

**PENSION FUND OF THE PENSION PLAN FOR  
NON-PROFESSIONAL STAFF  
OF THE UNIVERSITY OF GUELPH**

For the Year Ended September 30, 2015

## INDEPENDENT AUDITORS' REPORT

To the Pension Committee of the  
**Pension Fund of the Pension Plan for Non-Professional Staff of the University of Guelph**

We have audited the accompanying financial statements of the **Pension Fund of the Pension Plan for Non-Professional Staff of the University of Guelph** [Ontario Registration Number 0324632], which comprise the statement of net assets available for benefits as at September 30, 2015, and the statement of changes in net assets available for benefits for the year then ended, and a summary of significant accounting policies and other explanatory information. The financial statements have been prepared by management based on the financial reporting provisions of Regulation 909, Section 76 of the Pension Benefits Act (Ontario).

### **Management's responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Regulation 909, Section 76 of the Pension Benefits Act (Ontario), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, these financial statements present fairly, in all material respects, the net assets available for benefits of the **Pension Fund of the Pension Plan for Non-Professional Staff of the University of Guelph** as at September 30, 2015, and the changes in its net assets available for benefits

for the year then ended in accordance with the financial reporting provisions of Regulation 909, Section 76 of the Pension Benefits Act (Ontario).

**Basis of accounting and restriction on use**

Without modifying our opinion, we draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared to assist the Pension Committee to meet the requirements of the Financial Services Commission of Ontario. As a result, the financial statements may not be suitable for another purpose. Our report is intended solely for the Pension Committee and the Financial Services Commission of Ontario and should not be used by parties other than the Pension Committee or the Financial Services Commission of Ontario.

On behalf of the Pensions Committee:

**Pension Fund of the Pension Plan for Non-Professional Staff  
of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

## **1. Description of Plan**

The following description of the Pension Plan for Non-Professional Staff of the University of Guelph (the "Plan") is a summary only. For more complete information, reference should be made to the Plan Text.

### **General**

The Plan is a contributory defined benefit pension plan and is registered with Canada Revenue Agency and the Financial Services Commission of Ontario ("FSCO") (registration #0324632). The Plan holds units in the Master Trust of the University of Guelph Pension Plans. The Plan is integrated with the Canada Pension Plan ("CPP").

### **Plan Eligibility**

The Plan covers all regular full-time, temporary full-time and certain part-time employees who are not eligible to become a member of another registered pension plan sponsored by the University and who were hired on or after October 1, 2014 and who are Members of OSSTF, UGFSEA Unit 1 or UGFSEA Unit 2. Temporary full-time and certain part-time employees may be eligible to join the Plan after 24 months of continuous months of employment with the University of Guelph.

For greater certainty, an employee who was not a member of the Plan on July 1, 1981 was not permitted to join the Plan on or before October 1, 2014 but could elect to become a member of the Retirement Plan in accordance with the terms of that plan.

### **Service Pensions**

A service pension is available based on the number of years of service, to a maximum of 35 years, times the sum of 1.267% (1.367% for USW Local 4120 members, Exempt Group members and CUPE 1334 members) of the best average earnings up to the average CPP year's maximum pensionable earnings ("YMPE") and 1.667% of the difference between the average CPP YMPE and best average earnings. Best average earnings are based on the employee's best 36 consecutive months of earnings. The normal retirement age is 65.

### **Survivor Pensions**

A survivor pension is paid to a spouse, a dependent child, or a named dependent of a plan member if so elected by the plan member.

### **Refunds**

A death refund is payable to the estate of a pensioner or survivor where such pensions have not been paid to the full extent of contributions plus interest. Similarly, a death refund is payable to the named beneficiary of the estate of a plan member where no survivor pension is paid.

A withdrawal refund is payable when the University of Guelph receives an application, subject to lock-in provisions, from a plan member who ceases to be employed by the University of Guelph. The amount of the payment is determined in accordance with actuarial calculations.

### **Vesting**

Pension benefits vest in the plan member immediately upon joining the Plan.

