Histology Testing (Description):

Histology biopsy 1-2 test code: histcm1

For submissions with 1-2 biopsies (<6 cm) or tissues, OR multiple (6 or fewer in total) punch or trucut biopsies from 1-2 sites, OR endoscopic biopsies from 1-2 sites. Formalin-fixed tissue.

Histology biopsy 3-6 test code: histcm2

For submissions with 3-6 biopsies (< 6cm) or tissues, OR endoscopic biopsies from 3-4 sites, OR 1 biopsy 6-10 cm. For cases with multiple (6 or fewer) punch or trucut biopsies, use 'Histopathology, companion, 1-2'.

Histology biopsy >7 test code: histcm3

For submissions with 7 or more biopsies or tissues, OR biopsies or tissues > 10 cm diameter, e.g., spleen, brain, mammary chain, heart.

For all histology submissions:

1. Additional charges (per 15 min) may apply for the pathologist to sample large or complex specimens (e.g. amputated limbs, joints, heart, spleen, lungs) submitted for diagnostic testing.
2. Please specify if margin evaluation is required, as additional charges will apply for biopsies >2 cm (see test histt).
3. Additional charges will apply for biopsies requiring decalcification and / or nail softening, such as digit amputations and bone biopsies (see tests histdc and histns).

Decalcification: test code histdc

Histopathology, tumor margin evaluation: test code: histt

Extra charges apply in addition to regular histopathology charge. For tumor excisional biopsies >2 cm diameter. Includes preparation of 4 radial sections. Please request margin evaluation at time of sample submission.

Specimen sampling, pathologist / 15 min test code: necrm

For Histology test prices please register for the AHL Fee Guide on the AHL website at the link:
