business*
Hotel and Food Administration*
Human Resources Management
Management Economics in Industry and Finance*
Marketing Management*
Public Management*
Real Estate and Housing*
Tourism Management
Co-operative Education is available in the majors denoted by an asterisk (*).
In addition to specializing in a major area of study, a B.Comm. core ensures that each major also provides a comprehensive commerce education to all students in the program. Common core elements spanning each of the majors includes:

Accounting (1.00 credits)
Economics ( 1.00 credits)
Finance ( 1.00 credits)
Information Management ( 0.50 credits)
Marketing ( 0.50 credits)
Statistics ( 0.50 credits)
Operations Management ( 0.50 credits)
Strategy/Business Policy ( 0.50 credits)
Organizational Behaviour ( 0.50 credits)
Law ( 0.50 credits)
Liberal Education Requirement (1.50 credits)*

* (see advisory note)

Program Information

## Academic Counselling

## Program Counselling

Students are urged to seek the assistance of the counsellors in the B.Comm. Counselling Office regarding their program and academic regulations, course selection issues, services and resources, and when they are experiencing difficulties that affect their academic progress.

## Departmental Advising

On entering the program, all students are assigned to a departmental Faculty Advisor by major. Students should seek the advice of the Faculty Advisor when they have questions or concerns about courses and academic requirements for their program/major. The Faculty Advisor is also knowledgeable about career opportunities which relate to a student's specific major. The list of Faculty Advisors is available on the Undergraduate Academic Information Centre website: http://www.uoguelph.ca/uaic/students_advisors.shtml or contact the B.Comm. Counselling Office for further information.

## Special Expenses

Expenses may include cost of field trips and supplies and, for some majors, laboratory coats and other protective clothing.

## Study at Other Universities

Students contemplating study at another university for credit towards a Bachelor of Commerce degree at the University of Guelph should refer to the general regulations governing Letters of Permission in Section VIII - Degree Regulations and Procedures in this calendar.
Students must obtain approval for the Letter of Permission prior to undertaking studies at another institution. Approval of the request depends on good standing in the program with a minimum cumulative average of $60 \%$.

The total limit of credits taken on a Letter of Permission is 2.50 based on the University of Guelph's credit system.

## Study Abroad

Global understanding and perspectives are regarded as being of central importance among the university's learning objectives, as they are, also, in understanding the international business environment. On both of these accounts, students enrolled in the B.Comm. program are urged to participate in one of the several exchange and study abroad programs specifically designed for the Commerce program. Planning for such participation is best undertaken quite early in the course of studies. For more specific information on possible opportunities refer to Section V--International Study of the calendar or contact the B.Comm. program counsellor.

## Continuation of Studies

Students are advised to consult the regulations for Continuation of Study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations and Procedures

## Conditions of Graduation

To qualify for a Bachelor of Commerce degree, the student must satisfy the following conditions:

- The student must successfully complete 1.50 credits from the Liberal Education Requirement list.
- The student must successfully complete a minimum of 20.00 approved credits, in accordance with the Schedule of Studies for the specified major, including the Liberal Education Requirement.
- Students will not be eligible to graduate while on probationary or required-to-withdraw status.

## Liberal Education Requirement

The Liberal Education Requirement is designed to provide the student with exposure to and some understanding of a range of disciplines in the Arts, Social Sciences and Mathematical and Natural Sciences.
The Liberal Education Requirement of 3 courses ( 1.50 credits) must be from at least two of the following prefixes:

ANSC Animal Science
ANTH Anthropology
ARTH Art History
BIOC Biochemistry
BIOL Biology
BIOM Biomedical Sciences
BOT Botany
CHEM Chemistry

## Double Counting of Courses

Double counting is not permitted within the B.Comm. Program. For example, students can not use courses required in their schedule of studies to meet the Liberal Education Requirement.

## Schedule of Studies

Courses specified in the schedule of studies are required courses and must be completed successfully. A full course load normally involves 2.50 credits per semester. Part-time study is also possible although students should discuss this option with their Program Counsellor or Faculty Advisor.

## Undeclared (UND)

## College of Management and Economics

Applicants to the B.Comm. program who want a flexible introduction to business studies should consider entering as an unspecialized student. Prior to winter course selection in first year undeclared students must declare one of the 8 majors in order to gain access to required courses. The undeclared schedule of studies offers direct access to five of eight majors and with an appropriate use of electives, all majors can be completed within the normal eight semesters.

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Accounting (ACCT)

## College of Management \& Economics

By combining the conceptual and quantitative elements of accounting while promoting the integration of theory and practice, the accounting major provides graduates with the academic requirements for the postgraduate pursuit of a Professional Accounting designation. Students will develop the technical, analytical, evaluative and communication skills needed for a successful career in accounting and related management areas.
The program provides a strong foundation of accounting and general business knowledge while allowing significant opportunity to develop breadth and depth of knowledge in related areas of study. Course requirements for the postgraduate professional accounting designations vary. Students may consult their Faculty Advisor, the B.Comm Program counsellor or the department website: http://www.business.uoguelph.ca/accounting.shtml for additional information.
For this major, 14.00 of the 20.00 credits are specified as core requirements and 6.00 electives (including the Liberal Education Requirements of 1.50 credits.)

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Agricultural Business (AGBU)

## Department of Food, Agricultural and Resource Economics, Ontario Agricultural

 CollegeThe Agricultural Business major is concerned with the management problems of business firms and prepares students for a range of management careers in agribusiness.
Graduates of the Agricultural Business program meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional
institutes in the various provinces in Canada and the scientific societies in agriculture collectively comprise the Agricultural Institute of Canada. The program has been fully accredited by the Agricultural Institute of Canada.
Included in the core requirements, the Agricultural Business major requires students to select a stream of Restricted Elective courses that will complement their studies. The agribusiness stream is designed for students more interested in developing and enhancing their knowledge and understanding of agribusiness. The agricultural science stream emphasizes the production aspects of farming and involves biology and either animal or plant systems.
The major is administered by the Department of Food, Agricultural and Resource Economics in the Ontario Agricultural College and students are urged to consult the departmental advisor. For this major, 17.50 of the 20.00 credits (including 1.50 credits from the agribusiness or agricultural science restricted elective streams) are specified as core requirements and the remaining 2.50 credits are specified as electives. (including the 1.50 Liberal Education requirements).

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Agricultural Business (Co-op) (AGBU:C)

## Department of Food, Agricultural and Resource Economics, Ontario Agricultural

 CollegeA principal aim of the Co-op program in Agricultural Business is to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.
The Co-op program in Agricultural Business is a five year program, including 5 work terms. Although the schedule includes 5 work terms, students have the option to complete only 4 of the 5 work terms, but must graduate with a Fall, Winter and Summer work term. Please refer to the Co-operative Education program policy with respect to adjusting the schedule listed below.

In order for students to be eligible to continue in the Co-op program, they must meet a minimum $70 \%$ cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading and work term report grading.
For additional program information students should consult with their Co-op Co-ordinator and Co-op Faculty Advisor, listed on the Co-operative Education \& Career Services web site.

## Hotel and Food Administration (HAFA)

School of Hospitality and Tourism Management, College of Management and

## Economics

The Hotel and Food Administration major prepares graduates to assume positions of responsibility in any aspect of the hospitality field. It includes principles of administration, theories of interpersonal relations, human resources management, and communications. Distinctive courses include Hospitality Facilities Management and Design and Lodging Management. The courses in this program relate to the management of both the accommodation and food service facilities used by the public and private sector. The major is administered by the School of Hospitality and Tourism Management. Students may consult the Faculty Advisor or the B.Comm. Program Counsellor for additional information.
For this major, 14.50 of the 20.00 credits are specified as core requirements, 3.00 as restricted electives, and 2.50 electives (including the Liberal Education Requirements of 1.50 credits.) Verified work experience in the hospitality industry is required for students to be eligible for graduation.
Group work is a significant part of core credit work.

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Hotel and Food Administration (Co-op) (HAFA:C)

School of Hospitality and Tourism Management, College of Management and Economics
The principal aim of the Hotel and Food Administration Co-op program is to facilitate the transition of students from academic studies to a professional work life by enhancing the integration of theory and practice. The major is administered by the School of Hospitality and Tourism Management. Students may consult the departmental Co-op

Advisor or the B.Comm. Program Counsellor for additional information. The co-op work program consists of one twelve-month period. The work semester begins at the end of the second year and extends from May to April. The co-op program is completed over a 5 year period. The academic program consists of 20.00 credits, 15.00 of which are specified as core requirements, 2.50 as restricted electives, and 2.50 as electives.

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Human Resources Management (HRM)

## Department of Business, College of Management and Economics

The Human Resource Management (HRM) major provides an academic foundation to prepare students for careers as Human Resources practitioners, and for potential certification by the Human Resources Professionals Association (HRPA) as a Certified Human Resources Professional (CHRP). The HRM major meets the academic requirements for all of the nine Compulsory Subjects as set out by the HRPA.
The HRM major provides students with a traditional business degree with a special emphasis on people within the workplace. HRM related classes extend beyond the traditional lecture based format to include community based group projects, guest lecturers, in-class simulations and case-based learning to help you link academic expertise and theory with industry practice. Experiential learning is an integral part of the major, and occurs through the integration of industry examples in the classroom, and a required applied research course, where students conduct group projects in workplace settings under the direction of a faculty member. Our faculty are highly skilled and committed educators who encourage students to become actively involved in their own education, both within and outside the classroom. In addition, the Human Resources Management Student Association (HRMSA) is active in providing access to HRPA Information, networking events, leadership conferences, Excalibur Human Resource Case Competition, careers night, guest speakers and social events to help students build relationships with other students, faculty, and the business community.

Graduates of this major will leave the University of Guelph equipped with an undergraduate degree as a prepared individual ready to meet the human resources needs of the future. Recent alumni can be found in a variety of HRM positions - both general (e.g., HR manager) and specialist (e.g., recruitment, compensation and benefits, training and development). Some students also choose to pursue further education such as MBA and Law degrees.
For this major, 15.00 of the 20.00 credits are specified as core requirements and the remaining 5.00 as electives

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Management Economics in Industry and Finance (MEIF)

Department of Economics, College of Management \& Economics
The Management Economics in Industry and Finance major is designed to offer students an appreciation of business problems in the areas of industrial organization and finance using the analytical orientation of the discipline of Economics and the tools of Business Management, Marketing and Accounting. This major combines the applied thrust of business courses with the analytical rigor of Economics.
The major provides a suitable education for a career in the business world or in the public service. It also constitutes a useful preparation for more advanced studies, including graduate studies in Economics, Business Administration, Law, and Public Policy. The major is administered by the Department of Economics and students are urged to consult the faculty advisor.

In addition to the Management Economics in Industry and Finance core, students will choose their restricted electives from the List of Restricted Electives. In selecting the restricted electives, students have a choice of either following a program of studies that covers a wide spectrum of topics in the areas of Industry and Finance or declaring an Area of Emphasis in Finance. Students that identify the Finance Area of Emphasis will choose their restricted electives from the appropriate list of restricted electives below. Students wishing to have an Area of Emphasis are encouraged to declare by Semester 4, in order to facilitate the availability of restricted electives. A planning guide is available in the department. Students should note that most courses carry prerequisites and that ECON* 1050 and ECON*1100 are normally prerequisites for all other courses in Economics.
Students who fail any Economics course twice or who do not achieve a $65 \%$ average in Economics courses taken during the first 4 semesters in this major are likely to encounter difficulties in the more advanced courses. They are strongly advised to consult the faculty advisor in Economics to discuss the options available.
For this major, 10.00 credits are specified, 5.50 are restricted electives and 4.50 are free electives. (1.50 Liberal Education Requirement; 3.00 free electives).

## Liberal Education Requirement

## Management Economics in Industry and Finance (Co-op) (MEIF:C)

Department of Economics, College of Management \& Economics
A principal aim of the Co-op program in Management Economics in Industry and Finance is to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.
The Co-op program in Management Economics in Industry and Finance is a five year program including, 5 work terms. Although the schedule includes 5 work terms, students have the option to complete only 4 of the 5 work terms, but must graduate with a Fall, Winter, and Summer work term. Please refer to the Co-operative Education program policy with respect to adjusting the schedule listed below.
In order for students to be eligible to continue in the Co-op program, they must meet a minimum $70 \%$ cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading and work term report grading.
For additional program information students should consult with their Co-op coordinator and Co-op Faculty Advisor, listed on the Co-operative Education \& Career Services web site.
For this major, 10.00 credits are specified, 5.50 are restricted electives and 4.50 are free electives. (1.50 Liberal Education Requirement; 3.00 free electives).

## Marketing Management (MKMN)

Department of Marketing and Consumer Studies, College of Management and Economics
The Marketing Management major is interdisciplinary, follows a liberal education philosophy, and is built on our Department's long-standing expertise in the field of consumer research. Therefore, the courses to be followed span departments and colleges across the University and are designed to support the University's 10 Learning Objectives.
The Department of Marketing and Consumer Studies recognizes that we are not only responsible for preparing students for a career in marketing but for educating them so that they can be active, engaged citizens. This can only result from a balanced curriculum of marketing and liberal education courses capable of providing students with an understanding of the world they will work and live in, and the problem solving, communication, and visualization skills needed to function effectively in it. Students will gain education and skill in the management and leadership of product and services marketing in a global economy. They will be prepared to work and live effectively in today's world and to be flexible enough to pursue a variety of marketing career paths and diverse leadership roles. The major is administered by the Department of Marketing and Consumer Studies in the College of Management and Economics. Students can contact the B.Comm. Program Counsellors or the Marketing and Consumer Studies Undergraduate Advisors if they have questions.