**Pension Fund of the Pension Plan for Non-Professional Staff  
of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

**1. Description of Plan (continued)**

**Income Taxes**

The Plan is a Registered Pension Plan as defined in the Income Tax Act (Canada) and, as such, is exempt from income taxes.

**Funding Policy**

Effective October 1, 2014, the Non-Professional Pension Plan was reopened for eligible employees hired on or after the effective date. In accordance with the Plan Text, plan members are required to contribute to the Plan. Changes to contribution rates occurred in accordance with negotiated agreements as of the effective dates of change reflected below:

Employee Group	% Premium on Earnings Below YMPE		% Premium on Earnings Above YMPE		Effective Date of Change
	Rate at		Rate at		
	Beginning of Year	Rate after Change	Beginning of Year	Rate after Change	
OSSTF	6.91	6.91	8.25	8.25	1-Jan-14
UGFSEA Unit 1	6.55	6.55	8.25	8.25	1-Aug-13
UGFSEA Unit 2	6.55	6.55	8.25	8.25	1-Aug-13

The University of Guelph is required to provide any additional funding, based on actuarial valuations (the most recent actuarial valuation filed with FSCO was prepared as of August 1, 2013), necessary to ensure that defined benefits will be fully provided for at retirement. There were no required contributions past due at September 30, 2015.

**2. Significant Accounting Policies**

**Basis of accounting**

The financial statements have been prepared in accordance with the significant accounting policies set out below that comply with the financial reporting provisions prescribed by FSCO for financial statements under Regulation 909, Section 76 of the Pension Benefits Act of the Province of Ontario. The basis of accounting used in these financial statements materially differs from Canadian accounting standards for pension plans in Section 4600, Pension Plans, in Part IV of the Chartered Professional Accountants of Canada ("CPA Canada") Handbook because it excludes the Plan's pension obligations and related disclosures. Consequently, these pension fund financial statements do not purport to show the adequacy of the Plan's assets to meet its pension obligations. These financial statements present the information of the Plan as a separate reporting entity independent of the Sponsor and Plan participants.

In accordance with Section 4600, Canadian accounting standards for private enterprises in Part II of the CPA Canada Handbook have been adopted for policies that do not relate to the Plan's investment portfolio to the extent that those standards do not conflict with the requirements of Section 4600.

**University of Guelph Master Trust**

**a. Investments**

The assets of the Plan are administered in a Master Trust, which includes the assets of other University of Guelph pension plans. The unit value of the Master Trust is calculated based on the fair value of the underlying investments of the Master Trust. Each of the University of Guelph pension

**Pension Fund of the Pension Plan for Non-Professional Staff  
of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

**2. Significant Accounting Policies (continued)**

plans' interest in the Master Trust is calculated based on the units held by each of the plans. Investments and investment-related liabilities within the Master Trust are carried at fair value. Details of investments and investment-related liabilities are presented in Note 6. Purchases and sales of investments are recorded by the Master Trust on a trade date basis and transaction costs are expensed as incurred. Fair value is the price that would either be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In an active market, fair value is best evidenced by an independent quoted market price. In the absence of an active market, fair value is estimated based on market conditions at a specific point in time and may not be reflective of future fair values. Fair values of investments within the Master trust are determined as follows:

- i. Cash, cash equivalents and short term investments are valued based on cost plus accrued interest, which approximates fair value.
- ii. Bonds, equities and derivative financial instruments are valued based on quoted closing market prices. If quoted closing market prices are not available for bonds and equities, fair value is determined using observable market data.
- iii. Investments in pooled fund real estate are valued at their reported net asset value per unit.
- iv. Private equities are valued based on estimated fair values determined by using appropriate techniques and best estimates by management, appraisers or both.

