Parent/Guardian Questions or Concerns

If you have concerns or questions, or if you are not satisfied with the CCLC program, here are 3 steps you can take:

1. First, speak to your child’s primary educators and address your questions to them.
2. If you are unable to ask your child’s primary educator or, if you would like further information, please speak to Valerie Trew, the Director of the CCLC.
3. If, after following these steps, you are still not satisfied, please contact and discuss with: **Brenda Whiteside**, Associate Vice-President
   Student Affairs, University of Guelph
   519-824-4120 Ext. 53868

Concerns or Complaints about Licensed Child Care

- **Erika Barger**, Program Advisor
  Wellington County Early Years Division
  518-837-3620 Ext. 3095

- **Sherry Standish**, Program Advisor
  Ministry of Education
  1-877-510-5333 Ext. 6361

Guelph-Wellington Growing Great Kids – Inclusion Support Services
Our Program and Pedagogy  
*(Re. Program Statement, CCEYA (2014) O. Reg. 137/15 s 46.1)*

The University of Guelph Child Care and Learning Centre (CCLC) proudly delivers an inclusive, child-centred, family-oriented program based on a philosophy of children as competent, capable, curious participants and contributors in their environments, their families and their communities and so very rich in potential. We are committed to supporting families and children to reach their potential through developing relationships built on respect and providing an environment that supports positive and responsive interactions. This begins with relationships among staff, students and volunteers and ripples out to relationships with children, families and the community. We are also proud to be part of the University of Guelph community and to be a place of learning for many undergraduate students, especially in the Child, Youth and Family program. Teaching future early learning and child care professionals is a privilege and responsibility that is valued by staff at the CCLC. It both enriches our program and broadens our impact.

Every person who enters the CCLC should feel that they belong here, that they are engaged in the program, that their well-being is supported and even enhanced just by being here, and that they are free to express themselves. These four foundations of belonging, engagement, well-being and expression are the rights of all children and provide the basis of our goals and expectations for our program.

As such, this program statement is a living document that continually evolves with the ongoing engagement of the staff and families in our program. Annual and ongoing review of the program statement with staff, students, volunteers and families ensures its continued relevance. The CCLC staff are supported to make meaningful contributions to the ongoing development and evolution of the program through professional learning provided in the form of onsite pedagogical leadership, attendance in training, workshops and conferences, and support with education.

The following statements specify the approaches we will employ to: promote health, safety, nutrition and well-being; foster positive and responsive relationships; support exploration, play and inquiry; and support family engagement and communication.
Approaches to Promote Health, Safety, Nutrition and Well-Being

The health, safety, nutrition and well-being of the children in our programs is a primary focus of the CCLC. Our goal is for all children to develop a sense of self, health and well-being that they are able to bring with them into their later years. We recognize the significant importance of the early years in children’s development and strive to provide children with a strong foundation.

The CCLC supports these goals through the implementation of a variety of approaches, such as by:

- Providing nutritious foods and beverages that incorporate family and cultural preferences and are in accordance with the Canada’s Food Guide and approved by a Registered Dietician, including one main meal and at least two snacks per day;
- Involving the children and families in menu choices;
- Providing experiences for children to engage in food preparation (e.g. baking activities);
- Being sensitive to and accommodating for children’s food restrictions and allergies;
- Creating family-style, positive eating environments with foods and portion sizes that are responsive to children’s cues of hunger and fullness;
- Ensuring that all staff members are trained and able to appropriately respond to health, safety and emergency situations;
- Engaging children in physical activity and decreasing the amount of time that is spent in sedentary activities;
- Providing opportunities for children to engage in risk at a level that is appropriate for their development;
- Supporting mental health wellness through encouraging children’s development of self-regulation, resiliency and a rich emotional vocabulary;
- Providing opportunities and organization of materials to support children’s growing autonomy and independence (e.g. using real dishes for meal times);
- Completing daily health checks through communication with families to understand the child’s state of health entering the program and continually monitoring their health during their involvement in the program;
- Performing at least daily safety monitoring checks to ensure that indoor and outdoor environments are safe;
- Providing daily opportunities for sleep, rest or engagement in quiet activities depending on each individual child’s needs and development;
Coordinating with Wellington-Dufferin-Guelph Public Health to ensure that all health and safety procedures are in accordance with research-based best practices;

Providing at least two hours of time spent learning outside on a daily basis, weather permitting;

Monitoring children’s engagement in activities to determine optimal periods for transitions;

Providing a variety of indoor, outdoor, active, rest and quiet experiences throughout the day.