## Liberal Education Requirement

As part of the graduation requirement, all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Major

For this major, 20.00 credits are required, of which 13.00 are specified, 3.50 are restricted electives (from lists), 1.50 are Liberal Education electives, and 2.50 are free electives. A possible program sequence is outlined below.

## Restricted Electives for the Marketing Management Major

The electives in the B.Comm. Marketing Management program are designed to supplement the major's required courses to ensure achievement of the University's 10 Learning Objectives. They supplement the major's required courses with regard to all of the Learning Objectives except "Numeracy". The Marketing Management program delivers substantial "Numeracy" through its required math, statistics, and economics courses as well as through emphasis on data analysis in courses such as Research Methods (MCS*3030) and Market Analysis and Planning (MCS*3500).
Please note that substitutions for restricted electives will be allowed if the Marketing and Consumer Studies Undergraduate Advisor agrees that a proposed alternative achieves the Learning Objective(s) of the course it will replace and has an equivalent level of rigour. Also be advised that the following lists allow interested students to earn the Certificate in Leadership offered through the Office of Open Learning, concurrently with their B.Comm. degree. See http://www.leadershipcertificate.com/ for information regarding this Certificate and its course requirements. Please note that successful completion of the Certificate in Leadership is not reflected on University of Guelph transcripts.

## Communication Elective - List EI

Consistent with the University Learning Objective of "Literacy" and to provide a foundation in the first year for oral and written communication in subsequent marketing courses, marketing management majors must take one [ 0.50 credits] of:

Marketing Management (Co-op) (MKMN:C)
Department of Marketing and Consumer Studies, College of Management and Economics

The Co-op program in Marketing Management is designed to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.
The Co-op in Marketing Management is a five year program including 5 work terms. Although the schedule includes 5 work terms, students have the option to complete only 4 of the 5 work terms, but must graduate with a Fall, Winter, and Summer work term. Please refer to the Co-operative Education program policy with respect to adjusting the schedule listed below.
In order for students to be eligible to continue in the Co-op program, they must meet a minimum $70 \%$ cumulative average requirement after second semester, as well as meet all work term requirements. Please refer to the Co-operative Education program policy with respect to work term performance grading and work term report grading.
For additional program information, students should consult with their Co-op coordinator or Co-op Faculty Advisor, both of whom are listed on the Co-operative Education \& Career Services web site.

## Liberal Education Requirement

As part of the graduation requirement, all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Restricted Electives for the Marketing Management Major

The electives in the B.Comm. Marketing Management program are designed to supplement the major's required courses to ensure achievement of the University's 10 Learning Objectives. They supplement the major's required courses with regard to all of the Learning Objectives except "Numeracy". The Marketing Management program delivers substantial "Numeracy" through its required math, statistics, and economics courses as well as through emphasis on data analysis in courses such as Research Methods (MCS*3030) and Market Analysis and Planning (MCS*3500).
Please note that substitutions for restricted electives will be allowed if the Marketing and Consumer Studies Co-op Advisor agrees that a proposed alternative achieves the Learning Objective(s) of the course it will replace and has an equivalent level of rigour.
Also be advised that the following lists allow interested students to earn the Certificate in Leadership offered through the Office of Open Learning, concurrently with their B.Comm. degree. See http://www.leadershipcertificate.com/ for information regarding this Certificate and its course requirements. Please note that successful completion of the Certificate in Leadership is not reflected on University of Guelph transcripts.

## Public Management (PMGT)

Department of Political Science, College of Social and Applied Human Sciences
The Public Management program is designed to lead to an understanding of public sector administration and management from the "inside" - as an integrated enterprise - as well as from the outside - as a series of policy decisions and outcomes. Characterized by a multi-disciplinary approach employing both political and business-oriented analysis, students will confront questions of why politicians and public servants behave the way they do, and how their policy choices and processes can be optimized. Management of public entities features a unique set of challenges that arise from and interact with basic political issues like democracy, accountability, equity, fairness, and justice. At the same time it necessarily faces concerns common to all organizations, such as efficiency, human and capital resource management, morale, planning, and adaptation to change.
The program will appeal to students interested in the public service, public sector businesses or business-government relations. A co-ordinated sequence of courses may be capped in the final year by a year-long research project and thesis.
For this major, 16.50 of the 20.00 credits are specified as core requirements and the remaining 3.50 as electives. A list of suggested electives follows the description of required courses.

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## Real Estate and Housing (REH)

## Department of Marketing and Consumer Studies, College of Management and <br> <br> Economics

 <br> <br> Economics}The Real Estate and Housing major in the B.Comm. program is one of only two undergraduate programs in Canada that specialize in the real estate sector. It takes a multi-disciplinary approach to the study of residential and commercial/investment real estate. Topics such as the development, financing, valuation, market analysis and management of real estate are taught in the context of economic, legal, political and social factors affecting this large and growing field of business in Canada and the world.
The purpose of this major is to develop the conceptual, analytical and management skills required for careers in real estate and housing. Students graduate with a degree that can lead to a variety of professional positions in the private or public sectors of the Canadian real estate industry or they can continue on to graduate work in business, planning or the social sciences.
Students in the Real Estate and Housing major are required to take the courses listed below. In addition, some may wish to make use of groupings of elective courses in order to pursue individual interests or develop additional focus. Students interested in obtaining their Accredited Appraiser Canadian Institute (AACI) designation should consider taking the additional 4 required courses through University of British Columbia distance education by letter of permission to count as electives in their degree.
Students may consult the departmental Academic Advisor or B.Comm. Program Counsellor for additional information.

## Liberal Education Requirement

## Tourism Management (TMGT)

School of Hospitality and Tourism Management, College of Management and Economics

As the world's largest industry, tourism encompasses a wide range of public and private enterprises that require knowledgeable and talented management professionals. The program in Tourism Management builds on a strong base of hospitality management courses (human resources management, accounting, finance, cost controls, hotel operations). In conjunction with these courses the program provides specialized courses dealing with the economic, social, cultural and environmental aspects of the industry as well as the critical functions of tourism marketing, distribution, planning and development. In addition, there are opportunities to develop expertise in eco-tourism and international tourism operations. Verified work experience in the hospitality and tourism industry is required for students to be eligible to graduate. Group work is a significant part of core credit work. Students may consult the Faculty Advisor or the B.Comm. Program Counsellor for additional information.
For this major, 14.00 of the 20.00 credits are specified as core requirements, 3.50 as restricted electives (List A), and the remaining 2.50 as electives (including the Liberal Education Requirement of 1.50 credits).

## Liberal Education Requirement

As part of the graduation requirement all students within the B.Comm. Program are required to complete 1.50 credits from at least two different subject prefixes as listed under the B.Comm. Program Information section of the undergraduate calendar.

## List A - Restricted Electives

In addition to the 14.00 required credits, students must also take a minimum of 3.50 restricted elective credits from the following list, throughout the program. Students may choose to explore a variety of subjects or may choose to study an area related to their major in some depth. Restricted electives are listed below and have been grouped into major subject areas which are related to the professional interests of the Tourism Management major. Students may, however, choose restricted electives from any of those listed without regard to the categories. Students may also select up to 2.00 credits in

## Bachelor of Computing (B.Comp.)

Students graduating from this program obtain a solid foundation in the theory and application of all aspects of computing and information science. Core subjects, combined with in-depth study in an area of application, give students the freedom to combine their interests in computing with other areas of study and application.
There are two majors available in the Bachelor of Computing honours program. The major in Computer Science provides a traditional computing foundation in software, hardware, and theory. The major in Software Engineering contains an emphasis on software development and design and has a greater focus on team work, communication skills, and professional standards.
Course projects are based on real-world software development scenarios and allows students to get the professional experience valued by today's high-tech employers. The focused study in a second discipline (area of application) gives students the background to effectively apply their knowledge.
Both majors require the equivalent of 8 semesters of successful full-time study. The general program requires the equivalent of 6 semesters of successful full-time study are available. Students in the honours program must choose a major in either Computer Science or Software Engineering. The majors are also available with a Co-op option.
Since not all courses are offered in every semester and prerequisite dependencies must be observed, students are encouraged to consult the program B.Comp. counsellor to plan an initial program of study or when considering modifications to the suggested schedule of studies list.

## Program Information

To graduate with an honours Degree with a major in Computer Science or Software Engineering a student must:
a. Successfully complete 20.00 credits. These must include the 11.25 CIS credits, a minimum of 4.00 credits in an Area of Application and an additional 4.75 credits as free electives. Not more than 6.00 credits from courses at the introductory (1000) level may be counted towards the 20.00 credit requirement.
The program requires 6.00 Computing and Information Science credits at the 3000 level or above, which must include 2.00 credits at the 4000 level. The area of application requires an additional 1.00 credits at the 3000 level or above. The Area of Application is a graduation requirement and must be approved by Semester 4 by the faculty advisor.
b. Obtain a cumulative average at least $70 \%$ in CIS courses and a $60 \%$ cumulative average in all courses.
c. An Area of Application normally consists of 4.00 credits (normally 8 courses) of a minor. Minors are described under the B.A. and B.Sc. programs. Access to some courses may be limited. Minors are listed in Section X of the Calendar. A student may complete a minor should they decide to do so.
Students must consult the faculty advisor for approval of their Area of Application by semester 4 . Not all disciplines or courses may be available as areas of application. Students failing to meet the graduation requirements of the honours program may apply to graduate with a general degree if the requirements for the general degree are met.

## Continuation of Study

Students are advised to consult the regulations for Continuation of Study which are outlined in detail in Section VIII Degree Regulations Procedures of this calendar.

## General Program

Department of Computing and Information Science, College of Physical and Engineering Science
To graduate from a general program a student must:
a. Earn 15.00 credits. These must include courses that fulfill the distribution requirements of the general Degree (see below). At least 4.00 credits must be at the 3000 level or above. Not more than 6.00 credits at the introductory (1000) level may be counted towards the 15.00 credit requirement.
b. No more than 11.00 credits in any one subject or discipline, as indicated by the course prefix code, can be counted towards a general degree.
c. Successfully complete the following credits:

CIS*1500 [0.50] Introduction to Programming
CIS*1910 [0.50] Discrete Structures in Computing I
CIS*2430 [0.50] Object Oriented Programming
CIS*2500 [0.50] Intermediate Programming
CIS*2520 [0.50] Data Structures
CIS*2750 [0.75] Software Systems Development and Integration
CIS*2910 [0.50] Discrete Structures in Computing II
CIS*3530 [0.50] Data Base Systems and Concepts
0.50 additional CIS or STAT credits at the 2000 level or higher 1.00 additional CIS credits at 3000 level or higher
d. Earn 2.00 science credits (list of courses available in the Program Counsellor's office) and 2.00 credits in the College of Arts or College of Social and Applied Human Sciences in addition to the courses listed in c .

1.00 credits in the Area of Application or electives
0.50 credits in CIS at the 3000 level or above
0.50 credits in CIS at the 4000 level

## Computer Science (Co-op) (CS:C)

Computing and Information Science, College of Physical and Engineering Science
The honours major in Computer Science is available with a Co-operative Education option. Students may apply for this option at the time of University admission or completion of semester 2. Please check with CIS Co-op faculty advisor for semester planning.
Since many courses are offered in only one semester and course pre-requisites place an ordering on courses, the following program of studies is designed so that students can schedule their courses over 8 semesters of study. Students deviating from this schedule must consult with their Co-op faculty advisor.

|  | Fall | Winter | Summer |

| Year 3 | Work Term 2 | Academic | Work Term 3 |
| Year 4 | Academic | Work Term 4 | Work Term 5 |
| Year 5 | Academic | Academic |  |

Note: that a total of four work terms are necessary to complete the Co-op requirement.
Students are not required to take each eight month Co-op term at a single employer and can take two four month placements at different employers.

The course COOP* ${ }^{1} 100$ must be successfully completed before the student may apply for a placement for the first work term (normally 2 semesters before the first work term). COOP* 1000, COOP $^{*} 2000$, COOP $^{*} 3000$, COOP $* 4000$ and COOP*5000 represent the first, second, third, fourth, and fifth work terms respectively.
Students are advised to plan their schedule of studies well in advance so that they can take all required prerequisites for later (especially 4000 level) courses. Students should note that some 4000 level courses are only given in alternate years. Failure to plan may result in the inability to take a particular senior CIS course. Not all sequences may be viable. Please check with the CIS Co-op faculty advisor for semester planning.
Conditions for graduation are the same as the corresponding regular B.Comp. program. In addition, all work reports and performance evaluations must have a grade of satisfactory or better.

Note: that a total of four work terms are necessary to complete the Co-op requirement.
Students are not required to take each eight month Co-op term at a single employer and can take two four month placements at different employers.
The course COOP*1100 must be successfully completed before the student may apply for a placement for the first work term (normally 2 semesters before the first work term). COOP*1000, COOP*2000, COOP*3000, COOP*4000 and COOP*5000 represent the first, second, third, fourth, and fifth work terms respectively.
Students are advised to plan their schedule of studies well in advance so that they can take all required prerequisites for later (especially 4000 level) courses. Students should
note that some 4000 level courses are only given in alternate years. Failure to plan may result in the inability to take a particular senior CIS course. Not all sequences may be viable. Please check with the CIS Co-op faculty advisor for semester planning.
Conditions for graduation are the same as the corresponding regular B.Comp. program. In addition, all work reports and performance evaluations must have a grade of satisfactory or better.

