1 INSTRUCTIONAL SUPPORT

1.1 Instructor
Instructor: Mario Martinez Martinez, Ph. D.
Office: Richards 3501
Email: mario.martinez@uoguelph.ca
Office hours: TBA on Courselink or by appointment

1.2 Lab Technician
Technician: Jacqueline Fountain
Office: THRN 1102, ext. 56676
Email: fountain@uoguelph.ca

1.3 Teaching Assistants
Harjeet Singh Brar (brarh@uoguelph.ca)

2 LEARNING RESOURCES

2.1 Course Website
Course materials, news, announcements, and grades will be regularly posted to the ENGG*3830 Courselink site. You are responsible for checking the site regularly.
2.2 Required Resources

  http://www.nzifst.org.nz/unitoperations

2.3 Recommended Resources

2.4 Additional Resources

Lecture Information:
All lecture notes will be posted on courselink.

Lab Information:
The handouts for all the lab sessions will be given out at the lab.

Assignments:
Five assignments will be given out on various topics. Solutions of all the assignments will be made available on the course web page the following week.

2.5 Communication & Email Policy:

Please use lectures and lab help sessions as your main opportunity to ask questions about the course. Major announcements will be posted to the course website. It is your responsibility to check the course website regularly. As per university regulations, all students are required to check their <mail.uoguelph.ca> e-mail account regularly: e-mail is the official route of communication between the University and its student.
3 ASSESSMENT

3.1 Dates and Distribution

Assignments: 25%
- 5% - Assignment 1
- 5% - Assignment 2
- 5% - Assignment 3
- 5% - Assignment 4
- 5% - Assignment 5

Project: 25%
- 20% - written report (due on November 02, 2017)
- 5% - oral presentation in class or tutorial after submission of written report (date(s) to be announced on CourseLink or in class)

Note: Both paper and electronic copies are to be submitted

Final Exam: 50%
- Thursday, Dec 14, 2017
- 1130hr -1330hr, Room TBA on WebAdvisor

3.2 Course Grading Policies

Missed Assessments: If you are unable to meet an in-course requirement due to medical, psychological, or compassionate reasons, please email the course instructor. See the undergraduate calendar for information on regulations and procedures for Academic Consideration: http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-ac.shtml

Accommodation of Religious Obligations: If you are unable to meet an in-course requirement due to religious obligations, please email the course instructor within two weeks of the start of the semester to make alternate arrangements. See the undergraduate calendar for information on regulations and procedures for Academic Accommodation of Religious Obligations: http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-accomrelig.shtml

Passing grade: In order to pass the course, you must pass the final exam portion of the course portions. Students must obtain a grade of 50% or higher on the exam portion of the course in order for the remaining portions of the course to count towards the final grade.

Missed quiz/test: If you miss a quiz/test due to grounds for granting academic consideration or religious accommodation, the weight of the missed quiz/test will be added to the final exam. There will be no makeup quizzes/tests.

Lab Work/ Tutorials: You are requested to attend all laboratories/Tutorials.
4 AIMS, OBJECTIVES & GRADUATE ATTRIBUTES

4.1 Calendar Description

Application of engineering principles to the processing of biological products in the biological and food industry. Analysis and design of unit processes such as sedimentation, centrifugation, filtration, milling and mixing involving rheology and non-Newtonian fluid dynamics of biological materials. Analysis of heat and mass balances for drying evaporation, distillation and extraction.

Prerequisite(s): ENGG*2230, ENGG*2660
Corequisite(s): ENGG*3260

4.2 Course Aims

The aim of this course is to familiarize the students with different unit operations used in biological engineering, bioprocess engineering and food engineering. The students will learn to use different engineering techniques and system analysis tools to analyze, appraise and design these unit operations involving heat and mass transfer, mixing and separation technologies.

4.3 Learning Objectives

After successfully completing the course, students will have demonstrated the ability to:

1. Analyze unit operations for biological processes using the techniques of engineering and system analysis
2. Appraise and quantify processes used for the recovery of biological materials in unit operations
3. Explain and design unit operations involving simultaneous heat and mass transfer

4.4 Graduate Attributes

Successfully completing this course will contribute to the following CEAB Graduate Attributes:

