Part A: The *Best in Science* Program

1. **Background**

   There is a broad community of personnel in Ontario involved in advanced environmental research. This research community includes scientists and engineers in the Ontario Ministry of the Environment and Climate Change ("Ministry"), across the Ontario Public Service and at other levels of government, and in universities, research networks and the private sector. This community’s work is critical in promoting a clear understanding of traditional and emerging environmental issues, generating reliable information that can be drawn upon by the Ministry to help secure a healthier environment.

2. **Best in Science Research Grants**

   The Ministry established the Best in Science Program (the “Program”) to support the research endeavors of those in the broader scientific community who have common interests in environmental science. One of the priorities of the Program is to provide transfer payment (grant) funding in support of research that addresses Ontario’s current environmental priorities and anticipates the province’s future environmental research needs.

   The Program supports research that achieves the following objectives:

   - encourages and promotes scientific research;
   - invests in science that fosters best practices, develops innovative approaches to expand environmental protection tools, and supports environmental leadership in Ontario’s scientific research communities; and
   - supports scientific collaboration and knowledge transfer that proactively contributes to healthier communities and ecosystems.

   Successful applicants may receive funding of up to $100,000.00 per project, for projects of up to three years duration. Proposals for collaborative, co-funded endeavours between researchers, practitioners and end users are particularly encouraged. The extent of collaboration and co-funding will have a bearing on the evaluation of a proposal.

   **Applicants must be affiliated with an existing legal entity that is (i) an academic institution (i.e., a university or a college of applied arts and technology), (ii) a research network, or (iii) a public or non-profit research institute.**

   Please note that Ontario Public Service employees including Ministry staff cannot be directly involved in projects funded by transfer payments (grants), i.e. the relationship with the Recipient must be at arms’ length.
3. **Best in Science Research Priorities for 2016-17**

The Program will consider funding research projects that address any of the following priorities listed in Table 1 below.

Table 1 – Best in Science Research Priorities for Fiscal Year 2016-17

Part B: Program Details

1. Terms of Reference

The following provisions apply to this application process for Best in Science funds:

(i) This application process is not intended to create a formal legally-binding procurement process and shall not give rise to the legal rights or duties applied to a formal legally-binding procurement process

(ii) The Ministry reserves the right to seek clarification and supplementary information from applicants. The response received by the Ministry from an applicant could become an integral part of the applicant’s submission

(iii) At the conclusion of the process, selected applicants will be expected to enter into a transfer payment (grant) funding agreement with the Ministry (see “Transfer Payment Agreement”, below)

(iv) Neither party shall have the right to make claims against the other with respect to this application process, the selection of any applicant, the failure to be selected to enter into a transfer payment agreement, or the failure to honour applications prior to the execution of such an agreement

(v) The Ministry may make public the names, addresses, telephone numbers, e-mail addresses, website addresses, project description and funding amount, if applicable, of any or all successful applicants

(vi) The Ministry will only enter into an agreement with an existing legal entity that is an (i) academic institution, i.e. a university or a college of applied arts and technology; (ii) research network; or (iii) public or non-profit research institute. The Ministry may request proof of legal status from the applicant

(vii) The applicant consents to the Ministry’s collection of the information as contemplated under the Guide for the uses contemplated under the Guide

(viii) Applicants will bear their own costs associated with or incurred through this application process, including any cost arising out of or incurred in: a) the preparation and completion of an application/submission; or b) the conduct of negotiations or other activities related to this application process

(ix) The Ministry will not consider an applicant whose application is found to contain misrepresentations or any other inaccurate or misleading information; and

(x) The applicant agrees to all of the terms of the application process set out in the Guide.
2. Transfer Payment Agreement

If selected, the applicant will be required to sign the Ministry’s Transfer Payment Agreement ("Agreement"). A sample Agreement is included as an Appendix. Applicants should review the general provisions of the Agreement, noting in particular the provisions regarding insurance, Open Data and the requirements of the *Freedom of Information and Protection of Privacy Act* (FIPPA).

The Agreement will be executed subject to the Terms of Reference above. Failure to execute the Agreement will result in the withdrawal of the offer of funding.

3. Payment Schedule

Funds will be delivered in a minimum of three instalments, typically according to the following schedule:

- Upon execution of the agreement or commencement of the project;
- Upon reaching satisfactory project milestone(s) approved by the Ministry subsequent to the submission of and completion of approved interim report(s);
- Upon submission and approval of a final report.

The 2nd and 3rd funding instalments will be contingent upon (i) Ministry approval of reports outlining project progress, meeting the project timelines and meeting the objectives of the proposal and (ii) the Ministry being able to secure a requisite appropriation from the Legislature. Details will be included in the transfer payment agreement.

