

ETC - ECS UGSC Speaker Series

Plasmonic Applications of Electrodeposited Gold on Conductive Metal Oxide Electrodes

Prof. Ian Burgess

Department of Chemistry, University of Saskatchewan

Modelling electrochemical carbon dioxide reduction and ammonia oxidation on metal and semiconductor surfaces using density functional theory

Dr. Rachelle Choueiri, Postdoctoral Fellow
(Advisor: Prof. Leanne Chen)

Department of Chemistry, University of Guelph

Date: December 17, 2021

Time: 3:30 pm to 5:00 pm

EVERYONE IS WELCOME
