Bachelor of Applied Science – Applied Human Nutrition, University of Guelph

Information for Graduates of non-dietetics programs/
Students currently in non-dietetics programs/
Graduates of dietetics programs requiring upgrading

Revised November 2017

Thank you for considering the Applied Human Nutrition (AHN) major in the Bachelor of Applied Science (BASc) degree program at the University of Guelph and a description of the major and course requirements may be found at the following link:

https://www.uoguelph.ca/registrar/calendars/undergraduate/current/c10/c10basc-ahn.shtml

This dietetic education program is an accredited program recognized by the Partnership for Dietetic Education and Practice (PDEP) and prepares students for eligibility for registration with provincial dietetics regulatory body. Further details may be found at the following link: http://www.pdep.ca. Upon successful completion of the AHN program with an Area of Emphasis in Dietetics, you may be eligible to apply for a dietetic internship which can lead to Registered Dietitian (RD) status.

The most direct route to becoming a dietitian for English–speaking students in Ontario is to complete an undergraduate degree in dietetics from one of the four DC accredited programs (Ryerson, Brescia, Ottawa or Guelph), followed by a post-baccalaureate dietetic internship. After successful completion of the internship, applicants are eligible to write the Canadian Dietetic Registration Examination administered by the College of Dietitians of Ontario, http://www.collegeofdietitians.org/.

Graduates of non-dietetics programs or students currently in non-dietetics programs must apply to the BASc program in AHN as a transfer student.

Applying to the University of Guelph as a transfer student
Admissions: https://admission.uoguelph.ca/home.aspx
Interim BASc Admissions Counsellor, Donna Reimer
   • Email: dreimer@uoguelph.ca
   • Phone: 519-824-4120 - Ext. 56062
Advanced Standing Admission: https://admission.uoguelph.ca/advstandingcollege

Academic Assessment
The exact determination of what is required to complete a BASc degree in Applied Human Nutrition will only occur after an individual has been accepted into the program.

Graduates of DC accredited programs who require upgrading
Individuals who completed an undergraduate degree from a DC accredited program in dietetics more than three years ago and who now wish to apply for an internship must upgrade their qualifications. The DC website has information about how to arrange for an upgrading assessment for graduates of DC accredited undergraduate programs.
