

University of Guelph
SCHOOL OF ENGINEERING
Semester:

The Safety Committee requires that All students enrolled in ENGG*41x0 who need to work in a lab or who are doing field work must complete the shaded areas of this form and complete a Project Outline. Completed forms are to be submitted to the Lab Manager Philip Watson in Room 1175 located in the machine shop before any laboratory, field or shop work begins.

The Project Outline should adhere to the following format:

- 1) introduces and describes the work to be completed
- 2) lists the equipment to be used
- 3) lists any chemicals or bio-hazardous materials being used and includes MSDS sheets for the substances
- 4) identifies any dangers of the work to be completed
- 5) identifies what will be done to reduce the dangers of the work to be completed
- 6) includes steps to be taken in the case of an emergency
- 7) the outline needs to be signed by your advisor and the technician in charge of the lab
- 8) resubmit the Project Outline if protocols change
