##### 1a. Edited Books

- i) *The Broadview Anthology of Social and Political Thought, Volume Two: The Twentieth Century and Beyond*, ed. Andrew Bailey, Samantha Brenna, Will Kymlicka, Jacob Levy, Alex Sager and Clark Wolf. Peterborough, ON: Broadview Press, October 2008. 900 pages. [This is a comprehensive edited anthology of social and political philosophy, with a substantial rubric accompanying many of the selections. The most substantial introductory essays in the volume were modified, by Bailey, from *First Philosophy*; one new introductory essay was also written by Bailey; on de Beauvoir.]
- ii) *The Broadview Anthology of Social and Political Thought, Volume One: From Plato to Nietzsche*,

ed. Andrew Bailey, Samantha Brenna, Will Kymlicka, Jacob Levy, Alex Sager and Clark Wolf. Peterborough, ON: Broadview Press, July 2008. 1110 pages. [This is a comprehensive edited anthology of social and political philosophy, with a substantial rubric accompanying many of the selections. The most substantial introductory essays in the volume were modified (sometimes extensively), by Bailey, from *First Philosophy*; four new introductory essays were also written by Bailey; on Augustine, Machiavelli, Rousseau and Wollstonecraft.]

- iii) *First Philosophy: Fundamental Readings and Problems in Philosophy*, ed. Andrew Bailey. Peterborough, ON: Broadview Press, 2002. 966 pages. [This is an edited anthology of classic pieces of philosophy, with a substantial rubric written by the editor (roughly 1/5 of the total page count, or 200 pages).]

In July 2004 Broadview Press issued a three-volume edition of *First Philosophy: Volume I: Values and Society* (315 pages); *Volume II: Knowledge and Reality* (295 pages); and *Volume III: God, Mind, and Freedom* (373 pages). Each of these volumes contains one additional selection, and some of the editorial material had to be reworked for the new format.

In March 2006 Broadview Press issued a concise edition of *First Philosophy* (593 pages), together with a companion website. I wrote additional material (roughly ten new pages) for three readings for this edition. The other editions continue to be available as well.

In April 2011 Broadview Press issued a second edition of *First Philosophy* (970 pages), a second edition of the three-volume edition, and a companion website. This edition includes a dozen new readings, with new introductions and notes, and appendices of philosophical puzzles and terms. I co-wrote this additional material with Prof. Robert Martin, professor emeritus of Dalhousie University.
