An overview of the visual arts in Canada from the earliest times to the present, with emphasis on the diverse contributions made by the First Nations, by French and British colonization, and by subsequent settlers from a great variety of different cultural origins.

Prerequisite(s): 1 of ARTH*1220, ARTH*1510, ARTH*1520

COURSE DESCRIPTION:
Organized chronologically and thematically, this course examines the earliest art, artists, and art institutions of New France and British North America, followed by an exploration of national identity, race, wilderness, and colonial expansion, and deeper critical examinations, in recent times, of what “Canadian art” means especially in a global art community. This course investigates the visual arts in Canada, from early examples of First Nations’ art and material culture, to the establishment of the French and English colonies, and ending with survey of diverse branches of contemporary art and the place of Canada in an international context.

LEARNING OUTCOMES:
By the end of this course, students will have developed an understanding of the history of Canadian art and the representation of Canadian identity through a variety of artistic mediums and modes of thinking. Through readings, discussions, and assignments, students will also acquire critical thinking and writing skills. These skills will be developed and demonstrated by discussing the form, content, and context of Canadian art and its histories, and by analyzing the role of art institutions, art history writing, and the art marketplace in the construction of Canadian identity.

Additional required and supplemental readings will be available online and on Courselink. A list of books will be available at the library on the reserve shelf.
