#### Course Outline

This course aims to develop a range of academic and professional skills. The course is divided into four sections.

- Grants: skills for successful grant and fellowship applications; SSHRC and OGS fellowships; public communication of research.
- Teaching: skills for running effective tutorials and classes; fostering inclusive and respectful teaching environments; teaching your own course.
- Research: conference participation; research programs; journal publication; thesis proposals; oral qualifying exams.
- Careers: career strategies; professional career development; academic careers; non-academic careers; preparing for the job market.

#### Texts and Course Materials

- In-class handouts.
- Online materials at <http://courselink.uoguelph.ca>. You are responsible for accessing CourseLink regularly. Some course materials and grading comments may only be available on CourseLink.

#### Course Requirements

This course is pass/fail. The requirements to pass the course are:

1. Attendance at all course meetings. If you are unable to attend a class, you must have a valid reason and contact me in advance for permission. Students who miss more than two classes without permission will not pass.
2. Completion of all written work on time and to a satisfactory standard. Students who fail to hand in two or more assignments on time will not pass.
3. Completion of your fair share of in-class presentations. Sign up early for presentation opportunities. Students who do not do a fair share of in-class presentations will not pass.

#### Additional support

Students with special needs or requiring additional support are encouraged to speak with me as early in the term as possible to ensure that appropriate arrangements are made.