## Bachelor of Engineering [B.Eng.]

## Program Information

## Objectives of the Program

Students in this program obtain a liberal engineering education, which includes a comprehensive core of science, mathematics and engineering science that provides a strong foundation for engineering design and analysis. This enables students to undertake the solution of engineering problems in the areas of biological, biomedical, computer, engineering systems and computing, environmental, mechanical and water resources. Core subjects, combined with elective opportunities, provide an understanding of the connection between engineering and science, coupled with the interdisciplinary skills needed to address the problems and challenges faced by engineers in society today.
The curriculum includes a strong emphasis on engineering design. Students engage in engineering design throughout the program, and gain experience in computer aided design and modeling, conceptual design and physical construction. Emphasis is on teamwork and communications skills, as well as working on interdisciplinary projects.
Career opportunities are open in many segments of the economy. Examples are: consulting services to municipalities, utilities and industry; resource agencies in advisory, regulatory, planning and utilization; service industries of construction, power and water supply and public health; manufacturing, design of computer and control systems, hardware and software development; mechatronics and emerging energy systems; medical devices, pharmaceutical and food industries and industrial ergonomics; academic research and graduate studies within and without the field of engineering.
Many engineers assume management responsibilities after gaining experience in design, development and operations. The balance provided by liberal arts and engineering education allows graduates to enjoy a great deal of career mobility.

## Accreditation

The baccalaureate degree programs in all engineering programs with the exception of Computer Engineering, Biomedical Engineering and Mechanical Engineering are accredited by the Canadian Engineering Accreditation Board of Engineers Canada. Graduates from accredited engineering programs have the educational requirements to apply for membership in the Professional Engineers Ontario (PEO) and other provinces after a number of years of acceptable engineering experience and successful completion of a PEO examination in engineering law and ethics.
According to CEAB regulations, the Mechanical Engineering Program is not eligible for accreditation until the first class graduates in June 2013. Computer Engineering and Biomedical Engineering will be eligible for accreditation in June 2014. However, due to the common core in all B.Eng. programs and the School's experience with the CEAB process, the School expects to achieve accreditation for the first class of all three new programs.

## Requirements of the Program

Students combine their required courses in mathematics, physical sciences and engineering with additional credits providing the opportunity for specialization in: one of the programs; complementary studies courses; and elective subjects. A minimum of 23.50 credits must be obtained for the following programs: Biological Engineering, Engineering Systems and Computing, Environmental Engineering, Mechanical Engineering, and Water Resources Engineering. A minimum of 23.25 credits must be obtained for Biomedical Engineering. A minimum of 24.00 credits must be obtained for Computer Engineering. At least 3.00 credits must be complementary studies, which consist of courses in the social sciences, arts, management, engineering economics and communication. They complement the technical content of the curriculum. All credits are selected according to the schedule of studies for the student's chosen program. Restrictions apply to the number of non-core credits which may be at the 1000 level. Further information on approved courses may be obtained from the B.Eng. Program Guide available from the director or program counsellor of the School of Engineering

## Programs

Entry into a specific B.Eng. program is done two ways. Students can select their desired program of study (major) at the time of application. If accepted, students will be given an offer to their program of choice. Students also have the option of selecting the Undeclared First Year (Undeclared Stream) entry point due to the similarities of first year. Students in the Undeclared Stream then normally select their specific program of study during course selection for Semester II. . Students in the Undeclared stream are strongly encouraged to meet with their Program Counsellor during Semester I. The School's Associate Director - Undergraduate Affairs or designate approve program selection during the semester add periods. There are no enrollment caps on any program, so students are free to select their programs of choice. Students wanting to make a switch in majors after the above dates are free to do so with prior approval, but will be off sequence and may be required to take additional courses.
The available programs are:
Undeclared First Year: Students selecting this entry point are required to select one of the B.Eng. Majors at the time of course selection in Semester II.

Biological Engineering - the application of engineering to the control and management of biological processes, environments, and human factors in engineering design.

Biomedical Engineering - the application of engineering to health and medicine.
Computer Engineerig - the application of engineering to the design, fabrication, and testing of computing machines and computer systems.
Engineering Systems and Computing - the application of engineering to the design, operation and management of data sensing, transmission and, processing systems, and of control systems.
Environmental Engineering - the application of engineering to protect and restore the environment, through the prevention and treatment of gaseous, liquid and solid wastes.
Mechanical Engineering - The application of engineering to the design, manufacturing and control of mechanical and electro-mechanical equipment, systems and devices.
Water Resources Engineering - the application of engineering to the control and management of water and soil resources to meet human needs while sustaining the natural environment.
The schedule of studies for each program is provided below but guidance in the selection of appropriate courses is available from the program counsellor of the School of Engineering.

## Additional Course Requirements

Students lacking specific subject requirements are advised to consult the Recommendations and Notes in Section IV--Admission Information-B.Eng..

## Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII, Undergraduate Degree Regulation \& Procedures. Students will be ineligible to continue in the B.Eng. program and will not be readmitted to the degree program if the same course is failed three times.
Normally, students in the B.Eng. program will be permitted only one supplemental privilege during their studies. It will usually be granted for 3000 or 4000 level courses only.

## Conditions for Graduation

To qualify for the degree the student must complete the courses required for a B.Eng. program, obtaining a minimum of 23.50 credits for one of: Biological Engineering, Environmental Engineering, Mechanical Engineering, Engineering Systems and Computing Engineering; or 23.25 credits for Biomedical Engineering; or 24.00 credits for Computer Engineering, and must achieve an overall minimum cumulative average of at least $60 \%$ and a minimum cumulative average of at least $60 \%$ in all ENGG courses.

## Co-operative Education

Students studying for the B.Eng. degree may participate in a Co-operative Education program following the completion of the first 4 semesters of study. The Co-operative Education program consists of a minimum of 4 semesters of experience in industry with employers who participate in the program. Reports and assignments are graded by a faculty supervisor with assistance from the employer. Evaluations of Co-op semesters are recorded on the student's academic record. The Co-operative Education program provides an excellent opportunity for students to obtain work experience in industry directly related to their field of study. Interested students should consult their program counsellor.
Students wishing to participate in the Co-operative Education program should indicate their intention to do so by applying for admission to the Co-op program on entrance. Following the completion of semester 2, in-course applicants will be considered for admission to the Co-op program.
Successful applicants will:

1. have a minimum cumulative average of $70 \%$ in semesters 1 and 2
2. have successfully completed all of the credits required in the schedule of studies for semesters 1 and 2
3. be employable in Canada (i.e. be a Canadian citizen or a permanent resident in Canada)
4. have obtained the approval of their Co-op advisor in the school to participate in the program. The Co-op advisor's approval will signify that the schedule of work semesters in the Co-op program as planned by the student is compatible with the schedule of studies in the program in which the student is enrolled.
5. completion of COOP* 1100 is a requirement for entry into the first work term.

Please refer to Co-operative Education Program for Admission requirements into the Co-op Program.

School of Engineering, College of Physical and Engineering Science
Biomedical Engineering is a field of engineering that deals with health and medicine. (e.g.: electronic and mechanical devices used on biological materials, animals and humans, medical implants and instruments, ergonomics, bioinstrumentation, imaging and pharmacology). Graduates in Biomedical engineering are able to apply mathematical, scientific and engineering principles to a wide variety of fields and find employment across the private and public sectors of the health care industry. The program provides students with a common base of knowledge essential to engineering, and then allows them to select from a menu of electives to attain a degree of specialization in one of three areas, or to choose electives which broaden their general knowledge base. Elective concentrations are available in the areas of biomechanics; biosignal processing; and pharmaceuticals. The program is built around the concept of interdisciplinary application of engineering principles to health related problems.

## Biological Engineering Program Regular and Co-op (BIOE/BIOE:C)

## School of Engineering, College of Physical and Engineering Science

Students interested in problems requiring the application of knowledge from both the biological sciences and engineering will find a challenge as a Biological Engineer. This field of engineering relates to the control of technological processes with the aim of enhancing human, animal and plant life. The program encompasses the technologies of biotechnology, waste management, food engineering, and ergonomics. For example, a Biological Engineer concentrating on biotechnology might design and manage bioreactors to improve their productivity. A career in Biomedical Engineering, which requires graduate work beyond the Bachelor's degree, involves designing instruments and diagnostic techniques to be used in the practice of medicine, developing prosthetic devices, and applying engineering techniques to the study of physiological systems.

## Computer Engineering Program Regular and Co-op (CENG/CENG:C)

## School of Engineering, College of Physical and Engineering Science

Computer Engineering is a field of engineering that focuses on the design and organization of computer systems. Graduates in Computer Engineering are able to apply mathematical, scientific and engineering principles to design and integrate computer systems suitable for applications in a wide range of fields. The program provides students with a common base of knowledge essential to computer engineering and then allows them to select from a menu of electives to attain a degree of specialization in one of four areas or to choose electives to broaden their knowledge base. Elective concentrations are available in areas of Electronic Design automation, Software Design, Artificial Intelligence and Robotics, and Microsystems.

## Restricted Electives (see Program Guide for more information)

A maximum of 1.50 credits at the 1000 level is allowed for elective requirements

- 2.00 credits in Complimentary Studies (Students need to take 0.50 credits from each of the three sub-lists noted in the Program Guide. The remaining 0.50 credits can be taken from any Complementary Studies sub-list)
- 2.00 credits in Computer engineering electives.

## Engineering Systems and Computing Program Regular and Co-op (ESC/ESC:C)

School of Engineering, College of Physical and Engineering Science
In the last quarter century, the computer has grown so rapidly in importance that engineering, science, business and industry could not function without it. With this growth, a need has evolved for specialists who can incorporate computers and information into complex industrial processes. The Engineering Systems and Computing program has been conceived to satisfy this need. Graduates from this program will have, in addition to the
basic engineering skills, the ability to identify application areas where computer technology represents the optimum solution, specify appropriate software for process control, data reduction and/or expert system implementation and integrate the computer into the overall system application.

## Environmental Engineering Program Regular and Co-op (ENVE/ENVE:C)

## School of Engineering, College of Physical and Engineering Science

The degradation of the environment is a concern shared by citizens, government agencies, non governmental agencies and businesses. The Environmental Engineering program offered by the School of Engineering provides graduates with design and engineering skills to minimize and prevent the impact of human activities on water, soil and air systems. Both simple and innovative solutions are part of the tool box. Graduates will also creatively integrate humanistic and social perspectives in their solutions.

| Mechanical Engineering Program Regular and Co-op (MECH/MECH:C) |  |  |

School of Engineering, College of Physical and Engineering Science
Mechanical Engineering at Guelph is built around concepts of sustainability and sustainable design to equip graduates to tackle issues associated with emerging technologies. Graduates in mechanical engineering are able to apply mathematical, scientific and engineering principles to a wide variety of fields and find employment across the private and public sectors. The program provides students with a common base of knowledge essential to 2010-2011 Undergraduate Calendar
mechanical engineering, and then allows them to select from a menu of electives to attain a degree of specialization in one of five areas, or to choose electives which broaden their general knowledge base. Elective concentrations are available in the areas of wind and solar energy, food and beverage engineering, mechatronics, manufacturing system design and biomechanics.

## Water Resources Engineering Program Regular and Co-op (WRE/WRE:C)

## School of Engineering, College of Physical and Engineering Science

Water resources engineering focuses on the use and management of land and water resources in rural and urban watersheds. The hydrologic and hydraulic behaviour of watershed flow systems is combined with engineering science and ecological principles in the design of water management systems and strategies. Water management includes flood prevention, warning and control; drainage; design of natural channels; irrigation; and erosion prevention and control. The supply of water for municipal, industrial and agricultural purposes is considered in the context of resource conservation. Identification of potential point and diffused sources of pollutants is used to develop efficient, environmentally sustainable and economical methods to preserve high-quality water to sustain human life and water-dependent ecosystems.

## Bachelor of Landscape Architecture (B.L.A.)

Landscape Architecture is the art and science of designing and conserving land and water for human use and enjoyment. As a profession, Landscape Architecture is concerned with two scales of planning and design.
The first scale is with the development of specific sites for residential, recreational, institutional, commercial and industrial projects. The second scale pertains to the regional landscape where the issues include management plans for forest, park and recreation areas, agricultural lands protection, gravel pit mining and restoration, hazard land studies, and visual resource analysis.

## Program Information

## Objectives of the Program

Landscape Architecture is a diverse and rewarding design profession. Landscape architects play an important role in shaping our environment, working in collaboration with other design professionals, specialists and the public.
Students in the B.L.A. program attain professional knowledge and skill that prepares them to deal with problems that concern the interface between people and the environment. Program emphasis is on core professional knowledge domains that include landscape analysis, design, implementation, communication, history and professional practice. Additional required and elective courses in the arts and sciences provide a well-rounded education.
Graduates of the program have exciting careers in the public and private sector. As landscape architects, they design memorable places that are attractive, functional and sustainable and that affect the way our cities, suburbs, rural and wilderness areas are planned, designed and managed.

## Accreditation

The Bachelor of Landscape Architecture program is accredited by the Canadian Society of Landscape Architects (CSLA) accreditation is recognized by the American Society of Landscape Architects. C.S.L.A. accreditation is recognized by the American Society of Landscape Architects (ASLA). Graduates of accredited landscape architecture programs have the educational qualifications to apply for membership in provincial and state professional associates in Canada and the United States after completion of the required number of years of professional practice and successful completion of required examinations.

## Admission to the Landscape Architecture Program

Students wishing to enter the program of study leading to the Bachelor of Landscape Architecture degree should consult Section IV--Admission Information.

## Degree

The degree granted for the successful completion of the program is the Bachelor of Landscape Architecture (B.L.A.).

## Selection of Electives

All electives may be chosen independently although counselling with the departmental advisor is highly, recommended. In selecting electives two approaches may be followed: 1) electives may be chosen from a variety of disciplines to achieve breadth of knowledge or, 2) all or most electives may be chosen in a subject area in order to pursue a particular field of interest in depth. Some of these fields might include agricultural and biological sciences, environmental studies, studio arts, geography, philosophy or sociology.
Students wishing to elect a permissible substitute shall do so in consultation with their departmental advisor. A substitute course will normally be in the same academic area as that listed in the Landscape Architecture Program.
The following elective courses in Landscape Architecture are available. Refer to course descriptions for scheduling information.

| LARC*3500 | $[0.50]$ | Independent Study |

| LARC*4520 | $[0.50]$ | Park and Recreation Administration |
| LARC*4730 | $[0.50]$ | Special Study in Landscape Architecture |
| LARC*4740 | $[0.50]$ | Case Studies |

## Academic Advising

Students can consult the BLA Coordinator who is a faculty member that can address program issues and individual curriculum queries.

## Computers

Expertise in many aspects of computer application is now a fundamental skill for the profession. Recognizing this, the school provides computer facilities in the building. If it is feasible we recommend that students acquire their own computer within the first two years of the program.

## Field Trips

Participation in organized visits to site study areas and project sites is obligatory for all students taking certain courses in landscape architecture. To the extent that it is possible, students will be informed of the dates, destinations and cost of field trips prior to registration. Students who have reason to seek exemption from the requirement may apply to the director prior to registration for permission to substitute papers on appropriate topics.

## Pre-Professional Experience

It is considered highly advisable that the prospective graduate prepare for later professional practice through summer employment in the landscape industry. Two summers spent in landscape related work followed by 1 summer in a professional office is considered to be a desirable sequence of employment.

## Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations \& Procedures.

## Conditions for Graduation

In order to qualify for graduation from the 8 semester Honours B.L.A. program, the student must successfully complete all of the courses approved for the program ( 20.00 credits).

## Bachelor of Science (B.Sc.)

The University of Guelph offers general and honours programs leading to the B.Sc. degree. The general program consists of a minimum of 15.00 credits (usually 30 semester courses) involving normally 6 semesters of study. The requirements for the honours program is a minimum of 20.00 credits (usually 40 semester courses) which may be obtained over 8 semesters of study. Some majors may require more than 20.00 credits.

## The Three Semester System

Most of the B.Sc. programs operate on the three semester system. In this system each of the Fall, Winter and Summer semesters is of 12 weeks duration. Two semesters are equivalent to 1 academic year at a university on the traditional system. In the three semester system, students may vary their rate of progress towards graduation. However, since many science courses must be taken in a certain sequence and not all courses are offered each semester, most science students are required to proceed from semester to semester in restricted patterns. Furthermore, the advanced courses of the honours programs are offered only in the regular fall and winter semesters.
Additional information may be obtained from Admissions Services, Office of Registrarial Services. The three-semester system and the pass-by-course method of advancement allow considerable flexibility of program arrangement. In addition, a variety of program contents is available which the student may modify to meet individual requirements.

## Transfer from One B.Sc. Program to Another

On entrance to the B.Sc. program, the student may elect to follow an intended area of specialization or to postpone this decision until a later semester. The choice of a particular program of study may be most effectively made at the end of Semester 3 or 4. Judicious selection of courses in each and every semester will allow the easiest transfer between programs without incurring the need for additional semesters of study. The program counsellor of the particular college from which it is anticipated that the majority of science courses will be taken should be consulted for advice

## Program Information

## General Program Requirements

The general B.Sc. degree requires the successful completion of 15.00 required credits. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in 6 semesters. The general science program is designed to give a broad general training in biological science, chemistry, physics and mathematical science. This is achieved by requiring each student to take a minimum of 1.00 credits in each of the above areas and an additional 0.50 credits in three of the four above areas. The courses to be taken in semesters 4 to 6 may be selected to allow a broad study of the sciences from the list of approved electives for B.Sc. students.

## Honours Program Requirements

In order to graduate in the honours program, students must fulfill all program requirements for the program and have achieved a $60 \%$, or higher, cumulative average over all course attempts. Normally 2.50 credits (usually 5 courses) are taken in each semester so that the degree may be completed in generally 8 semesters. The following types of honours programs are offered:

## Honours Major Programs

## Major in a subject

Major in a subject with a minor or a second major

## Honours Major

These programs permit a student to study science in greater depth than is permitted by the general program. The student is required to take a minimum of 1.00 credits (usually 2 courses) in each of biological science, chemistry, physics and mathematical science. In each of semesters 3 to 8 , students select science credits so that the total program provides a broad science training with concentration in an area of physical science or biological science.
A major normally consists of certain prescribed courses (minimum of 8.00 credits) and a number of elective courses to complete the requirements for the degree. The composition of science courses selected must contain a sufficient number (minimum of 6.00 credits) of 3000 and 4000 level courses including a grouping (minimum of 2.00 credits) particularly at the 4000 level. A major program may be studied in conjunction with a minor in an area of science, humanities or social science.

## Honours Minor

A minor is a group of courses which provides for exposure to and mastery of the fundamental principles of a subject. A minor consists of a minimum of 5.00 credits (normally 10 courses). It may also require certain other courses from other areas to be taken along with the specified courses of the minor. A minor is taken in conjunction with a major.
Students should seek advice from the program counsellor of either the College of Biological Science or the College of Physical and Engineering Science dependent upon their primary area(s) of interest. Refer to B.Sc. Program Requirements: Regulation 6. Double-Counting of Credits.

## B.Sc. Program Requirements

## Regulations 1,2,3 and 4 apply to all B.Sc. students. <br> 1. Entry Credits

In general, the 4 U /grade 12 credit or its equivalent is required in a subject area to allow entrance to the initial university course. Students who lack this requirement can remedy the deficiency by successful completion of:
BIOL*1020 for students lacking biology
CHEM*1060 for students lacking chemistry
PHYS*1020 for students lacking physics
If more than one of the above courses is taken, students are required to complete additional credits beyond the minimum total required for the degree.

## 2. Basic Science Core

In each of the first 2 semesters B.Sc. students must take one (1) of the specified courses in each of biology, chemistry, physics and mathematical science, and 1 other course which is normally an Arts or Social Science elective.

## 3. 1000 Level Credits

If more than 7.00 credits at the 1000 level are completed, students are required to complete additional credits beyond the minimum total required for the degree.

## 4. 3000 and 4000 Level Credits

There is a requirement for a minimum of 6.00 science credits at the 3000 - and 4000 -levels with a minimum of 2.00 credits at the 4000 level.

## 5. Science Credits

A minimum of 16.00 science credits (usually 32 courses) is required for the honours major program. The inclusion of a minor in a non-science area involves the reduction to 14.00 science credits (usually 28 courses) with the approval of the program counsellors. Acceptable science courses in the following programs means "acceptable to the B.Sc. Program Committee". Lists of acceptable courses are available in the offices of the faculty advisors and the program counsellors and on the world wide web at the following address: http://www.bsc.uoguelph.ca/Approved_electives.shtml.

## 6. Double-Counting of Credits

A maximum of 2.00 credits required in a major program may be applied to meet the requirements of a minor or an additional major.
For a completed minor in a non B.Sc. area, students can apply up to 1.00 credits, from their minor, at the 3000/4000 level towards the 6.00 credits at the $3000 / 4000$ level required for the degree.

## 7. Continuation of Study

Students are advised to consult the regulations for continuation of study outlined in detail in Section VIII--Undergraduate Degree Regulations \& Procedures.

## Doctor of Veterinary Medicine.

Students in the B.Sc. program who intend to apply for admission to the Doctor of Veterinary Medicine program should register for the Major Biological Science or Major Physical Science program, or the major of their choice. Prospective candidates for the D.V.M. program should consult the admission requirements for the program. Students may obtain assistance in selecting a program that will meet the requirements for the Doctor of Veterinary Program and for continuation in biological or physical science programs by consulting the appropriate Program Counsellor.

## General Program (BSCG)

## Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations \& Procedures.

## Conditions for Graduation

In order to qualify for graduation from the general program the student is required to attain a passing grade in a minimum of 15.00 required credits as outlined in the Total Course Requirements for all students in the General Science Program and have achieved a minimum cumulative average of $50 \%$.

## Total Course Requirements for all Students in the General Science Program

Total of 15.00 credits as follows:

1. 4.00 credits from the first year science core -1.00 credits beyond the $4 \mathrm{U} /$ grade 12 level in each of biological science, chemistry, mathematical science, physics. Note: A maximum of 7.00 credits at the 1000 level may be used towards the degree requirements.
2. An additional 0.50 credits from at least 3 of the following subject areas: biological science, biochemistry/chemistry, mathematical science, physics.
3. 6.50 additional credits selected from the list of approved sciences electives for the B.Sc. degree program of which 2.50 credits must be at the 3000 or 4000 level. Note: One of: BIOL*1020, CHEM*1060, PHYS*1020 may be counted towards the degree requirements, counting as 0.50 credits in science.
4. 2.00 credits - arts and/or social science electives approved for the B.Sc. degree program.

## 5. 1.00 credits in electives.

## Honours Programs (BSCH)

## Honours Program Majors

The following honours majors are available:

## Biological Sciences:

20.00 credits -Animal Biology (ABIO)
20.25 credits -Biochemistry (BIOC)
20.00 credits -Biological Science (BIOS)
20.00 credits -Bio-Medical Science (BIOM)
20.00 credits - Human Kinetics (HK)
20.00 credits - Marine and Freshwater Biology (MFB)
20.00 credits - Microbiology (MICR)
20.00 credits - Molecular Biology and Genetics (MBG)
20.00 credits - Nutritional and Nutraceutical Sciences (NANS)
20.00 credits - Plant Science (PLSC)
20.00 credits - Wild Life Biology (WLB)
20.00 credits - Zoology (ZOO)

## Physical Sciences:

20.00 credits - Biological and Pharmaceutical Chemistry (BPCH)
21.25 credits - Biophysics (BIOP)
21.75 credits - Chemical Physics (CHPY)
20.25 credits - Chemistry (CHEM)
20.00 credits - Nanoscience (NANO)
20.00 credits -Physical Science (PSCI)
21.25 credits -Physics (PHYS)
21.25 credits -Theoretical Physics (THPY)

Environmental Sciences:

21.25 credits - Physics (Co-op) (PHYS:C)
20.00 credits - Toxicology (Co-op) (TOX:C)

## Honours Program Minors

Minors are available in the following science areas with the particular credit requirements being given (additional minors are available from the College of Arts and the College of Social and Applied Human Sciences). A minor may include additional prerequisites consult with the appropriate faculty advisor.

## Biological Sciences:

5.00 credits - Biology (BIOL)
5.00 credits - Biochemistry (BIOC)
5.00 credits - Biotechnology (BIOT)
5.00 credits - Functional Foods and Nutraceuticals (FFAN)
5.25 credits - Microbiology (MICR)
5.00 credits - Molecular Biology and Genetics (MBG)
5.00 credits - Neuroscience (NEUR)
5.00 credits - Nutritional and Nutraceutical Sciences (NANS)
5.00 credits - Plant Science (PLSC)
5.00 credits - Zoology (ZOO)

## Physical Sciences:

5.00 credits - Chemistry (CHEM)
5.00 credits - Physics (PHYS)

## Environmental Sciences:

5.00 credits - Ecology (ECOL)
5.00 credits - Forest Systems (FSYS)
5.00 credits - Geographic Information Systems (GIS) and Environmental Analysis 5.00 credits - Geology (GEOL)

## Mathematical Sciences:

5.25 credits - Computing and Information Science (CIS)
5.00 credits - Mathematical Science (MSCI)
5.00 credits - Mathematics (MATH)
5.00 credits - Statistics (STAT)

Additional Disciplines:
5.00 credits - Business Administration (BADM)
5.00 credits - Food Science (FOOD)
5.00 credits - Psychology: Brain \& Cognition (PBC)

## Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VII--Undergraduate Degree Regulations \& Procedures.

## Conditions for Graduation

## Schedules 1 and 2

In order to qualify for graduation from the honours program, the student must fulfill all program requirements and have achieved $60 \%$, or higher, cumulative average in all course attempts.
Note: A student registered in an honours program who has successfully completed all required courses and the specified total number of credits for the program but does not have a cumulative average of $60 \%$, or higher, may apply to graduate from the general program.

## Co-operative Education Program

Admission to the Co-operative Education program may be granted on entry to the University or by application normally before the conclusion of Semester 2. Application forms can be obtained from the appropriate faculty co-op advisor. In-course students will need to complete successfully an interview in the appropriate department. Students must be either a Canadian Citizen or Permanent Resident. A cumulative average of $70 \%$ is required in courses taken in Semesters 1 and 2 to permit continuation in the program.
Conditions for Graduation from the B.Sc. Co-operative Education Program
Conditions for graduation are the same as the corresponding regular B.Sc. program. In addition, all work reports and work performance evaluations must have a grade of satisfactory or better.

## Animal Biology (ABIO)

Department of Animal and Poultry Science, Ontario Agricultural College

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor.

