**CALENDAR DESCRIPTION:**

This course is an introduction to the techniques of the traditional printmaking media of lithography and silkscreen.

**Prerequisite(s):** ARTH\*1220, ARTH\*1520, SART\*1050, SART\*1060; (ARTH\*1220 and SART\*1060 can be taken as co-requisites)

**COURSE DESCRIPTION**

This course is an introduction to the techniques of lithography and silkscreen. Using these media, students will continue to develop their relationship to contemporary art practices as well as the relationship between material and content in their own practices.

**NOTE:** *This is a 0.5 credit course. Each week, students are expected to spend approximately 4 – 6 hours outside of class on related course work.*

**LEARNING OUTCOMES**

Students who successfully complete this course will be able to:

- show the basic technical knowledge of the media and shop procedures to complete print work.
- manipulate elements and composition to develop imagery as it relates to the media.
- conceptualize and choose appropriate processes in response to visual challenges.
- begin to position their work contextually in relation to historical and contemporary visual theory and practice as it relates to printmaking
- follow health and safety procedures relevant to the equipment, materials and tools used in the studio environment.

**COURSE CONTENT**

With a series of four projects, two in lithography and two in silkscreen, students will develop sound technical skills in both media. They will also be expected to develop their critical and conceptual engagement with their own work and the work of their colleagues. Students will be encouraged to engage with issues pertinent to contemporary practice and relate these problems to

their own concerns. Course content will be promoted through lectures, workshops, assigned readings, class discussions, presentations/essays (students may choose either one) and critiques of projects.

### **COURSE REQUIREMENTS**

This course will consist of a series of hands on demonstrations centered on lithography and silkscreen processes. The time that these demonstrations take place will be variable, so students must make every effort to arrive on time & remain for the entire class. It is imperative that students observe and take notes during demonstrations. Handouts will be given to students to aid in step-by-step procedures but they are not a substitute for watching demonstrations. Students must attend every demonstration in order to be able to work with the equipment in the print studio. If a student fails to attend any demonstration for any reason, they must reschedule a demonstration with either the technician or instructor before they will be permitted to proceed. The rescheduled demonstration will be at the convenience of the technician or instructor. Failure to follow this procedure may impede a student's ability to complete assignments and ultimately, the course.

Students are expected to develop technical and critical facility. Technical facility in this course means planning, executing, and disseminating a printed work, beginning to end. Critical facility means understanding the historical, social, and theoretical context of both the medium and your own projects.

In addition to the studio work, reading and writing are an integral part of the contemporary art making process. Students will read several texts addressing a range of issues relevant to the contemporary print artist. The instructor will give basic, fifteen to twenty-minute corresponding lectures.

**METHOD OF EVALUATION:**

<b><u>Assignment</u></b>	<b><u>Weight</u></b>
Litho Project #1 (crayon drawing) .....	20%
Litho Project #2 (tushe wash) .....	20%
Silkscreen Project # 1 .....	20%
Silkscreen Project # 2 (print exchange).....	20%
Reading / Precis.....	10%
Participation.....	10%

*Please note:* Students are expected to spend significant time outside of the scheduled class slot, working on class projects in the printmaking studio.

**Critiques:**

Work in progress will be discussed in an informal individual basis during class time. Finished projects will be presented for class critiques. Students are expected to present their work in a professional manner. Incomplete work is not acceptable at the scheduled critiques. Students must attend class critiques and discussions, and must actively participate in their own, and in their colleague’s critiques.

**Grading Criteria for assignments**

Students must complete all assignments. Assignment grading will reflect individual progress and specifically:

- Student’s success in accordance with general class objectives and assignment objectives.
- Completion and quality (i.e. workmanship and resolution) of projects.
- Understanding of project concepts and the ability to express that understanding.
- Degree of inventiveness and ambition of projects.
- Participation and commitment to all class activities.

Work will be handed in regularly for marking; due dates will be stated in class and on the syllabus for each assignment and are subject to change. Each assignment will be given a numerical grade and a verbal critique. Evaluations regarding individual student’s progress will take place on an ongoing basis. Projects that are submitted late or unfinished (without acceptable documentation) will reflect this in the grade evaluation.

1 PRINT FROM EACH EDITION MAY BE SELECTED AS A SHOP PROOF FOR THE PRINT STUDENT COLLECTION RESOURCES.

\*Please submit all work, trial proofs, and finished editions for project evaluations and grading. Students must print all of their own work.

**SHOP SAFETY & RULES**

Safety in the studio is a priority at all times. In order to ensure the safety of all, safety procedures/guidelines provided by the instructor and/or the technician must be followed. It is your responsibility to attend any safety orientation that is provided. It is imperative that students follow all health and safety procedures and always use the appropriate safety equipment. If you are unsure of the proper use or maintenance of equipment, or if you note any faults in the

functioning of the equipment, check with the studio technician or an instructor. Always report unsafe studio use or unsafe studio equipment to an instructor, the technician or monitor.

Please have respect for the shared studio workspace. It is important that each student thoroughly clean up the work area they have used, and assist in keeping the studio a clean, safe and efficient workspace.

**REMEMBER:**

- NO SMOKING IN THE STUDIO AT ANY TIME
- NO EATING IN THE STUDIO AT ANY TIME
- Do not use any power tools, equipment, chemicals, etc. which you have not familiar.
- Do not pour solvents, acids, paint, grounds, etc. down the sink
- Use only odourless solvents. Store all solvents in closed containers, clearly labeled, in the fireproof cabinet provided.
- Familiarize yourself with safety information provided in Health Hazards Manual for artists.

**OTHER RESOURCES**

The Print Study Collection is available for students to familiarize themselves with traditional and contemporary approaches to printmaking. This collection of old master and modern prints is a resource that enables the student to gain a first hand appreciation of prints.

Students are also expected and encouraged to visit art galleries and see as many exhibitions as possible. The University of Guelph has an extensive collection of periodicals, catalogues and texts, and students are encouraged to use this resource as well.

**Accessibility**

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact the Centre for Students with Disabilities (soon to be re-named Student Accessibility Services) as soon as possible.