Approaches to Foster Positive and Responsive Relationships

Positive and responsive relationships are essential to high-quality early learning and care. Our goal is to nurture authentic, caring relationships and connections to create a sense of belonging between children, adults and the world around them. We create opportunities for children to connect to others in their world, support their experiences of being valued, and provide opportunities to be part of a community. Through responding positively to children’s cues and engaging in reciprocal interactions secure relationships are developed. We believe that supporting children’s internal capacity to self-regulate and engage in positive interactions is the foundation for optimal learning, development, health and well-being.

The CCLC supports these goals through the implementation of a variety of approaches, such as by:

- Welcoming and greeting children and families at arrival;
- Providing opportunities for children to engage with and make contributions to the world around them;
- Promoting engaged citizenship through empowerment, empathy and advocacy;
- Supporting the development of a sense of community within the Centre, the University campus and the Guelph community as a whole;
- Providing opportunities for children to be heard and for their contributions to be appreciated within their communities;
- Advocating for children as active, competent people who have a stake in Canadian society and in whom Canadian society has a stake;
- Encouraging children’s active participation within their communities and their acquisition of civic literacy skills;
- Honouring children’s ideas and contributions by responding to them in a respectful way and by focusing on using authentic language in our interactions with them;
- Interacting with children on their level;
- Actively play partnering with children to expand their learning and support their social experiences;
• Knowing when to be an intentional observer in a play scenario and to support these learning experiences from afar;
• Modeling resiliency and problem-solving skills with children and helping them to identify their feelings, the feelings of others, and possible solutions;
• Placing importance on encouraging children to develop authentic skills for solving problems, instead of having them take part in a prescribed solution (e.g. making a child say sorry);
• Getting to know the children on an individual basis to identify and work to proactively minimize stressors, and to help the children become self-aware;
• Actively listening to children and giving them the time and space to express themselves;
• Incorporating learning experiences for the children to engage in a range of group sizes;
• Responding to challenging behaviours with the most appropriate and effective but least intrusive strategy;
• Reframing challenging behaviours by reflecting on why they may be occurring and what the child might be trying to express;
• Acknowledging and positively reinforcing children’s efforts in a meaningful way by being specific when describing actions and reactions;
• Encouraging children to be respectful of the ideas of others and modelling this ourselves;
• Talking about emotions and modeling empathy and self-regulation out loud for the children to hear.

Approaches to Support Exploration, Play and Inquiry

When children are able to explore the world around them with their natural curiosity and exuberance, they are fully engaged. Our goal is for the indoor, outdoor and natural environments to engage children in active, creative and meaningful exploration, play and inquiry. Through this type of play and inquiry, they develop skills such as problem solving, creative thinking, and innovating, which are essential for learning and success in school and beyond.

The CCLC supports these goals through the implementation of a variety of approaches, such as by:

• Observing and engaging with children to understand their questions and inquiries and using these as a guide for programming;
• Respecting and supporting the children’s sense of curiosity and wonder;
• Viewing the environment as the “third teacher” and understanding the significant impact it has on our program;
Child Care and Learning Centre

- Organizing the learning environments in a way that makes them aesthetically appealing, uncluttered, engaging and welcoming;
- Incorporating materials that add to a homelike feeling within the learning environments (e.g. curtains, plants, lamps, natural lighting, soft colours, pillows, real materials);
- Providing interesting and complex open-ended learning materials for children to engage with and explore;
- Including real items (e.g. dishes, lamps, glass jars) for children to use and explore in their play;
- Providing natural elements (e.g. sticks, rocks, shells, plants) to help children explore the natural world;
- Role modeling and encouraging respect for materials in the shared learning environment;
- Providing opportunities for extended and uninterrupted play and exploration multiple times each day;
- Providing a variety of learning experiences and materials for children to freely choose to play and express themselves with;
- Engaging with children during their exploration, play and inquiry to support and extend their meaning making of their experiences;
- Engaging in open-ended conversations with children and asking thought-provoking questions to help expand the children’s learning and our understanding of their explorations;
- Having an awareness of the many languages that children use to express themselves and providing opportunities for children to share their thoughts and ideas in a variety of ways;
- Reviewing documentation of learning experiences with the children in order to encourage their reflection on their learning;
- Capitalizing on spontaneous, meaningful learning moments during the day by being actively engaged with the children;
- Creating learning environments that mirror the ideas, values, attitudes and cultures of those who use the space;
- Involving local community partners in children’s explorations and inquiries (e.g. visiting various areas around the University of Guelph campus, visiting families’ workplaces, regularly exploring in the Arboretum, making use of locally donated resources and materials, inviting relevant experts in to share knowledge with the children, etc.).