**b. Increase in fair value of investment in Master Trust**

Investment income comprises of interest income, recognized as it accrues, plus dividend income, recognized as of the ex-dividend date. Net realized gain on sale and settlement of investment assets and liabilities during the year represents the difference between sale or settlement proceeds and cost. Net change in unrealized gains (losses) on investment assets and liabilities represents the change in the difference between the fair value and cost of investment assets and liabilities at the beginning and end of the year. All realized gains and losses and net changes in unrealized gains and losses on investment assets and liabilities are recorded in the year in which they occur. The Plan's increase in fair value of investment in Master Trust is calculated based on the units held by each plan in the Master Trust.

**c. Foreign currency translation**

Investments denominated in foreign currencies are translated into Canadian dollars at the rate of exchange at the year end. Transactions denominated in foreign currencies are translated into Canadian dollars at the rate of exchange on the date of the related transactions.

**Contributions, benefit payments, refunds and transfers out**

Contributions, benefit payments, refunds and transfers out are recorded on an accrual basis.

**Use of estimates**

The preparation of financial statements requires the Plan's administrator to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements, and the reported amounts of increases and decreases in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

### **3. Investment Risk Management**

The objective of the Plan is to achieve medium to long-term growth of its investment portfolio to provide the Plan with assets sufficient to meet the Plan's pension benefit obligations. The Plan invests in the Master Trust. The investments of the Master Trust are primarily exposed to market risk (which includes interest rate risk, currency risk and other price risk), credit risk and liquidity risk. To manage these risks within reasonable risk tolerances, the Master Trust, through each plan, has an investment policy in place. The investment policy is established by the Board of Governors and set out in the Statement of Investment Policies and Procedures ("SIPP").

The allocation of assets among the various types of investments and the performance of investments are monitored by the investment managers on a monthly basis and are reviewed by the Investment Subcommittee on a quarterly basis.

The Pensions Committee oversees how management monitors compliance with risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the long-term objectives of the Plan.

#### **a. Market Risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

The Master Trust's exposure to market risk is affected by changes in the level or volatility of market rates or prices, such as interest rates, foreign exchange rates and equity prices. The sensitivity analyses provided below disclose the impact on the Plan's net assets available for benefits as at September 30, 2015. The sensitivity analyses provided are hypothetical and should be used with caution as the impacts provided are not necessarily indicative of the actual impacts that would be experienced as the Plan's actual exposure to market rates may change. Changes in fair values or cash flows based on a variation in a market variable cannot be extrapolated because the relationship between the change in a market variable and the change in fair value or cash flows may not be linear. In addition, the effect of a change in a particular market variable on fair values or cash flows is calculated without considering interrelationships between the various market rates or mitigating actions that would be taken by the Master Trust.

##### **i. Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Master Trust is subject to interest rate risk through its holdings of variable interest rate instruments. The SIPP contains guidelines related to investments in interest bearing instruments, which address credit concentration, duration and distribution. These guidelines are designed to mitigate the interest rate risk at a level deemed acceptable by the Pensions Committee.

As at September 30, 2015, duration and yield to maturity were 7.41 years and 2.10% (2014 - 7.08 years and 2.47%), respectively for the Master Trust's fixed income portfolio.

As at September 30, 2015, had market interest rates increased or decreased by 1% with all other variables held constant, the impact on the Plan's net assets available for benefits would have been a decrease or increase of \$0.4 million (2014 - \$0.3 million), respectively.

**Pension Fund of the Pension Plan for Non-Professional Staff  
of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

**3. Investment Risk Management (continued)**

ii. Currency risk

The Master Trust holds assets denominated in currencies other than the Canadian dollar, the Master Trust's functional currency. It is therefore exposed to currency risk as the value of the financial instruments denominated in other currencies will fluctuate due to the changes in exchange rates. The Plan administrator manages this risk through the use of foreign currency forward contracts, see Note 6(d).

The following sensitivity analysis summarizes the impact on the Plan's net assets available for benefits as at September 30, assuming a 5% absolute change in foreign currency exchange rates, for each currency to which the Plan has a significant exposure:

[in thousands of dollars]	2015	2014
United States Dollar	102	95
Euro	25	24
Great Britain Pound	14	15
Swiss Franc	11	10
Japanese Yen	10	10
Other currencies	15	18
	177	172

iii. Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. These investments are in the form of equity securities directly held by the Master Trust. The SIPP established a range of 55% to 75% for total equities. The Plan administrator adjusts the investment mix in the portfolio in response to changes in market conditions.