<table>
<thead>
<tr>
<th>Graduate Attribute</th>
<th>Learning Objectives</th>
<th>Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Knowledge Base for Engineering</td>
<td>1, 2, 3</td>
<td>Exam, Project</td>
</tr>
<tr>
<td>2. Problem Analysis</td>
<td>-</td>
<td>Exam, Project</td>
</tr>
<tr>
<td>3. Investigation</td>
<td>-</td>
<td>Exam, Project</td>
</tr>
<tr>
<td>4. Design</td>
<td>-</td>
<td>Project</td>
</tr>
<tr>
<td>5. Use of Engineering Tools</td>
<td>1, 2, 3</td>
<td>Exam</td>
</tr>
<tr>
<td>6. Communication</td>
<td>-</td>
<td>Project</td>
</tr>
<tr>
<td>7. Individual and Teamwork</td>
<td>2, 3</td>
<td>-</td>
</tr>
</tbody>
</table>
8. Professionalism - -
9. Impact of Engineering on Society and the Environment - Exam
10. Ethics and Equity - -
11. Environment, Society, Business, & Project Management - Project
12. Life-Long Learning - Project

### 4.5 Instructor’s Role and Responsibility to Students

The instructor’s role is to develop and deliver course material in ways that facilitate learning for a variety of students. Selected lecture notes will be made available to students on CourseLink/D2L but these are not intended to be stand-alone course notes. During lectures, the instructor will expand and explain the content of notes and provide example problems that supplement posted notes. Scheduled classes will be the principal venue to provide information and feedback for tests and project.

### 4.6 Students’ Learning Responsibilities

Students are expected to take advantage of the learning opportunities provided during lectures and tutorials. Students, especially those having difficulty with the course content, should also make use of other resources recommended by the instructor. Students who do (or may) fall behind due to illness, work, or extracurricular activities are advised to keep the instructor informed. This will allow the instructor to recommend extra resources in a timely manner and/or provide consideration if appropriate.

### 4.7 Relationships with other Courses & Labs

**Previous Courses:**
- ENGG*2230: Application of the conservation of mass and energy laws
- ENGG*2660: Using a “systems” approach for problem investigation and analysis

**Same Semester Courses:**
- ENGG*3260: Foundations of thermodynamics

**Follow-on Courses:**
- ENGG*4300: Foundations of food processing design
- ENGG*4380: Foundations of bioreactor design
- ENGG*4110: Foundations of bioprocessing for related 41X project
5 Teaching and Learning Activities

5.1 Timetable

Lectures:
- **Tuesday**: 1430hr – 1550hr, ROZH 108
- **Thursday**: 1430hr – 1550hr, ROZH 108

Tutorials/Demo Laboratory:
- **Monday**: 1330hr - 1420hr, THRN 109 or 1104 (TBA on CourseLink or in class)

5.2 Lecture Schedule

The following is the general breakdown of topics that will be covered on any given week. There may be variations depending students’ interest.

<table>
<thead>
<tr>
<th>Week</th>
<th>Lecture Topics</th>
<th>References</th>
<th>Learning Objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>

</tr>
</tbody>
</table>

Additional topics if time permits

5.3 Tutorial/Demo Lab Schedule

TBA on CourseLink or in class.

5.4 Lab Schedule

Not applicable
5.5 Other Important Dates

07 September 2017, Thursday: First day of class
09 October 2017, Monday: Thanksgiving holiday
10 October, 2017, Tuesday: Study break day
03 November 2017, Friday: 40th class day, last day to drop classes
29 November 2017, Wednesday: Last day of class (Monday schedule in effect)

6 LAB SAFETY

Safety is critically important to the School and is the responsibility of all members of the School: faculty, staff and students. As a student in a lab course you are responsible for taking all reasonable safety precautions and following the lab safety rules specific to the lab you are working in. In addition, you are responsible for reporting all safety issues to the laboratory supervisor, GTA or faculty responsible.

7 ACADEMIC MISCONDUCT

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community faculty, staff, and students to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University’s policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member.

7.1 Resources

The Academic Misconduct Policy is detailed in the Undergraduate Calendar:
http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08-amisconduct.shtml

A tutorial on Academic Misconduct produced by the Learning Commons can be found at:
http://www.academicintegrity.uoguelph.ca/

Please also review the section on Academic Misconduct in your Engineering Program Guide.

The School of Engineering has adopted a Code of Ethics that can be found at:
http://www.uoguelph.ca/engineering/undergrad-counselling-ethics
8 ACCESSIBILITY

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability for a short-term disability should contact the Centre for Students with Disabilities as soon as possible.

For more information, contact CSD at 519-824-4120 ext. 56208 or email csd@uoguelph.ca or see the website: http://www.uoguelph.ca/csd/

9 RECORDING OF MATERIALS

Presentations which are made in relation to course work—including lectures—cannot be recorded or copied without the permission of the presenter, whether the instructor, classmate or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

10 RESOURCES

The Academic Calendars are the source of information about the University of Guelph’s procedures, policies and regulations which apply to undergraduate, graduate and diploma programs: http://www.uoguelph.ca/registrar/calendars/index.cfm?index
