Ethical Buying @ the University of Guelph

The University of Guelph has long believed that its dealings with suppliers should reflect the institution’s recognition that consumer decisions have an impact on those involved in production. Therefore, the University’s Board of Governors approved a Code of Ethical Conduct for Suppliers and Subcontractors in Relation to Working Conditions and Employment Standards (the Code).
Effective November 1, 2016, the University of Guelph will require all suppliers fulfilling the University’s purchase orders for apparel products to complete a compliance verification process by completing the **Supplier Verification of Compliance Form** in accordance with the Code.

The Office of Diversity and Human Rights (DHR) publishes and maintains a list of apparel product suppliers that have completed the compliance verification process.

All departments are **encouraged to source their apparel products from this supplier list. If your preferred supplier does not appear on this list, departments are** required to ask the supplier to complete the Supplier Verification of Compliance Form prior to issuing the purchase order.
Apparel Product Suppliers List* [1]

*The following suppliers have submitted the Supplier Verification of Compliance Form to the University of Guelph and completed the University’s Code of Ethical Conduct compliance verification process.
