

The University of Guelph, Laboratory Services, Animal Health Laboratory (AHL) and Agriculture and Food Laboratory (AFL), offer a wide range of microbiological and chemical testing services.

We are also a licensed laboratory under the Ontario Safe Drinking Water Act (OSDWA) for microbiological testing. As part of our licensing agreement, **we are legally required to determine if water samples submitted fall under the requirements of the OSDWA.**

Please complete the following the form and return by fax (519-827-0961) or email (ahlinfo@uoguelph.ca) prior to submitting water samples to our laboratory. If you have any questions, please contact us at 519-824-4120 ext. 54530.

- Is the purpose of your water test request to assess the quality of water for human consumption?
- ☐ Yes. The purpose of the test request is to assess the quality of water for human consumption.
- ☐ No. Assessing the quality of water for human consumption is not the purpose of the test request.