Approaches to Support Family Engagement and Communication

Care and learning cannot occur without the support of the family. Our goal is for families to be active participants in their child’s experience at the CCLC. We strive to establish positive, responsive relationships with children and their families by promoting engagement and ongoing communication about the program and their children.

The CCLC supports these goals through the implementation of a variety of approaches, such as by:

- Communicating with families on a daily in-person basis at minimum at arrival and departure;
• Communicating our perspective of the children’s learning and development with families in daily documentation sent electronically through HiMama and posted on documentation boards;
• Encouraging families to share their perspective on the children’s learning and development through in-person sharing and electronic responses in HiMama;
• Encouraging families to share pictures and stories of their child’s time at home and with family;
• Displaying family information and photographs throughout the learning environments;
• Incorporating aspects from a variety of cultures within the learning environment (e.g. food, music, art, photographs, artifacts);
• Inviting family participation within the daily program and encouraging them to share their varied perspectives and cultural experiences with the children;
• Creating a comfortable place in each learning environment for families to stay and visit;
• Encouraging parent/guardian participation and engagement through a Parent Advisory Council;
• Connecting families with local community partners for additional support and services;
• Planning special events and social activities for families to engage in throughout the year (e.g. Mother’s and Father’s Day celebrations, holiday gatherings, annual family picnics).

Our Use of Documentation

The Child Care and Learning Centre uses a variety of documentation methods to share in the joy of children’s learning and development, support our communication with parents/guardians, reflect on our planning and creation of environments and experiences, review the impact of our interaction and planning approaches, and to support and monitor the implementation of our program statement. On a daily basis, each playroom writes a piece of documentation that draws attention to the children’s thoughts and contributions, shares our professional knowledge and includes representation of the children’s, educators’ and families’ perspectives. These pieces of daily documentation share a broader picture of what is happening in each learning environment on a regular basis. Within each playroom, more individually and long-term focused documentation pieces are also created and shared with families. These documentation pieces reflect the children, families and educators in each individual learning space and take on a variety of formats, including individual learning stories, group reflections, storybooks, and documentation panels.
About Our Services

The University of Guelph Child Care and Learning Centre is a licensed child care provider with 49 toddler spaces and 72 preschool spaces. The CCLC offers these two program areas based upon the age of the enrolled children. Children are grouped by age so that broad similarities in interest, ability, and attention span may be considered in program planning, physical space and equipment. It also supports more effective supervision by staff and the delivery of an interactive and responsive programming. All playrooms are designed for ease of supervision and have a good exterior view and natural light.

Each program area is further divided into playrooms, identified by distinctive names:

- Toddler Programs – Sun, Monkey, Giraffe, and Dragonfly Rooms
- Preschool Programs – Butterfly, Star, Ladybug and Rainbow Rooms

Staff and children refer to each room by name, and the children are identified by these names. The children from appropriate program areas are together in the early morning and late afternoon, as there are fewer children present at those times of day.

Hours of Operation

The CCLC is open Monday to Friday from 7:30 am to 5:30 pm and is closed on the following holidays:

<table>
<thead>
<tr>
<th>Holiday</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Family Day</td>

</tbody>
</table>
| University of Guelph Winter Closure | The days that the University of Guelph observes for the annual Christmas holidays, which is typically the period of Christmas Day to New Year’s Day.
Additional Closures

On certain occasions, the CCLC may be closed, due to harsh weather conditions or emergency situations such as a power failure/flood. Additionally, if the University is closed we are closed. For your convenience, we attempt to make decisions as early as possible in the morning. To find out if the CCLC is closed on a particular day, please check the University of Guelph website or listen to CJOY, 1460 AM; Magic, 106.1 FM for a full-campus closure.

