Current Competitive Bidding Opportunities

University of Guelph Public Purchasing Portal [1]

For purchases valued at $121,000 or more, the University of Guelph uses open competitive processes to select suppliers.

To view all current open competitive opportunities, visit the Public Purchasing Portal.

Competitive documents can be downloaded, and responses uploaded at the portal. All amendments and updates will be published with the event documentation.

A free account can be created by suppliers and there is no cost to download or submit documents.

All competitive events are posted both on the portal and on MERX. The notice only is posted on MERX with a link back to the portal. Both sites have automatic notification features based on categories of events and can send out alerts based on supplier preferences.

For information about these bid solicitation platforms including fees and how to set up a user account, please inquire with Bonfire http://www.gobonfire.com [2] and MERX https://www.merx.com [3] directly.

All contract awards are posted on Bonfire. Log in and check the award status. When a contract award notice is posted, information on debrief sessions will be included.
