Course Description

This course follows the Anishinaabe way of learning. Students will observe, listen, reflect and also participate in various physical activities using the basic Ojibwe language, Anishinaabemowin. Students’ participation will be encouraged, as the Ojibwe Language activities will employ auditory, visual and/or kinesthetic styles.

Students will be given a brief history lessons of the Ojibwe-Anishinaabe, the basic language structure; its vocabulary; its worldview; basic cultural protocols; storytelling; total physical response activities; appreciating the philosophy of mino-bimaadiziwin (good life), and native contemporary issues.

Students will use the basic forms of the Anishinaabe language along with examining relationships of the Ojibwe language to various culturally relevant concepts. Students are allowed to bring their personal recording devices. The University of Guelph and Anishinaabe protocols will be respected and will be followed by everyone during all classes.

Anishinaabe Teaching Philosophy:

Each person has their own unique learning style. There are various levels of educational achievements and personal knowledge that people have and that needs to be taken into consideration. People come from different backgrounds; the key is to be flexible and mindful of the learning process and varying learning styles.

The Anishinaabe learning of observing, feeling, knowing and participating will be utilized throughout the duration of this course. Lessons will be based on the needs of the students as all educational processes are learner-centered. This type of educational philosophy is referred to as andragogy. Students will become aware of a concept; they will struggle with their feelings about it; will build and establish a knowledge base and will act on or behave in a manner which is consistent with their learning.

Learning Outcomes
Students will experience an Ojibwe worldview through auditory, visual and/or kinesthetic form of the Ojibwe language, often spoken throughout the course. Students will engage in the various Ojibwe language activities, through listening, speaking, interactive practice, and also in written form. Students will develop an appreciation and understanding of Ojibwe language, as well as cultural teachings presented throughout the course.

Zoom / Remote Learning
Remote teaching includes the thoughtful and intentional use of evidence-based pedagogies in technology-enhanced instruction. Often the content from a traditional face-to-face course is transposed to be delivered in a digital format; however, more appropriately, this is an approach that allows instructors to think about course design and effective redesign opportunities for the use of new tools. New technologies may be used to create course assets, activities, student engagement opportunities, and innovative assessments while keeping instructional goals and learning outcomes at the forefront. Remote teaching is facilitated through educational technologies, largely the institution’s learning management system (LMS), synchronous tools, videos, and other external tools that can connect to the LMS. Generally, materials are presented in a lecture format, similar to that of a face-to-face class, with the virtual environment serving as a repository of course materials and hosting platform to engaging activities. To those unfamiliar with online learning, remote instruction might appear to be synonymous to online and blended forms of learning; however, online courses and blended courses are fundamentally different and designed with the delivery mode in mind.

Email Communication

As per university regulations, all students are required to check their e-mail account regularly: e-mail is the official route of communication between the University and its students.

When You Cannot Meet a Course Requirement

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id#, and e-mail contact. The grounds for Academic Consideration are detailed in the Undergraduate and Graduate Calendars.

Drop Date

Students will have until the last day of classes to drop courses without academic penalty. The deadline to drop two-semester courses will be the last day of classes in the second semester. This applies to all students (undergraduate, graduate and diploma) except for Doctor of Veterinary Medicine and Associate Diploma in Veterinary Technology (conventional and alternative delivery) students. The regulations and procedures for course registration are available in their respective Academic Calendars.

Copies of Out-of-class Assignments

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

Accessibility

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student.
When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required; however, interim accommodations may be possible while that process is underway.

Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability.

Use of the SAS Exam Centre requires students to book their exams at least 7 days in advance and not later than the 40th Class Day.

For Guelph students, information can be found on the SAS website https://www.uoguelph.ca/sas

**Academic Integrity**

The University of Guelph is committed to upholding the highest standards of academic integrity, and it is the responsibility of all members of the University community-faculty, staff, and students-to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring.

University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff, and students have the responsibility of supporting an environment that encourages academic integrity. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

**Recording of Materials**

Presentations that are made in relation to course work - including lectures - cannot be recorded or copied without the permission of the presenter, whether the instructor, a student, or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

Disclaimer

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings and academic schedules. Any such changes will be announced via CourseLink and/or class email. All University-wide decisions will be posted on the COVID-19 website (https://news.uoquelph.ca/2019-novel-coronavirus-information/) and circulated by email.

Illness

The University will not normally require verification of illness (doctor’s notes) for fall 2020 or winter 2021 semester courses. However, requests for Academic Consideration may still require medical documentation as appropriate.