Staff, Student, and Volunteer Information

Children are supervised by an adult at all times, whether in the CCLC or off the premises. Staffing in each program is determined by licensing requirements under the Child Care and Early Years Act - 2014 and is implemented as identified in the following chart:

<table>
<thead>
<tr>
<th>Program Area</th>
<th>Age Range for Program Area</th>
<th>Ratio of Employees to Children</th>
<th>Maximum Number of Children in a Group</th>
</tr>
</thead>
<tbody>
<tr>
<td>Toddler</td>
<td>18 months or older but younger than 30 months</td>
<td>1:5</td>
<td>15</td>
</tr>
<tr>
<td>Preschool</td>
<td>30 months or older but younger than 6 years</td>
<td>1:8</td>
<td>24</td>
</tr>
</tbody>
</table>

Due to our close teaching relationship with the University of Guelph’s Department of Family Relations and Applied Nutrition, there are many practicum students within our programs during the Fall and Winter semesters. Prior to starting their placement, volunteers and students review the policies and procedures with the Director, Supervisor or alternate administrative designate. All volunteers and students are assigned to mentoring educators who are responsible for their direct supervision. Depending on the placement, other staff members (such as other primary educators, the On-Site Instructor, the Business Operations Manager, the Supervisor, and the Director) may also have secondary responsibility for the supervision of volunteers and students.

The roles and responsibilities for the supervising employees are as follows:

- Ensuring that the volunteer or student is supervised by an employee at all times
- Ensuring that no children are left alone with a volunteer or student
- Giving feedback on a regular basis to help the volunteer or student understand his or her areas of strength and areas for development
- Supporting the volunteer or student in developing and strengthening their ability to have positive interactions and relationships with children and families
- Helping the volunteer or student to feel comfortable and welcomed within the learning environments
- Providing experiences and opportunities that align with the objectives of the volunteer or student
The roles and responsibilities for the student or volunteer are as follows:

- Ensuring that they are never left alone with any child(ren)
- Ensuring that they understand and follows all required policies
- Supporting the children’s learning and development through positive interactions and relationships
- Communicating any questions or concerns to his or her mentoring educator
- Assisting the staff in the daily operation of the program, including preparing learning opportunities, supporting children’s self-care, and supporting children’s conflict resolution
- Additional roles and responsibilities are arranged for students based on the requirements of their educational placement

Social Inclusion

At the CCLC, an integrated approach is used when working with a child with special needs. Parents/guardians, staff and the Inclusion Support Services Team collaborate to develop Individual Support Plans that may include the use of aids, iPads®, tablets, mobility devices, sign language, additional staff, specialized seating, and other supports that ensure children are able to participate in the program.

Sometimes children need support from agencies that assist at the CCLC as part of Guelph-Wellington Growing Great Kids. This might include but is not limited to: Social Development Support, Language Development and Speech Therapy, Behavioral, Physiotherapy, Occupational Therapy or Developmental Support. For an outside agency to work with a child, the parent/guardian gives informed consent. This opportunity is offered to all children at the CCLC.

Activities Off Premises

To complement the children's daily program, educators sometimes plan special activities on-campus or off-campus. An on-campus trip could include a visit to the Arboretum, the entomology lab, the ice rink, or just a stroll around campus. At Intake, parents/guardians sign a general permission for on-campus trips, which do not involve transportation.

For off-campus trips, we will ask you to sign a Specific Permission Form in advance of each trip. Off-campus trips could include a trip to an apple orchard or the police station. The children enjoy these outings. You will be provided with the date, time, destination and the method of transportation for the trip. A small admission fee is sometimes required for off-campus trips. Families are welcome to volunteer for any field trips.
Outdoor Environment

Children play outside daily at the CCLC, except on days when weather restrictions apply. Regularly through the day, when weather seems problematic, the Office Administrator checks the temperature and forecast provided for Guelph by Environment Canada.

It is the policy of the CCLC to restrict outdoor activity because of:

- **Temperature** – children cannot be outside when the temperature is -17 °C or lower with the wind chill or +34 °C or higher with the humidex; or as demonstrated by the outdoor thermometer.
- **Extreme Conditions** – at the discretion of the Director, children remain indoors during extreme weather conditions such as wind, rain, snow, icy conditions or blizzard.

Use of Videos

Short videos are occasionally used within the program to support a current investigation or interest that the children are engaged with. These videos can help the children connect with concepts on a more realistic level and can be an excellent supplement to their learning. Sing-along and exercise videos are also occasionally used to support the children’s exploration of music and movement. Any videos that are used within the program are used with intentionality and clear purpose. Prior to any longer videos being shown, families are informed through a message on HiMama.