The following sensitivity analysis summarizes the impact on the Plan's net assets available for benefits as at September 30, assuming a 10% absolute change in equity prices for each stock market benchmark to which the Plan has a significant exposure:

[in thousands of dollars]	Stock Market Benchmark	2015	2014
Canadian equities	S&P/TSX Composite	376	406
U.S. equities	S&P 500 (\$Cdn)	413	369
International equities	MSCI EAFE Net (\$Cdn)	308	290
		1,097	1,065

**b. Credit risk**

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Master Trust manages credit risk through the application and monitoring of its SIPP. The Master Trust assesses all counterparties for credit risk before contracting with them.

**Pension Fund of the Pension Plan for Non-Professional Staff  
of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

**3. Investment Risk Management (continued)**

The credit ratings of the fixed income portfolio in the Master Trust as at September 30 is as follows:

[in thousands of dollars]	2015		2014	
Credit ratings	\$	%	\$	%
AAA	157,414	42.1%	154,759	43.6%
AA	89,806	24.0%	80,390	22.6%
A	90,313	24.1%	87,055	24.5%
BBB	36,286	9.7%	32,563	9.2%
Not Rated	350	0.1%	350	0.1%
	<u>374,169</u>	<u>100.0%</u>	<u>355,117</u>	<u>100.0%</u>
Plan's share (\$)	<u>5,118</u>		<u>4,871</u>	
Plan's share (%)	<u>1.4%</u>		<u>1.4%</u>	

**c. Liquidity risk**

Liquidity risk is the risk that the Plan may be unable to meet obligations in a timely manner. In addition to recurring expenses, the Plan is called upon to meet regular pension benefit payments as well as lump sum transfers and refunds that may occur upon retirement or termination of qualifying Plan members. The risk that the Plan would be unable to meet such obligations is managed through the Plan's ongoing monitoring of the individual investment managers and in their ability to liquidate investments in which the Plan has invested. The risk in this area is assessed by the Plan to be insignificant.

A maturity analysis of the fixed income investments in the Master Trust as at September 30 is as follows:

[in thousands of dollars]				2015
Interest bearing instrument	0 to 5 years	6 to 10 years	Over 10 years	Total
Canada	66,555	32,622	30,368	129,545

of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

**4. Fair Value Measurement**

The Plan is required to disclose, for each class of financial instruments, the methods and, when a valuation technique is used, the assumptions applied in determining fair values, through a three-level hierarchy, as at the financial statement date. The three levels are defined as follows:

**Level 1** - Fair value is based on quoted market prices in active markets for identical assets or liabilities. Level 1 assets and liabilities generally include equity securities traded in an active exchange market.

**Level 2** - Fair value is based on observable inputs other than Level 1 prices, such as quoted market prices for similar (but not identical) assets or liabilities in active markets, quoted market prices for identical assets or liabilities in markets that are not active, and other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. This category generally includes mutual and pooled funds, hedge funds, Government of Canada, provincial and other government bonds, Canadian corporate bonds, and certain derivative contracts.

**Level 3** - Fair value is based on non-observable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This category generally includes private equity investment interests (which are comprised of private, externally managed pooled funds with underlying investments in equities, real estate and commodities) and securities that have liquidity restrictions.

