

ETC - ECS Student Chapter Speaker Series

Coupling fluorescence and redox electrochemistry
for DNA SAM surface characterization towards
assessing DNA SAMs for nucleic acid detection

Prof. Dan Bizzotto
Department of Chemistry, UBC

Performance and characterization of a novel
steam-reforming catalyst for hydrogen production

Nathan Shami, MSc Student
(Advisor: Prof. Dan Thomas)
Department of Chemistry, University of Guelph

Date: March 25, 2022

Time: 2:00 pm to 3:30 pm

EVERYONE IS WELCOME