## Biochemistry (Co-op) (BIOC:C)

Department of Molecular and Cellular Biology, College of Biological Science
Two Streams are available. Stream A is different from Stream B in that Stream A has a double work term following academic semester 5. The course content of semesters 1-4
is the same as that listed above for the regular Honours Program Major. Students in the Co-op program must also take COOP*1100 in the second academic semester. The total program requirements, including the selection of electives are also the same.
Students will be expected to undertake their work terms after semester 3 and completion of course CHEM*2480. Since certain courses must be taken in a different semester from usual, consult your Faculty Co-op Advisor for assistance with course selection.
To graduate from the Co-op program a minimum of 4 successfully completed work terms is normally required.
This major requires the completion of 20.25 credits as indicated below.

Credit Summary ( 20.00 credits)
4.00 - First year science core
3.50 - Required science courses semesters 3-8
5.50 - Approved Biological Science electives of which 4.00 must be 3000/4000 level
3.00 - Approved science electives of which 2.00 must be $3000 / 4000$ level* May include

1 of BIOL*1020, CHEM*1060, PHYS*1020
2.00 - Approved Arts or Social Science electives
2.00 - Electives
*2.00 science credits must be at the 4000 level.
Biology (BIOL)
College of Biological Science
Minor (Honours Program)
A minor in Biology consists of a minimum of 5.00 credits including the following courses: BIOL*1070 [0.50] Discovering Biodiversity
BIOL*1090 [0.50] Introduction to Molecular and Cellular Biology
MBG*2000 [0.50] Introductory Genetics
MCB*2210 [0.50] Introductory Cell Biology

\text { BIOL*3110 } & {[0.50]} & \text { Population Ecology }
\end{array}
$$

Of the additional 2.50 credits, students must complete a minimum of 1.50 credits at the 3000 or 4000 level, from courses offered by the following departments: Human Health and Nutritional Sciences, Integrative Biology and Molecular and Cellular Biology. BIOL*1080 is a prerequisite for some CBS courses. This minor is restricted to students registered in B.Sc. majors in the Physical Sciences, B.A.S., and the B.A. degree programs.

## Bio-Medical Science (BIOM)

Department of Biomedical Sciences and Department of Human Health and Nutritional Sciences
This joint program of the Department of Human Health and Nutritional Sciences and the Department of Biomedical Sciences focuses on the maintenance and promotion of human and animal health through the study of function (biochemistry and physiology), structure (anatomy and histology), and the basic medical sciences (epidemiology and pharmacology). It will permit graduates to contribute to society in the area of health maintenance. The program is a good preparation for students intending to develop professional or research careers in the medical and biological sciences. Through the use of electives, students may structure a program emphasizing either nutritional sciences or principles of health and disease prevention. For more information on recommended electives contact the Faculty Advisor of the major.
This program is designed to partially meet the current requirements for an entry into medical schools in Ontario (a student interested in meeting these requirements should check the present admission requirements for the medical schools); as well as entry into the DVM program of the Ontario Veterinary College.
Live animals and/or animal tissues are used for teaching purposes in some courses in the Bio-Medical Science Major. This must be accepted by students admitted to the program. All animals are protected under the Animals for Research Act of Ontario (1980), the Guidelines for the Care and Use of Experimental Animals (Canadian Council on Animal Care), and the Animal Care Policies of the University of Guelph.
Students who are admitted into the Bio-Medical Science major from high school must meet additional requirements to continue in the major. Continuation after first year is based on the cumulative average in the first two full-time semesters ( 5.00 credits), including the eight core courses as prescribed by the Schedule of Studies (see below). Students with a minimum average of $75 \%$ average will be guaranteed continuation in this major. For students with a 70-74.9\% average, continuation will be competitive based on available spaces. Students with an average below $70 \%$ will be changed to the Biological Science major. Students may subsequently change to another B.Sc. major of their choice.
B.Sc. students who were not admitted into the Bio-Medical Science major from high school and wish to declare the specialization at the end of first year must apply directly to the Department of Biomedical Sciences by the last day of classes in the winter semester and meet the additional requirements specified above.
B.Sc. students beyond first year who wish to declare the specialization must apply directly to the Department of Biomedical Sciences by the last day of classes in the winter semester. Admission to the major will be based on the cumulative average in the previous two full-time semesters ( 5.00 credits). Acceptance will be competitive based on available
spaces. Students with an average below $70 \%$ will not be considered for admission to the major.
All decisions will be made at the end of June.

## Major (Honours Program)

A minimum of 20.00 credits is required.
Note: Students are required to complete 16.00 credits in science of which a minimum of 2.00 credits must be at the 4000 level.

5. A total of 2.00 credits in Arts and Social Science courses must be completed including 1.00 credits from: PHIL*2030, PHIL*2070, PHIL*2100, PHIL*2120, PHIL*2180, psychology (PSYC*XXXX) or sociology (SOC*XXXX).

## Biophysics (BIOP)

## Department of Physics, College of Physical and Engineering Science <br> Major (Honours Program)

The program emphasizes the physics of biological systems. It provides an excellent background for careers in the expanding interdisciplinary research laboratories of Government and Industry. Completion of the program at an appropriate level will qualify a student to pursue post-graduate studies in biophysics and certain areas of physics.
Since some of the required courses are not offered every semester, students entering the Major in Biophysics should plan their program in consultation with the Department of Physics Departmental Advisor.

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major requires the completion of 21.25 credits as indicated below. At least 1.00 credits must be from Arts and/or Social Science courses.

1. Some of these courses may have to be taken in Semester 6.
2. Some of these courses are offered only in alternate years, and some have additional prerequisites for which the student must plan ahead, with the assistance of the faculty advisor.

## Minor (Honours Program)

A minor in Chemistry consists of at least 5.00 credits in Chemistry courses (CHEM) at the 2000 level or above including a minimum of 2.50 credits at the 3000 or 4000 level. Exclusions: CHEM*2300 and CHEM*3360 cannot be counted toward this specialization

## Chemistry (Co-op) (CHEM:C)

Department of Chemistry, College of Physical and Engineering Science
Major (Honours Program)
The major will require the completion of 20.25 credits as indicated below.
The course content of semesters 1 to 3 is the same as listed in the regular Honours Program Major.
To graduate from the Co-op program a minimum of 4 successfully completed work terms is normally required. These can be taken as four single work terms (Stream A), or as a double work term between two single work terms (Stream B).
Stream A: single work term option

## Computing and Information Science (CIS)

Department of Computing and Information Science, College of Physical and Engineering Science
A knowledge of Computing is a complement to most areas of study. The Minor in Computing and Information Science is directed towards students who wish to supplement their studies in another area with some experience in Computing. Students interested in pursuing a Major in Computing can do so through the Bachelor of Computing Degree Program.

## Minor (Honours Program)

CIS*1500 [0.50] Introduction to Programming
CIS*1910 [0.50] Discrete Structures in Computing I
CIS*2430 [0.50] Object Oriented Programming
CIS*2500 [0.50] Intermediate Programming

CIS*2750 [0.75] Software Systems Development and Integration
CIS*2910 [0.50] Discrete Structures in Computing II
CIS*3530 [0.50] Data Base Systems and Concepts
1.00 additional credits from CIS or STAT courses at the 2000 level or above

## Earth Surface Science (ESS)

Department of Geography, College of Social and Applied Human Sciences
School of Environmental Sciences, Ontario Agricultural College
This program combines elements of Geomorphology, Geology and Meteorology and focuses on the study of processes and properties of the abiotic component of the environment.
Graduates of the program should meet the knowledge requirements for eligibility to apply for membership as Environmental Geoscientists in the Association of Professional Geoscientists of Ontario (APGO), allowing for use of the designation P. Geo.
Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Students planning to enter the program are advised to consult advisors in either of the two departments. Students needing program approval should contact the B.Sc. Advisors in the Department of Geography.

## Ecology (ECOL)

## Department of Integrative Biology, College of Biological Science

The program provides a solid foundation in the principles of ecology, and further training in both pure and applied aspects of ecology. After the fourth semester, the student may choose to enter one (1) of three (3) areas of emphasis, or to design a course package that meets his/her own specific ecological interests (General Ecology). The program offers preparation for careers in conservation, resource management, ecological consulting, or nature interpretation; or for graduate training and research in fundamental ecology and evolutionary biology. This major qualifies students for post-graduate work in the environmental sciences, and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

## Environmental Biology (ENVB)

## School of Environmental Sciences, Ontario Agricultural College

The honours B.Sc. program in Environmental Biology combines a broad education in the life sciences with a more specialized understanding of the biological consequences of interactions between humans and the environment. This major prepares students for post-graduate work in environmental biology and related life sciences and provides a strong foundation for students wishing to pursue careers in teaching, government service or the private sector.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major requires the completion of 20.00 credits. A minimum of 16.00 of these 20.00 must be science credits. Of these 16.00 science credits, a minimum of 6.00 must be at the 3000 - and 4000 -levels with a minimum of 2.00 credits at the 4000 -level.

## Forest Systems (FSYS)

School of Environmental Sciences, Ontario Agricultural College

## Minor (Honours Program)

A minor in Forest Systems consists of 5.00 credits from the following courses:
ENVB*2030 [0.50] Current Issues in Forest Science
ENVB*3330 [0.50] Ecosystem Processes and Applications
ENVB*4420 [0.50] Problems in Environmental Biology
ENVB*4780 [0.50] Forest Ecology
Two of:

| ENVB*3230 | $[0.50]$ | Agroforestry Systems |

| BIOL $^{*} 4040$ | $[0.50]$ | Natural Resources Policy |
| ENVB*3010 | $[0.50]$ | Climate Change Biology |
| GEOG*3110 | $[0.50]$ | Biotic and Natural Resources |
| GEOG*3610 | $[0.50]$ | Environmental Hydrology |
| GEOG*4110 | $[0.50]$ | Environmental Systems Analysis |
| HORT*3350 | $[0.50]$ | Woody Plant Production and Culture |
| SOIL*2010 | $[0.50]$ | Soil Science |

* ENVB*4420 is preferred, but may be substituted by BIOL*4410 or NRS*4110 with the approval of the faculty advisor.

## Functional Foods and Nutraceuticals (FFAN)

Department of Human Health and Nutritional Sciences, College of Biological Science Department of Food Science, Ontario Agricultural College.

## Minor (Honours Program)

A minor in Functional Foods and Nutraceuticals consists of 5.00 credits.
BIOC*2580 [0.50] Introductory Biochemistry
ECON*1050 [0.50] Introductory Microeconomics
NUTR*3210 [0.50] Fundamentals of Nutrition
TOX*2000 [0.50] Principles of Toxicology

| NUTR*4090 | $[0.50]$ | Functional Foods and Nutraceuticals |

2.00 Restricted Electives*
*restricted electives should be chosen in consultation with the Nutritional and Nutraceutical Sciences faculty advisor. Any 3000 and 4000 level courses from the following subject areas are eligible as restricted electives: Nutrition**, Food Science**, Biomedical Sciences**, Toxicology, Population Medicine, Animal Science, Plant Biology, Human Kinetics**, and Pathology.
**students in these majors must select restricted electives outside of the major
Geographic Information Systems (GIS) and Environmental Analysis
Department of Geography, College of Social and Applied Human Sciences
Minor (Honours Program)
A minimum of 5.00 credits is required from:

| GEOG*1300 | [0.50] | Introduction to the Biophysical Environment |
| :---: | :---: | :---: |
| GEOG*2420 | [0.50] | The Earth From Space |

| Geology (GE |  |  |

School of Environmental Sciences, Ontario Agricultural College
Minor (Honours Program)
A minor will consist of at least 5.00 credits in Geology. The following 6 courses are mandatory:
GEOL*1050 [0.50] Geology and the Environment
GEOL*2020 [0.50] Stratigraphy
GEOL*2110 [0.50] Earth Material Science
GEOL*2200 [0.50] Glacial Geology
GEOL*3090 [0.50] Applied Structural Geology
GEOL*4090 [0.50] Sedimentology
The remaining credits can be chosen from Geology or the Geomorphology offerings in Geography in the calendar and must be 2000 level or above.

## Human Kinetics (HK)

Department of Human Health and Nutritional Sciences, College of Biological Science Human Kinetics is concerned with understanding capacities for, and limits of, human movement at different ages and with the role of physical activity in human health. Through the use of electives, students may structure a program emphasizing biomechanics and ergonomics, human population biology or nutrition, exercise and metabolism.
If lacking the fundamentals of word processing, spread sheet use and data management, the student should select CIS*1200 as early in the program as possible.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum of 20.00 credits, of which 16.00 must be from the list of acceptable science courses, are required

## Semester 1

BIOL*1080 [0.50] Biological Concepts of Health
CHEM* 1040
MATH* 1080
[0.50] General Chemistry I
[0.50] Elements of Calculus I
PHYS*1070 [0.50] Introductory Physics for Life Sciences
0.50 arts or social science electives

Students who are lacking one 4 U /grade 12 course in Biology, Chemistry or Physics must take the equivalent introductory course in first semester. The required first-year science courses in that subject should be completed according to the revised schedule of studies available at: http://www.bsc.uoguelph.ca/revisedss

## Semester 7

2.50 electives or restricted electives

## Semester 8

2.50 electives or restricted electives

## Restricted Electives

A minimum of 2.00 credits of restricted electives are required which must be selected from HK*3100, HK*4XXX, NUTR*4XXX (must be an approved B.Sc. Science Elective).

