  - intensive negotiations over the fall of 2007
  - working papers (late December/early January 2008)
  - WTO Members focused on closing gaps
  - Chair's revised modalities text (February 8, 2008)

# Canada's Trade Policy Objectives

- Canada continues to press for an ambitious outcome, beneficial to all of Canadian agriculture
  - elimination of all forms of export subsidies
  - substantial reduction of, and disciplines on trade-distorting domestic support
  - real and significant improvements in market access
- Canada is very active in Geneva
  - working closely with others (e.g. Cairns Group)
  - key role in advancing technical discussions, particularly on market access

# Export Competition

- Negotiations focused on:
  - Export Subsidies
    - elimination by end of 2013 – Hong Kong Declaration
  - Export credit
    - eliminate repayment periods beyond 180 days
    - self financing – reflecting market conditions
  - Food Aid
    - “safe box” for emergency situations
    - disciplines to be negotiated on in-kind food aid, monetization, etc...
  - State Trading Enterprises (STEs)
    - Canadian Wheat Board (CWB)

# Domestic Support

- Negotiations focused on:
  - Substantial reductions:
    - a harmonizing approach
    - biggest subsidizers make the largest cuts
  - Strengthened disciplines
    - Blue Box (cap on spending)
    - Green Box (technical changes)
    - product-specific caps
  - Monitoring and surveillance

# Market Access

- Negotiations focused on:
  - tariff reduction formula
  - sensitive products
