Introducing Cisco WebEx. WebEx is an all-in-one web conferencing tool that allows you to easily meet and collaborate with your colleagues and students from anywhere in the world, with any device, at any time.

Scheduling A WebEx Meeting

6. Click on Start. The meeting is now setup and invitations will be sent via email to participants.

Making Changes to a WebEx Meeting (host)
The online interface lacks the ability to make changes to a meeting before it is started.
As the host of the meeting you can make changes to the meeting such as inviting other participants, or reminding participants that haven't yet joined the meeting. Once a meeting is started you can invite additional participants.

Joining a Scheduled Meeting
There are a few ways to join a scheduled meeting. Following are two of them.

Method 1
1. In the invitation you received via email there is a link/image Join Meeting. Click on this link.
2. A WebEx page will load in your web browser. Enter your name and email address.
3. Click on Join.

Method 2