4. Reporting

Selected applicants must submit annual interim progress reports describing the work completed and milestones achieved, as well as financial progress reports. A detailed final report, including an executive summary and financial report, is required within thirty days of the project’s completion date. Please note that overdue and/or incomplete reports may negatively impact the likelihood of obtaining future grant funding opportunities with the Ministry.
Part C: Application Evaluation Criteria

Applications will be evaluated according to the following rated criteria:

1. **Breadth of relevance to Ontario’s current or future environmental needs (25%)**
   This is with reference to Table 1, Best in Science Research Priorities for 2016-17

2. **Scientific quality of the proposed research (40%)**
   - *Objectives* – is the proposed approach sound and feasible? Are the objectives clear, specific, well-focused, and realistic?
   - *Definition* – Are the hypotheses testable? Do the short-term objectives lead logically to an overall goal? Is the problem adequately defined within the context of current knowledge?
   - *Originality* – Is the proposed project a new contribution to the field? Does the proposal suggest/explore unique, innovative or ingenious concepts or applications?
   - *Methodology* – Are proposed methods clear, appropriate and current? What is the feasibility of completion within the time frame proposed?

3. **Qualifications and experience of the research team (10%)**
   Research teams must clearly demonstrate a breadth of multidisciplinary and institutional scope and expertise necessary to effectively achieve their proposed project outcomes.
   The project research team must have the required skills and expertise to successfully perform the proposed research. The research team will be assessed on the basis of:
   - *Integrity and credentials*
   - *Complementary expertise*
   - *Scientific excellence at the national and international level*
   - *Previous successful, relevant research*

   Please note that for transfer payment funded projects Ontario Public Service (OPS) employees must maintain an arm’s length relationship with recipients, and as such cannot be members of the research team. If OPS staff are listed as members of the proposed research team, the application may be disqualified.

4. **Project management measures (10%)**
   Proposals must clearly outline that necessary structures and processes are in place to ensure effective management of the allocated funds:
   - *Milestones* – appropriate, clearly set-out and defined
   - *Timelines* – realistic, appropriate
Risk Assessment and Mitigation Strategies – must identify anticipated obstacles that might limit the progress of the project, as well as mechanisms in place to address and resolve these problems (i.e. mitigation strategies)

5. Financial information (10%)
   
   Extent of Collaborations
   • other sources of funding for the research project
   • extent of leveraged resources (note that in the evaluation, in-kind support from OPS sources will not be considered as a portion of leveraged resources)

   Cost details/Value for money
   • clear, appropriate, justified, valued appropriately
   • linkages made to milestones

Applicants may request up to $100,000.00 (Canadian dollars) per project over a maximum duration of three years. Requests for funding over this amount will result in the disqualification of the project. Charges for administration expenses and administrative staff will be accepted up to a maximum of 20% of the total amount requested for the research project.

6. Communications Plan (5%)

Proposals must include a communications plan outlining how research results will be disseminated to the broader scientific community. There must be at least one guaranteed method of public communication of project results prior to the expiry of the agreement and submission of a final report. Approved applicants should present their results at conferences or for publication in peer reviewed journals within one year of project completion.

The Ministry will endeavor to support a balance of projects across the broad research priority categories identified in Table 1.
Part D: Application Form Guidance

1. Application Format and Content
The application and budget forms must be submitted as separate documents. Links to website content and other external materials referred to in the application and budget forms will not be considered as part of the application and are not acceptable substitutes for providing the required information within or along with the forms.

2. Project Contacts
The review, approval and agreement finalization process may be lengthy and require the provision of technical and/or administrative information on short notice. Therefore, it is important to have both a primary and secondary contact. The primary contact should be the Principal Investigator and the Secondary Contact should be in the organization’s Office of Research or other administration office as appropriate.

3. Proposed Project Start and Completion Dates
The maximum duration of the project is three years (36 months).

4. Budget Summary
Provide the amount of transfer payment funding sought from the Program, the estimated overall budget for the proposed project including funding from all sources, and the estimated value of in-kind support to be provided from all sources.

5. Project Summary
Set out the project objectives and what the project will ultimately achieve. Show how the proposed project will address one or more of the research priorities given in Table 1 of this Application Guide. Provide a description of the proposed project, including the expected benefits and results of the project. If the proposed work will be part of a larger project, explain how it fits into the larger project.

6. Research Methodology
Provide a clear rationale for the project design and methodology. Describe the methodology of the proposed project and how it will produce the identified outcomes. If the project includes a number of components, describe how the components relate to each other and the overall goals, and how the component teams and results will be integrated.

7. Project Milestones
Provide a description of the project’s major milestones. Indicate when milestones are expected to be completed. For each milestone, provide a breakdown of sub-activities. Ensure the communication plan and the interim and final reports are listed. Overall, this should explain how
the applicant intends to carry out each milestone. There should be sufficient detail in the sub-activities that an application reviewer should not have further questions.

