Password Help

As a member of the U of G community you have access to a number of products and services that require login credentials. Your Central Login Account [1] will give you access to most services offered by CCS plus Web Advisor, however other U of G [2] services may require separate login authorization such as those provided by Open Learning.

Students, faculty, and staff that have a Campus ID @ uoguelph.ca can contact the CCS Help Desk at 519-824-4120 x 58888 for assistance with resetting their password.
