

Seneca College Information

As part of the BPOCH program, you have the opportunity to attend [Seneca College](#) for a semester to receive hands-on training specific to the pharmaceutical industry. The [School of Biological Sciences and Applied Chemistry](#) at Seneca College has been providing training in the pharmaceutical sciences for more than 35 years and is located at the [Seneca @ York](#) campus, near Keele and Steeles Avenue in Toronto.

Check out classrooms, labs, facilities and more through the [360° Virtual Campus Tours](#)

While attending Seneca College, you are still a University of Guelph student, who has been given special permission to take courses at Seneca College, which count towards your U of G degree. For this reason, you pay University of Guelph tuition and fees when you register for XSEN courses. The University pays Seneca College for their services, on your behalf. You will be assigned a Seneca student ID number and e-mail address to use while you attend Seneca College. For further information regarding the winter Seneca semester, see below.

Seneca Semester

To register for Seneca courses, simply select XSEN courses using WebAdvisor during the University's [Winter Course Selection Period](#).

After U of G's Course Selection Period, your student information will be sent to Seneca to register you there for the winter semester. Once registered at Seneca, you will receive an e-mail with your Seneca student number and Seneca e-mail account (e.g., userid@myseneca.ca). Following the provided instructions on how to activate your Seneca e-mail account and set your password via [MySeneca](#).

Once you have your Seneca students number and e-mail account set up, you will be able to access your Seneca Winter timetable via [Student Home](#) (roughly the equivalent of U of G's WebAdvisor system), once it has been released to Seneca students. The tentative schedule is normally available at the end of November or beginning of December.

NOTE: Seneca schedules can CHANGE! So double check your schedule on Student Home prior to the start of the winter semester.

Sample Seneca Semester:

Period	Time	Monday	Tuesday	Wednesday	Thursday	Friday	
1	8:00 – 8:50					XSEN*3210 Class Rm S3089	
2	8:55 – 9:45		XSEN*3200 Class Rm S1206				
3	9:50 – 10:40	XSEN*3200 Class Rm S1206		XSEN*3030 Class Rm S3028			
4	10:45 – 11:35					XSEN*3060 Lab Rm T3075	
5	11:40 – 12:30	XSEN*3200 Lab Rm S3107	XSEN*3060 Lab Rm S3089	XSEN*3030 Lab Rm S3089			
6	12:35 – 13:25						XSEN*3210 Class Rm S3007
7	13:30 – 14:20						
8	14:25 – 15:15						
9	15:20 – 16:10		XSEN*3030 Class Rm S3007	XSEN*3060 Class Rm S3028			
10	16:15 – 17:05						
11	17:10 – 18:00						
12	18:05 – 18:55						

Note: The fifth course, XSEN*3090, is offered in DE format.

Sample Seneca Exam Schedule:

TIME	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
9:00		XSEN*3030			
11:30			XSEN*3060	XSEN*3210	XSEN*3090
14:00			XSEN*3200		
16:30
