Dear University of Guelph Employee:

The University of Guelph has an employment equity program to ensure that all job applicants and employees, including Aboriginal peoples, persons with disabilities, members of visible minorities (racialized people) and women, are treated fairly and equitably. Over and above these legislative requirements, the university is also working towards ensuring sexual orientation and gender identity be included in our employment equity goals.

Through this initiative, the University endorses its ongoing commitment to the principles of employment equity and, in so doing, satisfies the requirements of the Federal Contractors Program to remain eligible for federal contracts worth $1,000,000 or more.

Both federal and provincial human rights legislation permit employers to collect the information in support of employment equity. The information you provide is kept confidential in the Office of Diversity and Human Rights and completely separate from personnel files. Only select UofG staff who have signed a confidentiality agreement have access to the raw survey data. The data will be analyzed and formulated to ensure no one can be identified. All the information gathered for this census will be kept in a password-protected, encrypted computer and back-up files and written documents will be kept in a locked filing cabinet for seven years.

We recognize that the act of identifying can be uncomfortable for a variety of reasons, however the information you