Prohibited Practices

The Ministry of Education outlines in the Ontario Child Care and Early Years Act a list of “prohibited practices” for licensed child care operators. At no time would the CCLC allow for:

- Corporal punishment of the child;
- Physical restraint of the child, such as confining the child to a highchair, car seat, stroller or other device for the purposes of discipline or in lieu of supervision, unless the physical restraint is for the purpose of preventing a child from hurting themselves or someone else, and is used only as a last resort and only until the risk of injury is no longer imminent;
- Locking the exits of the child care centre or home child care premises for the purpose of confining the child, or confining the child in an area or room without adult supervision, unless such confinement occurs during an emergency and is required as part of the licensee’s emergency management policies and procedures;
- Use of harsh or degrading measures or threats or use of derogatory language directed at or used in the presence of a child that would humiliate, shame or frighten the child or undermine their self-respect, dignity or self-worth;
- Depriving the child of basic needs including food, drink, shelter, sleep, toilet use, clothing or bedding;
- Inflicting any bodily harm on children including making children eat or drink against their will.

Revision Date: 03/16/2017
Admission and Withdrawal Procedure

Waitlist Process

When an application is electronically received at the CCLC, it is sorted by registration date, affiliation with the University of Guelph and the child's date of birth. Due to our relationship with the University of Guelph, applicants' affiliations are given the following priority:

1. Families with children currently enrolled at the CCLC
2. Students (degree program) of the University of Guelph
3. Faculty/Staff of the University of Guelph
4. Families with children who have previously attended the CCLC
5. Alumni of the University of Guelph
6. Community members

If you are interested in applying to the CCLC, please fill out the Waitlist Application Online Form (http://gw.micro-access.com/uoguelph/Publique/ListeAttente.aspx?SectionId=7).

If you are planning to place more than one child on the waitlist, please complete a separate application for each child and indicate if the child is a sibling. Upon completion of the online application, you will be directed to a confirmation screen indicating that your application has been received. You will not receive a confirmation email.

You must contact the CCLC via email at cclcewait@uoguelph.ca once every 6 months in order for your waitlist application to remain active. Ensure that your email includes your child's first and last name and provide any updates to your information, or simply state that you would like to stay on the waitlist. Please do not fill out a new application form as this will reset your registration date.

Registration and Intake Process

When a child care space becomes available a family will receive an email notifying them about the space. The family has 24 hours to respond, by email, to the notification. Failure to respond in 24 hours will result in the next family on the waitlist being offered the space. If the family responds that they want the space, they will have to accept and pay for the space as of the date of availability. They will receive an Intake Package electronically, which includes various forms that provide the CCLC with information about their child prior to them starting the program. This information is held in the strictest of confidence. The Intake Package also includes a Financial Agreement, which must be signed and returned with the Registration Fee and Deposit within 5 business days. The non-refundable Registration
Fee is $40.00 per child. The Deposit is $300 per child and is returned in full upon receipt of a 2-month written notice when a child withdraws and upon the family’s child care account being paid in full. No interest in earned on the deposit. If a family accepts the space, pays the deposit, and then decides not to enroll, the full deposit is non-refundable. If the family is unable to commit to the space on the date of availability, they will return to the waitlist.

**Intake Meeting and Orientation Period**

An Intake Meeting is required prior to your child starting in the program to review enrollment forms, relevant policies, and to discuss any questions or concerns that a parent might have. After the Intake Meeting, an orientation visit to the CCLC is scheduled for one or both parents/guardians and their child, prior to the child’s start date. The child’s primary educators will get in contact to arrange this with you depending on your child’s orientation needs. During this time, one parent/guardian must remain on the premises.

**Moving Children to an Older Program Area**

The decision to move a child to an older program area depends on a number of factors, such as: the age of the child, the child’s developmental readiness and the child’s current attendance schedule. Usually the oldest children enrolled in a program are the first to move into the next program area. Moves occur after discussing the situation with parents/guardians. The CCLC strives to give parents/guardians as much prior notice as possible when planning for a move and every effort is made to help your child make a smooth and successful transition. Occasionally, when it is time for a child to move to the next program area the CCLC may not have a space available and when this occurs, parents/guardians are required to continue pay the child care fees for the child’s current program.

**Withdrawal Process**

**Withdrawal of Our Services**

The CCLC’s services might be withdrawn for failure of the child’s parents/guardians to comply with the CCLC policies and procedures including but not limited to

- repeated late pick-up of the child
- failure to pay child care fees
- mistreatment of CCLC staff

Where possible, 2 weeks’ written notice of withdrawal of services will be given in advance. However, the CCLC reserves the right to terminate its services immediately if, in the CCLC’s sole discretion, the circumstances warrant such action.
Notice of Withdrawal

A two-month written notice is required prior to withdrawing a child from the CCLC. If sufficient notice is not given, payment for the corresponding period may be required, unless the CCLC is able to fill the space prior to the end of the notice period.

