Do I need to purchase the rental company's insurance?

If you are renting a vehicle through Enterprise the insurance is already included in the price, as long as the vehicle is in the following cities: Guelph, Kitchener, Waterloo, and Cambridge. If you are renting outside of these cities, or through another car agency you must purchase the additional insurance at the time of the rental.

It is the responsibility of the individual renting the vehicle to ensure that the loss waiver is included in the rental agreement in all circumstances.
