Additional Acceptable Electives for the minor in Zoology.

1.0 credits may be chosen from the list of acceptable courses for the minor (see the Undergraduate Calendar), and/or the additional courses listed below.

ANSC 3120 - Introduction to Animal Nutrition (0.5 credits)
ANSC 3170 - Nutrition of Fish and Crustacea (0.5 credits)
ANSC 3180 - Wildlife Nutrition (0.5 credits)
ANSC 4470 - Animal Metabolism (0.5 credits)

BIOL 3020 - Population Genetics (0.5 credits)
BIOL 3130 - Conservation Biology (0.5 credits)
BIOL 3450 - Introduction to Aquatic Environments (0.5 credits)
BIOL 4010 - Adaptational Physiology (0.5 credits)
BIOL 4100 - Molecular Evolution and Phylogenetics (0.5 credits)
BIOL 4150 - Wildlife Conservation and Management (0.5 credits)

BIOM 3010 - Comparative Mammalian Anatomy (0.5 credits)

ENVS 3090 (ENVB 3090) - Insect Diversity and Biology (0.5 credits)
ENVS 4040 (ENVB 4040) - Behaviour of Insects (0.5 credits)
ENVS 4230 (ENVB 4220) - Biology of Aquatic Insects (0.5 credits)
ENVS 4270 (ENVB 4270) - Insect Biosystematics (0.5 credits)

PATH 3040 - Principles of Parasitology (0.5 credits)
PATH 3610 - Principles of Disease (0.5 credits)
PATH 4100 - Diseases of Aquatic Animals (0.5 credits)

This list was revised in May 2012 (correction in May 2013).
