Experiential Learning (EL) at the University of Guelph means learning through action. Whether inside or outside of the classroom, EL activities provide you with the opportunity to apply your course material to real-world, meaningful contexts. Through EL, you can take control of your learning by acquiring new knowledge and concrete experiences that prepare you for the future.

Note: Consult the course section of the current academic calendar for detailed course descriptions, prerequisites, and restrictions. Courses listed may not always be offered and are subject to change. Consult with offering departments for current availability.

**Applied Research**

An applied research course allows you to conduct research under faculty guidance in an academic, industry, or community setting.

- AHSS*3050 - Canadian Social Problems
- KIN*3090 - Field Placement I