## Marine and Freshwater Biology (MFB)

## Department of Integrative Biology, College of Biological Science

The Major in Marine and Freshwater Biology provides a broad ecological perspective on aquatic environments based on the physical as well as the biological sciences. This major prepares students for post-graduate work in the aquatic sciences, and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

2. Other field or research courses with approval of faculty advisor.
3. At least 1.00 Arts and/or Social Science electives.

## Mathematical Science (MSCI)

## Department of Mathematics \& Statistics, College of Physical and Engineering Science Minor (Honours Program)

This requires 1.00 calculus credits and 4.00 other credits chosen from mathematics, statistics, and computing and information science. For these 4.00 credits students will choose at least 0.50 from each discipline. At least 1.00 credits must be at the 3000 level or above. This minor cannot be combined with a major in Mathematics, Statistics, or Computing and Information Science.

## Mathematics (MATH)

Department of Mathematics and Statistics, College of Physical and Engineering Science

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the Major which includes at least 10.00 credits in Mathematics \& Statistics. This major must include at least 6.00 credits at the 3000 or 4000 level from the approved list of science electives of which at least 2.00 credits must be at the 4000 level (and may include STAT*4340). At least 1.00 credits in Arts and Social Science must be completed.

## Semester 8

1.00 credits from a 4000 level mathematics **
1.50 electives
*A student selecting STAT*3100 should take STAT*3110 in semester 6.
**Students are reminded that the major requires 2.00 credits (four courses) at the 4000 level in Mathematics.

## Minor (Honours Program)

A total of 5.00 credits is required to complete the Minor, including:
2.50 credits from:
(MATH* 1080 or MATH*1200)
(MATH* 1210 or MATH*2080)
MATH $2000 \quad[0.50] \quad$ Set Theory
(MATH*2150 or MATH*2160)
MATH*2200 [0.50] Advanced Calculus I
0.50 Statistics (STAT*) credits at the 2000 level or above.
2.00 additional Mathematics credits at the 2000 level or above, including 1.50 credits at the 3000 or 4000 level.

## Microbiology (MICR)

## Department of Molecular and Cellular Biology, College of Biological Science

Microbiology programs are designed to give students a good understanding of microorganisms, including diversity, ecology, physiology, molecular genetics, current approaches in bacterial genomics/proteomics, and microbial associations with animal hosts and the environments. Such knowledge will provide the basis for further work with microbes in medicine, agricultural industries (including biotechnology, pharmaceuticals, food and beverage) and the environment (surveillance and bioremediation).
Students can take the B.Sc. program with a Major or a Minor in Microbiology, or combine the minor with another major. Students should plan their programs in consultation with the microbiology faculty advisor. As course offerings may change during the program, students are strongly encouraged to review their plans at least once a year with their advisors, and to check the departmental website for program news.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum of 6.00 science credits must be at the $3000 / 4000$ level of which at least 2.00 credits must be at the 4000 level (including the 1.00 from the restricted elective credits).

Department of Molecular and Cellular Biology, College of Biological Science
Students in the Major in Microbiology program may take the Co-op option. Students do not begin their first work term until they have completed semester 3 and courses BIOL*1070, BIOL*1080, BIOL*1090 and MICR*2030. Students in the co-op program must also complete COOP*1100 in the second academic semester. At least 3 work terms $\left(\mathrm{COOP}^{*} 1000, \mathrm{COOP}^{*} 2000, \mathrm{COOP} * 3000\right)$ are required in the co-op program, and the course requirements are the same as shown for the major program. Some courses must be taken during a different semester than usual, and Co-op students generally require an additional semester to meet all the program requirements. Students should plan their programs in consultation with the faculty advisor. A total of 20.00 credits are required to complete the major. A minimum of 6.00 science credits must be at the 3000/4000 level of which at least 2.00 credits must be at the 4000 level (including the 1.00 from the restricted elective credits).

## Molecular Biology and Genetics (MBG)

## Department of Molecular and Cellular Biology, College of Biological Science

The B.Sc. program with a Major in Molecular Biology and Genetics is a broadly based program in genetics including related areas of cell and molecular biology. In consultation with the Faculty Advisor, students can choose a general program or can focus their courses in areas such as molecular biology, cell biology, developmental biology, genetics, or agricultural genetics. The program qualifies students for postgraduate training in cell or molecular biology and genetics including clinical genetics and genetic counselling, and provides an excellent background for careers in biotechnology, toxicology, agriculture
and medical research. Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor.

## Major (Honours Program)

A total of 20.00 credits is required to complete the major.

## Selection of electives is subject to the following rules:

1. The student must select at least 1.00 credits in Arts or Social Science.
2. The program must include at least 6.00 science credits at the 3000 and 4000 level of which at least 2.00 must be at the 4000 level.
3. In semesters 7 and 8 , the student must select to do either NANO*4900 or NANO*4910.

In completing the science requirements for the degree, some suggested complementary areas of focus are:

## Chemistry: Inorganic

Semester 4: CHEM*2480
Semester 5: CHEM*3640
Semester 6: CHEM*3650
Semester 7: CHEM*2820, CHEM*4620

In fulfillment of the 2.00 additional credits, students may take 1 of:
BIOM*3040 [0.75] Medical Embryology
ZOO*2100 [0.50] Developmental Biology
and non-B.Sc. students may also select:
MBG*2020 [0.50] Introductory Molecular Biology
MCB*2210 [0.50] Introductory Cell Biology
Please note that some of the restricted electives require prerequisites that are not included in the minor.

## Nutritional and Nutraceutical Sciences (NANS)

Department of Human Health and Nutritional Sciences, College of Biological Science
The Nutritional and Nutraceutical Sciences major is concerned with understanding the contribution of food, beverage and nutritional supplement consumption to growth, development of optimal biological function, maintenance of health, and treatment of disease.
If lacking the fundamentals of word processing, spread sheet use and data management, the student should select CIS*1200 as early in the program as possible.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required, including 2.00 credits from Arts and Social Sciences courses.

## Physical Science (PSCI)

College of Physical and Engineering Science

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. This major will require the completion of 20.00 credits as indicated below:

## 1. Basic Science Core $\mathbf{- 4 . 0 0}$ credits

1.00 - Biology (BIOL*1070, BIOL*1080, BIOL*1090)
1.00 - Chemistry (CHEM*1040, CHEM ${ }^{*} 1050$ )
1.00 - Physics [(PHYS*1000, PHYS*1010) or (PHYS*1070, PHYS*1080) or (PHYS*1080, PHYS*1130)]
1.00 - Mathematical Science [(MATH*1080, MATH ${ }^{*} 2080$ ) or $\left(\mathrm{MATH}^{*} 1200\right.$, MATH* 1210)]
2. Subject Area Core $\mathbf{- 8 . 0 0}$ credits
0.50 (STAT*2040 or STAT*2100)
0.50 (CIS*1200 or CIS*1500 )
7.00 physical science credits, including at least 4.00 credits at the 3000 or 4000 level of which 2.00 credits must be at the 4000 level.
3. Science Electives $\mathbf{- 4 . 0 0}$ credits
4.00 science credits from the List of Approved Science Electives for B.Sc. Students*
4. Arts and Social Science Electives - 2.00
2.00 acceptable Arts or Social Science credits selected from the List of Approved B.Sc. Electives*

## 5. Free Electives - $\mathbf{2 . 0 0}$ credits

Note: the program must include a total of 6.00 science credits at the 3000 or 4000 level. Of these, at least 2.00 credits must be physical science at the 4000 level.

## Semester 1

## Semester 5 to 8

Total of 2.50 credits per semester including at least 2.00 science electives.
Sufficient courses at the 3000 or 4000 level must be selected in Semesters 5 through 8 to total 6.00 credits in science at the 3000 or 4000 level with at least 2.00 physical science at the 4000 level.
*approved course lists are available in the Dean's Office, College of Physical and Engineering Science and on the world wide web at http://www.cpes.uoguelph.ca/BSc/approved_electives.htm

## Honours Physical Science (With a Minor)

The requirements and schedules are the same as for Honours Physical Science. Available Minor subjects are listed at the beginning of the B.SC. Program section under the heading Honours Program Minors.

## Physics (PHYS)

## Department of Physics, College of Physical and Engineering Science

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. Since some of the required courses are not offered every semester, students entering the Major in Honours Physics should plan their program in consultation with the Department of Physics Faculty Advisor.

## Minor (Honours Program)

A minor in Physics requires 5.00 credits in physics courses including at least 1.00 at the 3000 or 4000 level.
The following four courses, with a weight of 0.75 each, are required:
PHYS*2440 [0.75] Mechanics I
PHYS*2450 [0.75] Mechanics II
PHYS*2460 [0.75] Electricity and Magnetism I
PHYS*2470 [0.75] Electricity and Magnetism II
The following courses are strongly recommended:
PHYS* $1000 \quad[0.50] \quad$ An Introduction to Mechanics
PHYS*1010 [0.50] Introductory Electricity and Magnetism

## Physics (Co-op) (PHYS:C)

## Department of Physics, College of Physical and Engineering Science

Since some of the required courses are not offered every semester, students entering the Major in Physics (Co-op) should plan their program in consultation with the Department of Physics Faculty Advisor. To graduate from the Co-op program a minimum of 4 successfully completed work terms (COOP*1000, COOP*2000, COOP*3000, COOP $* 4000$ ) is normally required.

1. A minimum of 6.00 credits must be at the 3000 or 4000 levels with a minimum of 2.00 credits at the 4000 level.
2. 1.50 credits of Arts and Social Science electives

## Electives and Restricted Elective ( 9.00 credits)

1. Students are to choose 5.00 credits for an area of emphasis: Applied Plant Science, Botany, Plant Biotechnology, Plant Environmental Science or Unspecialized.
2. Of the 9.00 credits, 6.50 must be approved science electives.
3. Restricted electives, indicated with $\dagger$, are non-science electives.
4. Restricted electives, indicated with $* *$, require other restricted electives as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.
5. $\ddagger$ Students interested in graduate studies are encouraged to take two semesters of research projects which will count towards restricted elective requirements in an area of emphasis:

## Psychology: Brain \& Cognition (PBC)

## Department of Psychology, College of Social and Applied Human Sciences

The B.Sc. Major in Psychology: Brain and Cognition offers an opportunity for students to develop interests within learning, perception, cognition, and biopsychology from a sound base in physical and biological sciences. Students primarily interested in other areas within psychology should consult the schedule of studies for the Bachelor of Arts program. Psychology courses in the above focuses may also be studied via the B.A. program.

## Note on Honours Courses

Courses marked (H) are designed for students in a psychology major or minor or the Information Systems and Human Behaviour program and the Educational Psychology Minor program. Students in other programs wishing to take these courses must obtain the permission of the instructors concerned. Unless otherwise specified, all other courses may be taken by general, honours, and students from other programs, providing the prerequisites are met. Courses designated with (H) are Honours level courses requiring for registration a cumulative average of at least $70 \%$ in all course attempts in Psychology, or registration in the ISHB Major.

## Graduate Studies Advisory Note

** students planning to enter a graduate program in Psychology are advised to complete PSYC*4870 and PSYC*4880 in Semesters 7 and 8, respectively. Note that PSYC*4370 or PSYC*4900 must be completed prior to or concurrently with either PSYC*4870 or PSYC*4880
Note: The selection of electives should take into consideration the prerequisites for preferred advanced courses. With the permission of the Psychology Department PRIOR
to course selection, up to 2 non-psychology credits can be used towards the psychology credits if such courses enhance the student's psychology program.

Statistics (STAT)
Department of Mathematics and Statistics, College of Physical and Engineering Science
Students in this program will acquire the ability to use modern statistical methods in a variety of applications, the theoretical understanding necessary to develop statistical methods to meet new needs and a solid preparation for further study. As well, since statistical computing is a fundamental tool for the application and development of modern statistical methods, students will develop skills in computer applications programming using such high-level languages as SAS and S-PLUS.
Students may enter this major in any semester. A student wishing to declare the major must consult the Faculty Advisor. A total of 20.00 credits is required to complete the major. Required 1000 level courses are listed under Semester 1 and Semester 2 of the recommended Schedule of Studies for Major. At least 8.00 credits in Statistics and Mathematics are required at the 2000 level or above, as follows: MATH*2130, MATH 2150, MATH 2160, MATH 2200, STAT 2040, STAT $* 2050$, STAT* 3100 , STAT*3110, STAT*3210, STAT*3240, STAT*3320. Five other courses ( 2.50 credits) in Statistics at the 3000 or 4000 level, of which at least four ( 2.00 credits) must be at the 4000 level. One other course ( 0.50 credits) in Mathematics or Statistics at the 2000 level or above.

## Wild Life Biology (WLB)

## Department of Integrative Biology, College of Biological Science

The Major in Wild Life Biology provides exposure to the ecological principles upon which the scientific management of wild life is based. This major prepares students for post-graduate work in ecology and management of wild life and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

## Major (Honours Program)

Students may enter this major in semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major.

## Zoology (ZOO)

Department of Integrative Biology, College of Biological Science
The Major in Zoology offers a broad education in the life sciences while providing a more specialized understanding of the structure, function and ecology of animals. This major qualifies students for post-graduate work in zoology and other life sciences and provides a sound science background for students wishing to pursue careers in teaching, government service or the private sector.

