

The background features abstract green geometric shapes. On the left, a green triangle points downwards. On the right, a complex arrangement of overlapping green polygons and triangles is visible, some with a fine grid pattern. A thin grey line extends from the bottom right towards the center.

Proposed Tuition

Tuition Framework

- ▶ Framework has been rolled over for 2 years
- ▶ tuition increases are limited to an **overall** increase of 3%
 - ▶ 3% for arts and science programs
 - ▶ 5% for professional and graduate programs
 - ▶ International tuition and unregulated programs have no limit on increases

Domestic Tuition

Principles

- ▶ Optimizing increases to reach the overall 3% limit
- ▶ Addressing tuition anomalies in the Engineering program
- ▶ Keep tuition fees competitive with the rest of the province
 - ▶ We are consistent with most undergraduate programs - a bit low with some engineering programs and some business programs
 - ▶ We are a bit high with some graduate programs

International Tuition

Principles

- ▶ Over time move Guelph to fall mid-range
 - ▶ Presently low
- ▶ Create a Model that Allows for Maximum Flexibility
 - ▶ Cohort model has resulted in Guelph international tuition falling well below system, particularly at the undergraduate level
- ▶ Address Concerns Regarding Accessibility
- ▶ Ensure that the recruitment into research-based graduate programs is not hindered
 - ▶ An area seeing some challenges

Other Considerations

- ▶ Eliminate the Cohort Fee and keep tuition increase in line with domestic increases
- ▶ Increase funding for international student bursaries and scholarships