Change in Attendance Schedule

The CCLC does its best to respond to requests for schedule changes, for example a parent/guardian wishes for their child to change from a Tuesday/Thursday schedule to a full time schedule. When a child care space becomes available a family will receive an email notifying them about that space. The family has 24 hours to respond, by email, to the notification.

In some circumstances parents/guardians may have a transition date that meets their needs exactly. However, in some cases the parent’s/guardians needs may not coincide. In either case, the parent/guardian is required to pay from the date of availability as determined by the CCLC until their child is ready to attend on the new schedule.

Leave of Absence

During an approved leave of absence (3 months or more), your child’s full deposit will remain with the CCLC. These children are given priority for a child care space on the internal waiting list upon their return; however, the playroom allocation or attendance schedule may change. If a decision is made not to return, the deposit will remain with the CCLC.

Financial Information

Child Care Fee Schedule

Fees vary according to the program in which your child is enrolled and are highest for the youngest children. Fees are subject to review on a yearly basis and can be increased with 2 months’ notice to families. The CCLC increases fees as is deemed necessary to maintain financial viability. Each month you will receive an electronic invoice for your child’s fees.

Revision Date: 03/16/2017
Payment Conditions

Parents/Guardians are required to pay one month in advance and continue with advance payments. Payments are due on the first working day of each month by 5:30 pm. Payment must be made online through your financial institution or through payroll deduction for University of Guelph employees.

- Child care fees can be paid through online banking with all major Canadian banks and Credit Unions. To pay at the bank simply add the 'University of Guelph - Child Care' as a payee in your online banking and an account number will be provided to you with your registration.
- Full payment is required regardless of days missed due to illness, vacation, all statutory holidays, University holidays, and closures due to weather. This policy applies to all full-time and part-time children.
- Failure to make monthly payments will result in termination of your child’s care.

Overdue or Non-Payment

If payment is not made on the assigned day a late fee will be charged. A $25.00 fine will be assessed per month for late payment of fees. Any family consistently failing to make monthly payments will be asked to withdraw their child from the CCLC. Any family having difficulty meeting the payment deadline should approach the Business Operations Manager, in advance, to arrange other payment terms.

Late Pick-Up Fine

The CCLC closes at 5:30 pm and staff members are scheduled until that time. Children must be picked up by no later than 5:30 pm. If you are late, a Late Form is filled out by a CCLC staff member and signed by you to verify the time of pick up. The financial penalty for late fines is $1.00 per minute for the first five minutes and $2.00 per minute after the first five minutes. Repeated late pick-up of the child could result in the CCLC’s being withdrawn. All late fines will be added to your child’s account.

Subsidy

Child care fee subsidy is assistance with the cost of child care that is available from Wellington County to eligible families. Information about how to apply for subsidy from the Wellington County Children’s Early Years Division is available from the main office in the CCLC or from the County:

Parent/Guardian Communication and Involvement

Daily Arrivals and Departures

When you arrive at the CCLC, we ask that you bring your child directly to their playroom and let us know any relevant information about their night, morning, or health. This informal check-in allows the educators to assess the health of each child. On occasion, this check-in may lead to a decision that a child is not well enough to stay at the CCLC. In case of disagreement, the CCLC Director will make the final decision. Similarly, at the end of the day, the educators look forward to filling you in on your child’s day. Drop-offs and pick-ups are important times to connect with your child’s educators, explore their playroom, and ask questions about your child’s learning.

Daily Documentation

The primary educators post daily documentation to inform parents/guardians of the investigations and inquiries that the children were engaged in each day. Each child within the playroom will not appear in documentation on a daily basis; however, the primary educators aim to write the documentation about a learning concept that is significant to the majority of the children in the playroom, whether they are featured in the photos or not. Our hope is that this documentation will give you a glimpse into our perspective of your child’s learning within our program and will help to create a dialogue about this learning between you and your child.

Daily Electronic Communication

The Toddler and Preschool programs at the CCLC use HiMama. This electronic application helps us communicate our perspective of the children’s learning and development with families. We also encourage families to share their perspective on the children’s learning and development through electronic responses in HiMama.

Involvement

We encourage parents/guardians to spend time in their child’s program. Our playrooms are open to you at all times. The CCLC is also equipped with two observation booths that allow for observation of some
of the children’s indoor learning environments. Parents/guardians are welcome to use these booths at any time to observe their child in program.

