

**Tentative outline of Final
(Math*1030)**

The exam is fully multiple choice (no written component) and cumulative. My intention (it could change) is to give 20 questions from the material in Chapters 2 – 7, and 20 questions from the material in Chapters 8 – 12.

Notes:

- Each question has 5 possible answers.
- No notes or books are allowed.
- Scientific and/or graphing calculators are allowed.
- The test is 2 hours long and comprises 40% of your final grade.
