Logging in to the Engineering Remote Lab system

1. If you are connecting from off-campus, connect with the University of Guelph VPN first.
2. Visit https://remotelab.soe.uoguelph.ca and login with your central username and password:

![Login Screen](image)

3. Select a workstation under “Engineering Remote Access” on the main screen:

![Workstation List](image)
4. The session will open in your browser window:

![Browser Window]

5. Be sure to log out when you’re done:
