
Non-Competitive Procurement and Exemptions

The Directive recognizes that special circumstances may require the use of non-competitive procurement. Those special circumstances are categorized as:

1. [Situations where non-application clauses of the AIT exist](#) [1]
2. [Situations for single sourcing](#) [1]
3. [Situations for sole source](#) [1]

Prior to commencement of non-competitive procurement, supporting documentation must be approved by an appropriate authority within the Organization.

Non-competitive procurement must be approved by an authority one level higher than the authority level of competitive procurement of the same dollar value.
