Graduate Teaching Assistant:

The College of Biological Science requires student assessment of all courses taught by the Departments of Human Health and Nutritional Sciences, Integrative Biology and Molecular and Cellular Biology. These assessments provide essential feedback to the department and to the graduate teaching assistant by identifying both strengths and possible areas of improvement. In addition, student assessment forms part of the information used by the department in evaluating the graduate teaching assistant's successful completion of a graduate teaching assistantship.

The College's graduate teaching assistant questionnaire invites student response both through numerically quantifiable data, and written student comments. For evaluation purposes, in conformity with the Canadian Union of Public Employees, Local 3913 - Unit #1 collective agreement, departments only consider comments signed by students (choosing "I agree" in question 16). Written student comments may also be used in support of a nomination for internal and external graduate student awards.

**NOTE: Evaluations, including all signed and unsigned comments, will NOT be passed on to the TA until after final grades have been submitted. Questions marked with a \* are required.**

**Please respond to the following questions using the scale below**

NA = not applicable    1 = strongly disagree    2 = disagree    3 = neither disagree nor agree    4 = agree    5 = strongly agree
