Campus E.A. Perimeter Project

The Physical Resources department has initiated an Electronic Access (E.A.) project to enhance the perimeter security of the University main campus buildings. The current phase of construction is subject to funding and commences September of 2017 with completion scheduled for early 2018. Additional information confirming scope and schedule will be forthcoming shortly.

The tentative list of buildings contained within the 2017 phase of the project are *in no specific order*.