## Major (Honours Program)

Students may enter this major in Semester 1 or any semester thereafter. A student wishing to declare the major must consult the Faculty Advisor. A minimum total of 20.00 credits is required to complete the major. At least 6.00 science credits must be at the 3000 or 4000 level, 2.00 of which must be at the 4000 level.
8.50 credits are electives, including at least 1.00 Arts or Social Science electives and 0.75 credit from restricted electives. BIOL*2250 is strongly recommended if independent research project courses are anticipated in semesters 7 and/or 8 CIS*1 200 is recommended for those needing to improve their computer skills.

## Bachelor of Science in Agriculture [B.Sc.(Agr.)]

The B.Sc.(Agr.) degree program is a 4 year honours science program designed to provide a fundamental education in the science of agriculture. The curriculum includes courses in the agricultural sciences, the physical, biological and social sciences, and in the arts.

## Program Information

Agricultural scientists must be effective communicators and problem solvers, self-directed in their learning, and have a global perspective of the agrifood systems. Students will be involved in co-operative group learning activities and will experience courses that are multidisciplinary and integrate the teaching activities of many faculty and departments.
Students will have the option of completing a broad agricultural program (honours agricultural science) or another major in which they take a minimum of 6.00 credits. The curriculum provides opportunities for students to select courses that will help them prepare for professional careers as entrepreneurs, scientists, marketing specialists, financial managers, technical advisors, or communication specialists. Students will have a comprehensive understanding of the food system when they graduate. They will be able to integrate their knowledge of production agriculture, environmental management, resource allocation and business management as it applies to the food system nationally and globally.
Students will be encouraged to integrate their academic program with a well-planned series of employment activities in the summer months and to develop their leadership and interpersonal skills in on-campus and community activities. There is a strong commitment in the curriculum to the philosophy of "whole person development" and students are encouraged to identify personal goals that they wish to accomplish in each of these areas of their development.
Graduates meet the educational requirements for membership in the Ontario Institute of Agrologists. The Ontario Institute of Agrologists is the professional organization in agriculture in the Province of Ontario. Professional institutes in the various provinces in Canada and the scientific societies in agriculture collectively comprise the Agricultural Institute of Canada. The program received full accreditation from the Agricultural Institute of Canada in April 2007.

## B.Sc.(Agr.) Majors:

Animal Science
Crop, Horticulture and Turfgrass Science
Honours Agricultural Science
Organic Agriculture

## Declaration of a Major

All students are admitted into an undeclared major upon entry. Students will be required to select a major by semester 3 through consultation with the Program Counsellor and Faculty Advisors. The course requirements are listed for each major in the following section.
Students may, with appropriate approvals, elect to complete Minors associated with other degree programs as listed in the undergraduate calendar.

## Study Abroad

The B.Sc.(Agr.) degree program is similar in many respects to programs offered at faculties of agricultural science in other provinces in Canada. Students are strongly encouraged to consider studying for 1 or 2 semesters in other faculties of agricultural science in Canada and in selected countries around the world.
Students interested in studying at another institution should consult the B.Sc.(Agr.) Program Counsellor to discuss their plans, and refer to the scholarship section for financial support.
For more specific information on these opportunities refer to Section V--International Study in this calendar, or contact the OAC Dean's Office.

## Doctor of Veterinary Medicine

Students in the B.Sc.(Agr.) program normally apply for admission to the D.V.M. program after semester 4 or later. Applications must be submitted to the Admissions Services, Office of Registrarial Services. Students should consult the D.V.M. Section of the calendar. Students who do not gain admission to the D.V.M. program are eligible to continue in the B.Sc.(Agr.) program through to graduation.
Students planning to enter the D.V.M. program are advised to include 12U biology, 12U chemistry, and 12 U physics in addition to calculus in secondary school.

## Continuation of Study

Students are advised to consult the regulations for continuation of study within the program which are outlined in detail in Section VIII--Undergraduate Degree Regulations \& Procedures.

## Conditions of Graduation

To qualify for the degree Bachelor of Science (Agriculture), the student must successfully complete a minimum of 20.00 credits as set out in the Schedule of Studies listed below. In addition, students must meet the continuation of study requirements at the time of graduation and have a minimum of $60 \%$ cumulative average.

3. A humanities or social science course ( 0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.

## Suggested Electives in Agricultural Sciences and Related Disciplines

Students who wish to concentrate in particular areas of Agricultural Sciences should consider selecting one of the following course groups.
A list of faculty advisors for the following elective course groupings are available from the B.Sc.(Agr) Program Counsellor.
Students should note that some suggested electives (marked by asterisks**) require other courses as prerequisites. Students should consult the most recent undergraduate calendar for specific requirements.

## Restricted Electives

1. A minimum of 7.00 credits must be at the 3000 level or higher, of which 5.00 credits must be in agricultural science and of which 3.50 credits must be at the 4000 level. Those credits at the 3000 level or above selected to satisfy Item \# 3 below will be applied to satisfy this minimum 7.00 credit requirement. Refer to the Program Counsellor for the list of agricultural science courses.
2. A humanities or social science course ( 0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.
3. Six courses ( 3.00 credits) from the courses listed below without regard to group.

Students who wish to concentrate in particular areas of plant agriculture should consider selecting courses from one of the following three course groups.
Note: Some courses listed below may have prerequisites not included among the mandatory courses for the CHATS major listed above. Students are advised to pay particular attention to prerequisite requirements when choosing individual courses, and seek advice as needed.

| HORT*3050 | $[0.50]$ | Management of Turfgrass Insect Pests and Weeds |
| HORT*4450 | $[0.50]$ | Advanced Turfgrass Science |
| Choose one of: |  |  |
| AGR*3500 | $[0.50]$ | Experiential Education I |
| ENVB*3030 | $[0.50]$ | Pesticides and the Environment |
| HORT*4200 | $[0.50]$ | Turf, the Environment and Society |

Business Electives
Students who wish to add business courses to their program are advised to select BUS*2220
and BUS*2230 plus two courses ( 1.00 credits) as electives from the following list:

| BUS*2090 | $[0.50]$ | Individuals and Groups in Organizations |
| :--- | :--- | :--- |
| BUS*3000 | $[0.50]$ | Human Resources Management |
| FARE*3310 | $[0.50]$ | Operations Management |

3. A humanities or social science course ( 0.50 credits) at the 2000 level or above from the College of Arts or College of Social and Applied Human Sciences.
Note: In this major there are fees charged to cover partial costs of some field trips. Students in need of financial assistance should approach the Chair of the department.

## Bachelor of Science in Environmental Sciences [B.Sc.(Env.)]

## Program Information

## Objectives of the Program

The Environmental Sciences program is designed to provide a strong interdisciplinary grounding in specific environmental sciences including the socioeconomic context in which environmental issues are resolved.
There is an emphasis on management and decision-making skills for the application of scientific knowledge to environmental problems, and the evaluation of appropriate environmental policies. A practical perspective based on defining and resolving problems is central to the program, and this is often done in the context of group work.
Substantial emphasis is placed on communication skills, including the development of competence in both written and oral presentations. These skills will be progressively developed in core courses from the first to the fourth year. Students in the final years of their program will be expected to take part in more intensive communication skill development. Graduates will seek employment in a range of fields, from government agencies to private industry and research.

## Academic Counselling

General information on the degree program is available from the Program Counsellor, Faculty of Environmental Sciences. Advising for each major is available through the assigned faculty advisor responsible for the major. Students are encouraged to seek the advice of the faculty advisors when choosing restricted electives and planning course selections.

## Degree

The degree granted for the successful completion of this honours program will be the Bachelor of Science in Environmental Sciences--B.Sc.(Env.).

## Continuation of Study

Students are advised to consult the regulations for Continuation of Study in Section VIII--Undergraduate Degree Regulations and Procedures of this Calendar.

## Conditions for Graduation

In order to graduate from the B.Sc.(Env.) program, students must successfully complete a minimum of 20.00 credits including all the stated course requirements for the program. As well, students must achieve a cumulative average of $60 \%$ or higher over all course attempts.

## Environmental Sciences (Co-op)

Office of the Associate Dean, Faculty of Environmental Sciences.
A 5-year Honours Program in Environmental Sciences is offered as a Co-operative Education Program. This option is offered within the B.Sc. (Env.) degree and is available to all majors. The program requirements are the same as those listed for the regular B.Sc. (Env.) program, by the Co-operative Education Program and as outlined in the Continuation of Study policy (Section VIII--Undergraduate Degree Regulations \& Procedures).
3 co-op work terms (COOP*1000, COOP*2000, COOP*3000) are required. An optional 4th co-op work term (COOP*4000) is available. COOP*1100 must be completed during semester 2.

| Year | Fall | Winter | Spring |
| :--- | :---: | :---: | :---: |
| 1 | Academic Term 1 | Academic Term 2 | Off |
| 2 | Academic Term 3 | COOP*1000 | Academic Term 4 |
| 3 | COOP*2000 | Academic Term 5 | COOP*3000 |
| 4 | Academic Term 6 | Academic Term 7 | COOP*4000 <br> (Optional) |
| 5 | Academic Term 8 |  |  |

Since some of the program requirements in the degree program (core or major) are not offered each semester, careful planning and program consultation with the Faculty Co-op Advisor is essential. In particular, students are encouraged to seek advice when choosing for their Summer academic semester.

## The Environmental Sciences Program

The degree in Environmental Sciences consists of a minimum of 20.00 credits, as follows:

1. 5.00 First Year Curriculum
2. 5.00 Environmental Sciences Core
3. 7.00 Environmental Sciences Major
4. free electives*

Within these courses, students must include at least 6.00 credits at the 3000 or 4000 level, and no program may include more than 7.00 credits at the 1000 level.

* There are not specific subject requirements for the elective courses, however, you may NOT select the following: BIOL*1500, BOT*1200, CHEM*1100, CIS*1000, GEOL*1100, MATH * 1050, MET*1000, MICR*1010, MICR*1020, MBG*1000, PHYS*1600.

Please note that not all courses in the "One of:" options are available each semester ( F , W, S). Students are encouraged to seek advice from the appropriate advisor when selecting and scheduling courses.

## First Year Curriculum

The first year courses have been selected to provide students with sufficient background and knowledge to enter any one of the Environmental Sciences majors.

## Doctor of Veterinary Medicine (D.V.M.)

## Program Information

The University of Guelph offers the degree program Doctor of Veterinary Medicine (D.V.M.) at the Ontario Veterinary College. The program is offered during the Fall and Winter semesters only and normally requires four years to complete. The college is accredited jointly by the Canadian and American Veterinary Medical Association, and the Royal College of Veterinary Surgeons of Britain. The D.V.M. degree from Guelph is respected by veterinarians throughout the world.
Students entering the D.V.M. Program prior to Fall 2000 should refer to the undergraduate calendar for their year of program entry for appropriate course listings.

## Objectives of the Program

1. The graduates should have the knowledge and skills appropriate to their career orientations and sufficient to allow the pursuit of a variety of careers in veterinary medicine, including graduate studies. They should be able to pass the examinations of all Canadian licensing bodies and must possess a fundamental core of academic veterinary science knowledge and of technical competence.
2. The graduates must be able to solve animal health problems and must have knowledge of the management of domestic animals and the functioning of the various animal industries.
3. The graduates must be able to communicate effectively, whether writing scientific papers or conversing with clients.
4. Through a commitment to continuing education, the graduates must accept the professional responsibility to stay abreast of new developments and to pursue solutions to new problems.
5. The graduates must have a genuine concern for the welfare of all animals. The graduates should be aware of their responsibilities to the profession in terms of ethical and professional conduct and have an understanding of the moral questions facing veterinarians.
6. The graduates must have had the opportunity during their university tenure to develop a range of non-veterinary interests sufficient to equip them to take a responsible role in society.

## Regulations for Licence to Practise

Graduates are eligible to practise in Canada, but the degree in veterinary medicine does not in itself confer the right to practise. For information on matters relative to licence to practise in the various provinces of Canada, students should communicate with the Canadian Veterinary Medical Association, 339 Booth Street, Ottawa, Ontario, Canada K1R 7K1, who will refer them to the appropriate provincial veterinary association.

## Admission to the Veterinary Medicine Program

Complete details on admission requirements and procedures are listed in Section IV--Admission Information.

## Academic Counselling

The Office of the ssociate Dean, Students provides academic counselling and referral to other appropriate resources for all D.V.M. students. In particular, students who are requesting a Supplemental Privilege are required to meet with the Associate Dean so that the student can be informed of appropriate resources (such as Learning and Writing Services and the Counselling and Student Resource Centre) and use them to deal with his or her academic difficulties.

## Conditions for Continuation of Study

For supplemental and deferred privileges, all students in the D.V.M. Program are subject to Deferred Privilege Procedures and Supplemental Privilege Procedures outlined in Chapter VIII--Undergraduate Degree Regulations and Procedures.
For continuation of study, a student must satisfy the conditions presented below. In order to graduate, students must fulfill the course requirements for the program and have achieved at least a $60 \%$ Program Average (PA). The Academic Review Sub-Committee will assess all cases where a student's academic progress does not meet the Continuation of Study requirements and will interpret the academic regulations. The requirements will be applied with due consideration to the credit weights of the course, the role of the course in the Phase and the degree of integration of the course with concurrently required courses, and in light of the student's particular circumstances (see VIII--Undergraduate Degree Regulations and Procedures).

## Full-time Study

The D.V.M. program is offered as a full-time program and normally requires four years (over the equivalent of eight academic semesters at the University of Guelph) to complete. In exceptional extenuating circumstances, the Academic Review Sub-Committee may allow a student to take courses on a part-time basis. In these instances, the Academic Review Sub-Committee has the discretion to select the courses that the student will register in on a part-time basis. Students permitted to take courses on a part-time basis are cautioned that there is an enrolment limitation for the program and that access to certain courses or resumption of the program on a full-time basis will be conditional on the availability of space.

