## **December 2015 Endowment Quarterly Investment Report**

Performance Review

University of Guelph Endowment Funds

4th Quarter 2015

Prepared by:

Pavilion Advisory Group Ltd. 1250 René-Lévesque Blvd. West. Suite 4030 Montreal, Quebec H3B 4W8 Canada

#### **Endowment Funds Results Overview**

(Gross Returns for the 12 months ended December 31st, 2015)

The Total Endowment Funds returned 2.9% for the last 12 months versus 8.6% for the benchmark.

#### Canadian Equity

- The Canadian equity portfolio lost 11.7% over the past year, 3.4% below the return of the S&P/TSX index.
- Both the Endowment's Canadian equity managers (Burgundy, Sionna) underperformed the index for the year. However, Burgundy is responsible for the bulk of the underperformance, with lower returns and a higher dollar allocation.
- The lack of dedicated small cap exposure helped returns as small caps underperformed large caps by more than 5.5% over the past year.

#### Non-North American Equity

- In Canadian dollars, non-North American equities outperformed Canada but lagged the U.S. with a return of 19.0% for developed markets. Emerging markets gained 2.5% over the past year.
- The developed markets managers (with 21.7% of the total Endowment funds) performed inconsistently over the past year. LSV beat the MSCI EAFE by 2.2%, while Tweedy Browne lagged by a wider 4.1%.
- The emerging markets manager (LSV) lagged the MSCI Emerging Markets index by 6.1% over the past year, although it outperformed from 2012 to 2014.

### U.S. Equity

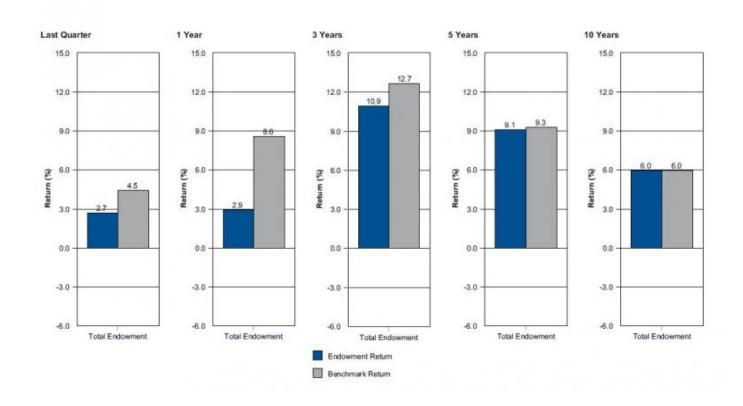

- U.S. equity markets performed extremely well in Canadian dollar terms with a 1-year return of 21.7% for the S&P500.
- However, the Endowment's U.S. equity investments did not perform as well, with a return of 16.2%.
- The U.S. large cap manager (Fiduciary) lagged the S&P 500 index by 3.6%, and the mid cap mandate managed by Wedge lagged its benchmark by 1.3%. The sole outperformer was Wedge's small cap strategy, which beat the Russel 2000 Value Index by 5.0% over the past year.

#### Fixed Income

- The Canadian fixed income portfolio is indexed to the FTSE TMX Universe and, as expected, closely matched its return of 3.5%.
- The cash return was negative due to losses on internal foreign exchange transactions.
- The infrastructure portfolio managed by Brookfield outperformed its index by 26.8% in 2015, largely thanks to a falling Canadian dollar over the period.
- Currency hedging, which is implemented for risk control rather than to generate returns, was a drag on performance over the past year as it cost the portfolio 4.8%.
