Learning Outcomes

Course Learning Outcomes

By the end of this course, you should be able to:

1. Describe the nature of religious belief and differentiate between religious tenets and religion as a lived experience;
2. Explain the development of social contexts and religious doctrines, as seen through the three main course themes of disintegration, church and state, and the other;
3. Assess how religion is integrated into western societies, and those societies that have become dominated by the West, and articulate how religion impacts the daily lives of past and present North Americans; and
4. Demonstrate an understanding of historical development by evaluating the strengths and limitations of the main course themes' ability to delineate the complex nature of the relationship between religion and society.

Teaching and Learning Activities

Method of Learning

A key outcome of the course is for you to understand religion not merely as a set of precepts but also as an evolving **lived experience**. To reinforce this concept of religion as **experience**, the pedagogical framework of the course will be grounded in experiential learning, where what you learn is informed by the transformational processes of action and experience.

In particular, given the asynchronous nature of the course, you will focus on developing experience through meaningful discussion and reflection. This experiential learning approach will foster a deeper sense of how religion has impacted the lives of individuals throughout North America's early modern history, as well as how it continues to impact individuals – including you – today.

There are six units in the course (2 weeks per unit), and each unit will focus on a general period of time from 1500 to the present, with some exceptions as past and future connections are made between pivotal events.

Assessment Descriptions

Discussions

An important part of your learning in this course will come from your participation on course discussion forums. This means that you are responsible for managing your own learning **and** you are also responsible for supporting your peer's learning as well. **It is important that you stay on top of course discussion and participate as fully as possible.** There will be four required discussions as a part of this course.

Group Photo Essay

For this assignment, students will work in groups of six to eight (6-8) to construct a **photo essay**. Each student will be responsible for contributing one section to the essay. The group as a whole is responsible for the overall **narrative** of the final product. Each contribution includes capturing images of religious significance, as well as providing an explanation of the images.

Note: These groups are separate from the Discussion groups. The instructor will form the groups after enrollment finishes.

Essay Proposal & Major Essay

The essay proposal will consist of a paragraph stating what you intend to write about, accompanied by four annotated scholarly sources you will use to help write your essay which should be 1400 to 1800 words in length. The proposal paragraph should contain in one sentence a thesis, or theme. You can restrict your thesis, or your theme to one place, or expand it to include more than one. It needs to cover more than a single point in time, as History as a discipline requires an understanding of the nature of change. After the proposal, you can start writing your essay, but you will need to include at least one more source.

Take Home Final Exam

This course requires you to submit a take-home final exam to the **Dropbox** tool in CourseLink. The final examination will consist of three essay questions. One will be a common question all students must answer. The other two will be chosen from a list of

five questions. Select **Content** on the navbar to locate **Assessments** in the table of contents panel to review further details of the final exam.

Last Day to Drop Course

The final day to drop F25 courses without academic penalty is the last day of classes: November 28.

After this date, a mark will be recorded, whether course work is completed or not (a zero is assigned for missed tests/assignments). This mark will show on the student's transcript and will be calculated into their average.

Use of Artificial Intelligence

The use of artificial intelligence (AI) in this course must align with academic integrity principles. Students are expected to complete their work independently and showcase their problem-solving abilities. Undeclared and/or unauthorized use of AI tools to produce coursework is considered a form of academic misconduct. Any misuse of AI tools, including submitting AI-generated work, may be considered academic misconduct. For specific guidelines on acceptable AI use in your course, please check with your instructor.

Review the [University of Guelph's Statement on Artificial Intelligence Systems, ChatGPT, and Academic Integrity](https://news.uoguelph.ca/2023/03/university-of-guelph-statement-on-artificial-intelligence-systems-chatgpt-academic-integrity/) for more information.

Course Grading Policies

Extension Considerations

Extensions will be considered for medical reasons or other extenuating circumstances. If you require an extension, discuss this with the instructor as soon as possible and well before the due date. Barring exceptional circumstances, extensions will not be granted once the due date has passed. These rules are not designed to be arbitrary, nor are they inflexible. They are designed to keep you organized, to ensure that all students have the same amount of time to work on assignments, and to help return marked materials to you in the shortest possible time.

Late Assignments

If you choose to submit your individual assignments to the **Dropbox** tool late, the full allocated mark will be reduced by 5% per day after the deadline for the submission of the assignment to a limit of six days at which time access to the **Dropbox** folder will be closed.

Obtaining Grades and Feedback

Unofficial assessment marks will be available in the **Grades** tool of the course website.

Your instructor will have grades posted online within 2 weeks of the submission deadline, if the assignment was submitted on time. Once your assignments are marked you can view your grades on the course website by selecting **Grades** from the **Tools** dropdown menu on the navbar. Your course will remain open to you for seven days following the last day of the final exam period.

Final grades will be available at the end of the semester. Students can access their final grade by logging into [WebAdvisor](#) (using your U of G central ID).

Open Learning program students should log in to the [Student Portal](#) to view their final grade (using the same username and password you have been using for your courses).

Submission of Assignments to Dropbox

All assignments for this course should be submitted electronically via the online **Dropbox** tool. When submitting your assignments using the **Dropbox** tool, do not leave the page until your assignment has successfully uploaded. To verify that your submission was complete, you can view the submission history immediately after the upload to see which files uploaded successfully. The system will also email you a receipt. Save this email receipt as proof of submission.

Be sure to keep a back-up copy of all of your assignments in the event that they are lost in transition. In order to avoid any last-minute computer problems, your instructor strongly recommend you save your assignments to a cloud-based file storage (e.g., Google Docs), or send to your email account, so that should something happen to your computer, the assignment could still be submitted on time or re-submitted.

It is your responsibility to submit your assignments on time as specified on the Schedule. Be sure to check the technical requirements and make sure you have the proper computer, that you have a supported browser, and that you have reliable Internet access. Remember that **technical difficulty is not an excuse not to turn in your assignment on time**. Don't wait until the last minute as you may get behind in your work.

If, for some reason, you have a technical difficulty when submitting your assignment electronically, please contact your instructor or [CourseLink Support](#).

Turnitin Originality Check

In this course, your instructor will be using Turnitin, integrated with the CourseLink **Dropbox** tool, to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to maintain academic integrity at the University of Guelph.

All individual assignments submitted to the **Dropbox** tool will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site.

A major benefit of using Turnitin is that you will be able to educate and empower yourself in preventing academic misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.

Academic Integrity

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

University of Guelph Degree Students

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.

When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required; however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a

disability. Use of the SAS Exam Centre requires students to make a booking at least 10 days in advance, and no later than the first business day in November, March or July as appropriate for the semester. Similarly, new or changed accommodations for online quizzes, tests and exams must be approved at least a week ahead of time. For students at the Guelph campus, information can be found on the [SAS website](#).