Parent Advisory Council

The CCLC has an active Parent Advisory Council (PAC) that organizes many fundraising and social activities throughout the year. This volunteer group consists of parents/guardians whose children currently attend the CCLC, the CCLC’s Director and a representative CCLC primary educator. Volunteers are always welcome to help with events or join PAC. We encourage parent/guardian representation from each class on the council. Please email cclc-pac@uoguelph.ca if you are interested in becoming involved.
Nutrition

The CCLC aims to provide nutritious meals and snacks, and serve food in a manner that promotes good health and supports best practice. Food and nutrition has a direct impact on the physical and emotional growth of children, as well as their ability to learn. Each day we offer a morning snack, lunch and an afternoon snack. A 4 week, rotational seasonal menu that follows Canada’s Food Guide is posted outside of the kitchen. If a child has food allergies and/or food restrictions, parents are responsible to provide appropriate food substitutes as necessary. Parents of children with allergies or food restrictions must fill out a Food Allergy/Restriction Form and identify foods on the menu that their child cannot eat. Any food brought to the Centre must be clearly labelled with your child’s name, and be “ready to serve” from a thermos or plastic container. All food must be given directly to the kitchen staff each morning and cannot be left in a child’s cubby or classroom. There is no financial reimbursement for food not provided by the CCLC.

Food is served “family style” at the CCLC. An educator sits with a small group of children around the table and children are encouraged to self-serve their food with assistance as necessary. The educators eat with the children and model healthy eating habits, enjoyable interactions, and the pleasure of experiencing new and different foods. In both our Toddler and Preschool programs, the children serve their snacks and lunches on real glassware. The use of real dishes offers an appropriate challenge for the children and helps them to develop careful eating habits. We do not provide sippy cups for the children to use within our programs. Children who use sippy cups are required to bring these from home each day that they are in program.

Nut-Free Policy

The CCLC adheres to a strict ‘Nut-Free’ policy. Peanut butter, peanuts, other nuts, and nut products are not allowed in the CCLC to protect the children with life-threatening allergies to these substances. Food from outside is not brought into the CCLC unless there have been special arrangements made due to dietary restrictions. The chemical elements of a peanut or peanut product may remain on an individual’s breath and hands, and can cause an anaphylactic allergic reaction in someone who is highly reactive. If your child consumes peanut products prior to attending the CCLC please take extra precautions to wash their hands and face.
Health and Safety Information

Assessing Your Child’s Health

A child must go home, or stay home when:

<table>
<thead>
<tr>
<th>Temperature of:</th>
<th>Vomiting: A child must go home if they vomits with no reasonable explanation.</th>
<th>Diarrhea: A child must go home if they have one episode of diarrhea that is uncontain or a second bout within a short period of time.</th>
<th>Rash: A child must go home if they have an unexplained rash or bumps.</th>
</tr>
</thead>
<tbody>
<tr>
<td>37.5°C to 37.7°C 99.5°F to 100°F</td>
<td><strong>Fever of 38.3°C (101°F)</strong> With a fever this high and over, the child needs individual care and attention, and must go home.</td>
<td><strong>Vomiting:</strong> A child may return 24 hours after the last episode of vomiting. <strong>Diarrhea:</strong> A child may return 24 hours after the last episode of diarrhea.</td>
<td><strong>Infection:</strong> A child must go home if they have signs of redness, discharge or swelling of eyes, nose or skin.</td>
</tr>
</tbody>
</table>

A child may return to the CCLC when:

<table>
<thead>
<tr>
<th>Normal Temperature 34.7°C to 37.3°C</th>
<th><strong>Vomiting:</strong> A child may return 24 hours after the last episode of vomiting. <strong>Diarrhea:</strong> A child may return 24 hours after the last episode of diarrhea.</th>
<th><strong>Rash/Infection:</strong> A child may return with a doctor’s note stating: the cause of the rash/infection, that it is okay for the child to return to the CCLC, and that the time of contagion is complete.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Your child may return to the CCLC after remaining fever free, without medication, for 24 hours.</td>
<td><strong>Vomiting:</strong> A child must go home if they vomit and cannot return to the CCLC until 48 hours after the last bout of vomiting or diarrhea.</td>
<td><strong>Diarrhea:</strong> A child must go home if they have one episode of diarrhea (contained or uncontained). They cannot return to the CCLC until 48 hours after the last bout of diarrhea or vomiting.</td>
</tr>
</tbody>
</table>

