Daniel Gillis

Join us for a public talk:

Reflections on the Big Land

Dr. Gillis is an Associate Professor & Statistician in the School of Computer Science and Director of the Physical & Engineering Education Research Centre in the College of Physical & Engineering Sciences at the University of Guelph. He is co-founder of *Farm To Fork,* co-creator of *Ideas Congress* (ICON), and co-founder of *GuelphHacks*. Dr. Gillis was awarded the School of Computer Science Professor of the Year Award in 2013, named as one of Guelph's 40 Under 40 in 2014, and awarded the University of Guelph Faculty Association Distinguished Professor Award for Excellence in Teaching in 2015. In 2017 he was awarded the Gordon Nixon Leadership Award, and the Winegard Exemplary Volunteer Award. Most recently, he has been nominated for the Partners in Research National Award. Currently he is working with the Inuit community of Rigolet, Nunatsiavut to develop a community-led program (eNuk) in response to climate change while also addressing the digital divide through application of wireless mobile mesh networks.

UNIVERSITY of GUELPH

IMPROVE LIFE.