## Failed Courses

1. Continuation of study from one phase of the D.V.M. Program to the next is dependent on the successful completion of all courses, or approved equivalents, in the published schedule of studies for the D.V.M. Program.
2. A student who fails one course in a Phase may be required to repeat all courses in the Phase. The consequences of failure of any particular course in the D.V.M. Program are as follows:
a. Failure in any of the following courses result in the Repeat of the Course: VETM*3000, VETM*3210, VETM*3390, VETM*3430, VETM*3220, VETM*3440, VETM*3480, VETM*3510, VETM*4220, VETM*4450, VETM*4530, VETM*4610, VETM*4620, VETM*4660, VETM*4670, VETM $* 4680$, VETM $* 4710$, VETM $* 4720$, VETM $* 4870$, VETM $* 4880$, VETM*4890, VETM*4900, VETM*4920, VETM*4930, VETM*4940.
b. Failure in any of the following courses result in the Repeat of the Phase: VETM*3070, VETM*3080, VETM*3120, VETM*3400, VETM*3410, VETM*3450, VETM*3460, VETM*3470, VETM*4460, VETM*4470, VETM*4480, VETM*4490, VETM*4540.
This information is also available as part of the Phase Handbooks.
3. A student will be allowed to fail a particular course only once. Any student who fails the same course twice will be required to withdraw and will be ineligible for readmission to the D.V.M. Program.
4. Grades obtained by D.V.M. students who repeat one or more VETM course(s) will be reported on the transcript in addition to the original course grade. In the instance where all courses in a Phase are repeated, the grades from the repeated VETM courses will constitute the new Phase Average (PHA). The new D.V.M. Program Average will include the grades obtained in both the original and repeated VETM course attempts.

## Supplemental Privileges

1. In the circumstances of a failed course, the Academic Review Sub-Committee may, if appropriate and under special circumstances only, allow a student the opportunity to gain credit standing in a failed course by granting a supplemental privilege (see Failed Courses and Supplemental Privilege in Section VIII). Students must request a supplemental privilege by submitting the request to the Academic Review Sub-Committee, and the fee for the privilege, within 7 days of the release of grades for the phase in which the failure occurred. The Academic Review Sub-Committee, upon receiving a request from a student, and after consulting with the instructor and reviewing the student's course performance, will determine whether a supplemental privilege should be granted.
2. Students will be permitted supplemental privileges in a maximum of two courses over the entire D.V.M. Program. A supplemental privilege will not be granted for a second failure in a course. Any student granted a supplemental privilege must meet with the Assistant Dean for Student Affairs who will inform the student of appropriate resources to be used to deal with his/her academic difficulties.

## Conditions for Graduation

In order to qualify for graduation from the D.V.M. program, the student must have completed successfully all of the courses approved for the program. Students will not be allowed to graduate with a PA of $<60 \%$ or PHA of $<60 \%$ in Phase 4 .

## Voluntary Withdrawal from the Program

Students who have voluntarily withdrawn from the D.V.M. program and who wish to return must give notice to the Assistant Dean for Student Affairs, O.V.C., of their intention to return by May 31 if they wish to return in September of the upcoming academic year. Students contemplating a withdrawal from the program are cautioned that there is an enrolment limitation for the program and that re-entry will be conditional on the availability of space. The Program Committee reserves the right to select the quota from among the qualified applicants.

## Estimate of Expenses

Attention is drawn to Section VI--Schedule of Fees for information on tuition, University student organizations and rabies immunization required for all students in the program. In addition, while the college supplies most laboratory equipment, students may wish to purchase instruments for personal use. Texts, protective clothing, and a minimum of supplies for personal use may cost approximately $\$ 500$ per semester.

## Health and Safety

Students must follow the health and safety policies required for the various courses in the veterinary program. Pregnant students and others with increased medical risks should consult Health Services concerning potential health risks which may occur during the normal course of their studies.
Immunization against rabies is a requirement for admission and continuation in the D.V.M. Program. Annual rabies titres and booster immunizations (if necessary) are mandatory for all Program participants. Prospective students and in-course students should contact Student Health Services (519-824-4120 extension 52131) for further information and guidance about the rabies surveillance program. Faculty and staff members should contact

## Occupational Health Services, extension 52133, for information about medical surveillance

 programs provided in accordance with University Safety Policy 851.13.03.
## Schedule 4 (D.V.M. Continuation of Study)

Students admitted to the DVM Program in Fall 2007 or earlier follow Schedule 4 and should consult the appropriate calendar http://www.uoguelph.ca/registrar/calendars/index.cfm?undergraduate.

## Schedule 5 (D.V.M. Continuation of Study)

Students admitted to the DVM in Fall 2008 or beyond follow Schedule 5.
Continuation of Study is assessed on the student's D.V.M. Program Average (not the University Cumulative Average) and according to the policy on failures as stated above. In Phase 2 and beyond, eligibility to continue is also assessed at the end of each Phase using the Phase Average (PHA). Courses that are given a grade of Pass or Fail do not affect either the PA or PHA because they are not attached to any numerical grade.
Students required to repeat a Phase must achieve the required PA of $>60 \%$ by the end of the repeated Phase. If a student does not achieve the required standing by the end of the repeated Phase, he or she will normally be required to withdraw from the program.
The required averages are as follows:
For Course Attempts in Phase I

| Program Average (PA) | Status of Student |
| :--- | :--- |
| $\mathrm{PA}<50 \%$ | Required to Withdraw |
| $\mathrm{PA} \geq 50 \%$ but $<60 \%$ | Required to Repeat Phase |
| $\mathrm{PA} \geq 60 \%$ | Eligible to Continue |

If Repeating Phase 1:

| Program Average (PA) | Status of Student |
| :--- | :--- |
| PA <60\% | Required to Withdraw |
| PA $\geq 60 \%$ | Eligible to Continue |

For Course Attempts in Phase 2

| Program Average (PA) and Phase <br> Average (PHA) | Status of Student |
| :--- | :--- |
| PHA $<50 \%$ | Required to Withdraw |
| PA or PHA $\geq 50 \%$ but $<60 \%$ | Required to Repeat Phase |
| PA and PHA $\geq 60 \%$ | Eligible to Continue |

If Repeating Phase 2:

| Program Average (PA) | Status of Student |
| :--- | :--- |
| PA <60\% | Required to Withdraw |
| $\mathrm{PA} \geq 60 \%$ | Eligible to Continue |

For Course Attempts in Phase 3

| Program Average (PA) and Phase <br> Average (PHA) | Status of Student |
| :--- | :--- |
| PHA $<50 \%$ | Required to Withdraw |
| PA or PHA $\geq 50 \%$ but $<60 \%$ | Required to Repeat Phase* |
| PA and PHA $\geq 60 \%$ | Eligible to Continue |

* Students finishing Phase 3 with a PA or PHA $>50 \%$ but $<60 \%$, will not be permitted to proceed to the Externship course or into Phase 4.
If Repeating Phase 3:

| Program Average (PA) | Status of Student |
| :--- | :--- |
| $\mathrm{PA}<60 \%$ | Required to Withdraw |
| $\mathrm{PA} \geq 60 \%$ | Eligible to Continue |

For Course Attempts in Phase 4

| Program Average (PA) and Phase <br> Average (PHA) | Status of Student |
| :--- | :--- |
| PHA $<50 \%$ | Required to Withdraw |
| PA or PHA $\geq 50 \%$ but $<60 \%$ | Required to Remediate* |
| PA and PHA $\geq 60 \%$ | Eligible to Continue** |

* Students finishing Phase 4 with a PA or PHA $>50 \%$ but $<60 \%$, will not be permitted to graduate. The Academic Review Sub-Committee will establish the appropriate remediation requirements that must be fulfilled in order for the student to obtain the standing of Eligible to Graduate. These may include repeating a component of a course, one or more entire courses, or one or more clinical rotations.
** Students finishing Phase 4 with a PA and PHA $\geq 60 \%$ and having satisfied all course requirements for the program are Eligible to Graduate.

## Co-operative Education Programs

Co-operative Education is an experiential learning process that integrates academic study with paid work experience. Students will participate in a competitive employment process to be engaged in work terms developed and/or approved by Co-operative Education \& Career Services as suitable learning experiences relevant to the students' area of academic study. A graded Co-op Work Term Report and Work Performance Evaluation will be required for each work term and will appear on the student's official transcript. The academic and work schedules will vary with degree program and major.
The first co-op work term is scheduled after the third or fourth academic semester, providing an academic foundation on which to build the work experience. In addition, COOP* 1100 - Introduction to Co-operative Education, a mandatory, non-credit course, is a prerequisite for the first work term.
COOP*1100 is designed to introduce students to the theory and practice of co-operative education at the University of Guelph. Students will acquire practice in the skills required to succeed in the competitive process of securing suitable work terms. Specifically, the course will cover; characteristics and expectations of the "new" world of work, interview skills, resume and cover letter writing.
Students will learn to take full advantage of the co-op option and will obtain practice in the co-op employment process.

## Admission Information

Students are admitted to a Co-operative Education program directly from high school in the Fall semester. Some programs may admit a small number of in-course students after first or second semester. Normally, students must apply before their third academic semester in order to be considered. The decision to admit an in-course student is dependant upon space in the program, the grades of the student, the approved Academic and Work Sequence, and any other information relevant to the program. The On-Campus Co-ordinator is responsible for facilitating all admission processes. Please refer to the schedule of dates in the Undergraduate Calendar for in-course application deadlines.

## Eligibility

High school students must have a minimum average of $80 \%$ to apply to the co-op program. Once accepted to the University of Guelph, the student must maintain a $70 \%$ cumulative average in the first 2 semesters (full-time study) in order to remain in the co-op program. Transfer students must meet normal admission requirements, as well as complete one academic semester at Guelph and achieve a minimum $70 \%$ average prior to participating in the co-op process. An academic and work schedule must also be approved prior to the student being accepted into the co-op program.

## Continuation of Study

Students will be allowed to continue in the co-op program only if their cumulative average, over 4.0 credits, is $70 \%$ or higher after two full-time academic semesters. Students are also required to meet the conditions for continuation of study for their degree program as listed in the Undergraduate Calendar. In addition, all students must satisfactorily complete COOP*1100 before their first employment process.
Co-op students must normally be registered as full-time. Co-op students are also required to meet other conditions, (e.g. satisfactory work term reports and work performance evaluations) in order to continue in the co-op program. Complete conditions for continuation of study for a co-op program are outlined in the Policy Agreement for Student Involvement in Co-operative Education. The complete policy can be viewed at http://www.cecs.uoguelph.ca/home/gen_students.cfm.

## Release of Academic Information

By applying to the Co-op program, students grant permission to the Registrar's Office to release to Co-operative Education \& Career Services their University of Guelph transcript and any transcript from other post-secondary institutions that may be part of the Academic Record held by the Registrar's Office. Students also grant permission to Co-operative Education \& Career Services to release their resumes, cover letters and any transcripts released by the Registrar's Office to prospective employers to whom the students are applying. Employment information, the Co-op Work Term Performance Evaluation, and the Co-op Work Term Report Evaluation will appear on the academic transcripts

## Procedures for Work Semester Reports

A Work Report is required for each co-op Work Term in which the student is registered. Work Reports are graded by the Co-op Faculty Advisor and must be submitted to the Co-op Faculty Advisor according to the deadline indicated in the Undergraduate Calendar. Students completing two consecutive co-op Work Terms with the same employer should consult with their Co-op Faculty Advisor regarding Co-op Work Report requirements for eight-month co-op Work Terms. A grade of Outstanding, Very Good, Good, Satisfactory, or Unsatisfactory will appear on the student's Academic Record.
A student who receives an Unsatisfactory Co-op Work Report Evaluation will be given an opportunity to make revisions and resubmit the report. Students who are resubmitting a Co-op Work Report will not be eligible to proceed to the next employment process until receiving a grade of Satisfactory or higher. If, upon resubmission, the Work Report Evaluation is still unsatisfactory, the student will be required to withdraw from Co-op and may continue in the regular program if available.

Confidential Work Term Reports are not permitted.

## Conditions for Graduation

In order to graduate, co-op students must follow the conditions for graduation for their degree program as outlined in the Undergraduate Calendar. In addition, students must receive evaluations of Good or higher in all but one Work Performance Evaluations and an evaluation of Satisfactory or higher in all Work Report Evaluations.
Students wanting to graduate with less than the required number of Work Terms must contact their Co-op Co-ordinator with the request. The Canadian Association for Co-operative Education (CAFCE) guidelines regarding Work Terms will be followed at all times.

## Co-op Fees

Students in Co-op are required to pay a co-op fee each semester (see Section VI--Schedule of Fees). Students who enter Co-op in-course will have an altered payment schedule to be discussed upon admission. There is no application fee.

## Schedule of Studies

Students entering the Co-op program are advised to review carefully the academic semester/work semester sequence as set out in the schedule of studies for the degree programs and specialization offered under Co-operative Education. Normally students must follow the sequence as scheduled. If, under exceptional circumstances, the schedule cannot be followed, the student must obtain written approval of an alternative work and academic semester sequence from the Co-op Coordinator and Co-op Faculty Advisor. In unusual circumstances the Director of Co-operative Education and Career Services may be involved in the approval process.