While the CCLC is in Outbreak Status:

| Vomiting: A child must go home if they vomit and cannot return to the CCLC until 48 hours after the last bout of vomiting or diarrhea. | Diarrhea: A child must go home if they have one episode of diarrhea (contained or uncontained). They cannot return to the CCLC until 48 hours after the last bout of diarrhea or vomiting. | Rash/Infection: A child may return with a doctor’s note stating: the cause of the rash/infection, that it is okay for the child to return to the CCLC, and that the time of contagion is complete |

Child Care and Learning Centre

Reporting Illness

If your child is ill, please call the Front Office at 519-824-41020 Ext. 52682 and leave a message stating your child’s playroom, the nature of your child’s illness, and if you have a doctor’s diagnosis. It is helpful to the morning program if you are able to call by 10 AM. While the CCLC is in Outbreak Status, the WDG Public Health Unit requires us to report the number of bouts of enteric illness any children have. Parents/guardians must report this information to the Front Office each day that their child is ill.

Handwashing

Handwashing is critical in stopping the spread of germs. The WDG Public Health Unit recommends that all children wash their hands once they enter the program in the morning. Often times, this is initiated by the child immediately eating morning snack. We appreciate your help in ensuring that your child washes their hands when they arrive.

Administering Medications

Prescription

Medicine prescribed by a physician and medicine that is not prescribed by a physician but has been purchased by the parents/guardians "over-the-counter", must be provided in its original container and labelled with:

- Child's full name
- Name of the medicine
- Name of the prescribing physician
- Dose
- Time of administration
- Purchase date
- Special storage instructions
- Start date and, where appropriate the end date, and expiry date.

An exact measuring device is required to ensure the correct dose for the prescribed medication. The CCLC will not administer a dosage higher or more frequent than the dosage suggested by the physician. Parents/guardians will be asked to fill out a Medical Authorization form.

Non-Prescription

With parental consent, we can administer non-prescription medication that has the child’s full name written on it, is in the original packaging, and has not expired. Without a physician’s note, we cannot administer a dose that is higher or more frequent than the dosage suggested for the child's age or weight on the original packaging.
Child Abuse Policy

The CCLC recognizes that every child has a right to be protected from neglect, abuse and exposure to violence. If any person has reasonable grounds to suspect a child is in need of protection they must report directly to Family and Children’s Services, Guelph and Wellington County. Please note that reporting to Family and Children’s Services overrides any responsibility of the CCLC to protect confidentiality.

Parental Intoxication

If we have reason to believe that a parent is under the influence of an intoxicating substance upon arrival for pick-up, one of the child’s Emergency Contacts will be contacted for the safe supervision and pick-up of the child.

Building Security

The CCLC is a secure facility with a video and audio feed and an electronic FOB or iClass card system that is networked with Campus Police. The front entrance doors are locked and you will require a FOB or iClass card to enter the building. There will be two FOBs or iClass cards (or a combination) designated for each family. If a FOB is lost or not returned there will be a $20 charge.

Scent-Free Policy

In respect and consideration of others, please refrain from wearing any perfumed products in the CCLC.

Smoking Ban

Under the Smoke-Free Ontario Act, smoking is prohibited “in enclosed workplaces and enclosed public places in order to protect workers and the public form the hazards of second-hand smoke.” Smoking is prohibited on the CCLC premises.

Sun Protection Procedure and Policy

The CCLC has sunscreen in each playroom that, with parent/guardian permission, is applied before going outdoors on summer afternoons. If parents/guardians prefer to bring sunscreen from home, it must be a minimum of SPF 15, must not contain nut oils, must not be expired and must be labeled with the child’s full name. Parents/guardians are asked to apply sunscreen to their child in the morning and the
educators will apply sunscreen to the children in the afternoon. In the summer, children need both sunscreen and sun hats.

Emergency Management Procedures

The CCLC has emergency management procedures, including a Fire Safety/Evacuation Policy. In the event of an emergency situation requiring the evacuation of the CCLC or activation of our emergency management policies, parents will be notified as soon as possible through HiMama. In the event that children must be picked up, a message will first be sent out through HiMama and parents will then be individually called by their child’s primary educators. The emergency shelter for the CCLC is the W.F. Mitchell Athletic Centre.

Fire drills are conducted monthly by the Fire Prevention Officer at the University of Guelph. At which time, fire extinguishers are also inspected. If you arrive during a fire drill, please wait outside until re-entry to the building has been announced.

Medical Emergencies

In consultation with families and medical practitioners, the CCLC develops an individual plan for all individuals with a high-risk medical condition (e.g. anaphylaxis allergy, asthma, seizures). All staff, students and volunteers are made aware of these conditions and protocols and sign off on them whenever updates are made.