8. Risks and Mitigation Measures
Identify any risks that could significantly impact the delivery of the project and describe any measures planned to mitigate the potential impact, as per the example below:

<table>
<thead>
<tr>
<th>Risk</th>
<th>Mitigation Measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delayed Sampling</td>
<td>To mitigate the impact, sampling data from the previous year can be obtained through in-kind support from Institution A which may be analyzed in order to complete the project on time.</td>
</tr>
</tbody>
</table>

9. Research Team Members
List all key participants involved in the delivery of the project along with their roles and responsibilities. State whether the position is part of the applicant’s or institution’s staff or contracted professional services. Highlight any individuals or entities that are critical to the delivery of the project with an asterisk (*) indicating that if the individual or entity withdraws from participating it would severely impact the delivery of the project. For any individuals or entities listed as critical, a letter must be included from each confirming their commitment to participate in the project or the Ministry will assume no commitment has been made.

Please note that for transfer payment funded projects Ontario Public Service (OPS) employees must maintain an arms’ length relationship with recipients, and as such cannot be members of the research team. If OPS staff are listed as members of the proposed research team, the application may be disqualified.

10. Additional Project Partners
Identify any organizations and individuals that are involved in the delivery of the project, and the nature of their involvement, except for those identified as Research Team Members in section 10 of the Application Form. If OPS in-kind support is requested, it must be identified and justified. Note that the Ministry may deny such support if it determines it to be inappropriate. For clarification as to whether or not a particular type of OPS in-kind support is appropriate, please contact BestInScience@ontario.ca in advance of the application deadline.

11. Communication Plan
The Ministry awards Best in Science grants to support research for the greater public good. The applicant’s research proposal must include a communication plan that outlines how research results will be communicated to the broader scientific community and the public. Indicate methods of disseminating research results, including reports, conference posters/presentations,
website postings and submissions to peer reviewed journals. Please be specific and include a brief description. There must be at least one guaranteed method of public communication of project results prior to the expiry of the agreement.
Part E: Budget Form Guidance

General Information

1. Applicants may seek funding up to $100,000.00 per project, for a maximum of three years (36 months)
2. The proposal must contain a full project budget using the form provided
3. Administration and administrative staff expenses will be accepted up to a maximum of 20% of the total amount requested from the Program for the research project. Projects with lower administrative expenses may be given preference when the proposals are evaluated
4. When requesting funding for any budget line item, the item must be directly related to a planned milestone or deliverable
5. Funding may only be requested for eligible expenses. See “Eligible Expenses” below for more details
6. Applicants are encouraged to apply for additional funding (co-funding) from other sources
7. Applicants must ensure that there is no duplication of funding for any aspect of the project
8. Applicants whose projects are approved for funding are responsible to ensure that sufficient funding is secured to complete the project. If a project exceeds the approved budget, the selected applicant must raise any additional funding needed from other sources to bring the project to completion. Additional funding will not be available for project completion from the Ministry through this Program
9. There is no guarantee that applicants will receive the full amount of funding requested.

Costs to Include in the Budget

1. Costs are to be counted from the project start date to the project end date given in section 3 of the Application Form.
2. Costs are to be set out for the project as a whole, not only for the items potentially funded by the Program.
Completing the Budget Form

List all eligible expenses, under the categories Staff, Goods, Services, Consultants, Travel and Hospitality, Equipment / Capital Item Rental and Other. The Program will not provide funding for costs already covered by other sources (either in-kind or monetary).

Identify all contributions to your project from other sources, if applicable. In-kind support refers to goods or services that the applicant or others will contribute at no cost. Applicants are required to provide the estimated cash value of in-kind contributions, where possible.

The total project budget includes proposed costs to be funded by the Best in Science grant, in kind contributions and confirmed or anticipated funds from other sources.

For selected applications, if the applicant has requested funding for ineligible costs, the applicant will still be required to carry out all project activities even though the Ministry has denied funding for those ineligible costs. Please contact the Ministry if you are unsure about the eligibility of the budget items.
Part F: Evaluation and Selection Process

Applications will be evaluated in a two-step process:

- Completeness screening and mandatory requirements
- Technical review

If an application passes the initial screening, it will then be forwarded for technical review to determine the merits and feasibility of the project in accordance with the evaluation criteria (Part C).

If an application does not pass the completeness screening and mandatory requirements, the applicant will be advised by the Ministry that the application has not been forwarded for a technical review and will no longer be considered for funding.

Based on the score out of 100 for the technical review, the application will be given a ranking to determine priority for funding approval.

Applicants will be informed in writing if their applications have or have not been approved for funding.
Part G: Application Submission

1. Document Checklist
Please ensure that you have included all the required documentation in your application package: Application Form, Budget Form and Commitment Letters. Incomplete applications will not be considered.

2. Application Format
Applicants are required to use the application and budget forms provided.

3. Submission
Please send the required documents by e-mail as attachments to BestInScience@ontario.ca by 11:59 pm Sunday November 13, 2016. The Ministry will only accept electronically completed application forms that are duly executed by the appropriate representatives of the Applicant.

The Ministry will not accept any materials submitted after the deadline.

If you have not received a submission acknowledgement by e-mail within three working days of the application deadline, we recommend that you e-mail BestInScience@ontario.ca to verify that your proposal has been received.