[in thousands of dollars]	Level 1	Level 2	Level 3	2015 Total
<b>Canadian</b>				
Cash and cash equivalents		9,343		9,343
Bonds and debentures		373,819	350	374,169
Equities	274,620			274,620

	<u>776,256</u>	<u>411,097</u>	<u>52,216</u>	<u>1,239,569</u>
Plan's share (\$)	<u>10,648</u>	<u>5,638</u>	<u>716</u>	<u>17,002</u>

**Pension Fund of the Pension Plan for Non-Professional Staff  
of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

**4. Fair Value Measurement (continued)**

During the year ended September 30, 2015 the Master Trust's Level 3 fair value measurements increased by \$7.0 million (2014 - \$20.5 million). The following table presents the reconciliation of Level 3 fair value measurements of the Master Trust as at September 30:

[in thousands of dollars]	<b>2015</b>	<b>2014</b>
<b><i>Opening Balance</i></b>	52,216	31,709
Purchases	3,858	17,101
Change in fair value during the year	<u>3,159</u>	<u>3,406</u>
<b><i>Ending Balance</i></b>	<u>59,233</u>	<u>52,216</u>
 Plan's share (\$)	 <u>810</u>	 <u>716</u>

There have been no transfers in Level 3 assets in 2015 or 2014.

**5. Management of Capital**

The capital of the Plan is represented by the net assets available for benefits. The University of Guelph's objective when managing the Plan's capital is to safeguard the Plan's ability to continue as a going concern and to maintain adequate assets to support the Plan's pension obligations. The SIPP states investment objectives, guidelines and benchmarks used in investing the capital of the Plan, permitted categories of investments, asset-mix diversification and rate of return expectations. The SIPP was last amended effective June 4, 2015 with a few minor changes.

The SIPP outlines the Plan's long-term (five to ten-year period) return objective of a total rate of return at least equal to the going concern discount rate used in the Plan's funding valuation (currently 6.0%). In order to achieve the long-term return objective, the Plan has a target return, net of all brokerage expenses but before all other fees, over moving four-year periods at least equal to a composite index made up of passive investments in appropriate market indices. The asset mix targets and ranges, prescribed by the SIPP, along with the respective benchmarks are as follows:

<u>Component Asset Classes</u>	<u>Benchmark Index</u>	<u>% of Total Assets at Fair Value</u>			
		<u>Target Weight</u>		<u>Permitted Range</u>	
		<u>Interim</u>	<u>Final</u>	<u>Low</u>	<u>High</u>
Canadian equities	S&P/TSX Composite	25%	20%	15%	35%
U.S. equities	S&P 500 (\$Cdn)	20%	20%	15%	25%
International equities	MSCI EAFE Net (\$Cdn)	20%	20%	15%	25%
Total equities		65%	60%	55%	75%
 Real estate and infrastructure	 IPD Canada Property Index	 5%	 10%	 0%	 20%
Fixed income	DEX Universe	28%	28%	23%	38%
Cash and cash equivalents	DEX 91-Day T-Bill	2%	2%	0%	15%
Total fixed income and cash and cash equivalents		30%	30%	25%	40%

The Master Trust's investments fell within the asset mix category ranges as at September 30, 2015.

**Pension Fund of the Pension Plan for Non-Professional Staff  
of the University of Guelph  
Notes to the Financial Statements  
For the Year Ended September 30, 2015**

---

**6. Investment in Master Trust**

The Plan is invested in the Master Trust of the University of Guelph Pension Plans. Each of the University of Guelph's pension plans holds units of the Master Trust. As at September 30, 2015, the Plan's investment in the Master Trust consisted of 1.4% (2014 - 1.4%) of the total fair value of outstanding units of the Master Trust. The Plan's investment in the Master Trust had a fair value of \$17.3 million (2014 - \$17.1 million) and its share of the cost of Master Trust investments was \$15.3 million (2014 - \$13.8 million) at September 30, 2015. The Plan's share of the Master Trust's unrealized gain at September 30, 2015 was \$2.0 million (2014 - \$3.3 million).

(a) The fair value of investments in the Master Trust and the Plan's share as at September 30 are as follows:

[in thousands of dollars]	2015	2014
<b>Canadian</b>		
Cash and cash equivalents	9,343	36,908
Bonds and debentures	374,169	355,117
Equities	274,620	296,063
Pooled fund - real estate	58,883	51,866
<b>Foreign</b>		
Cash and cash equivalents	18,406	21,374
Equities	527,053	480,193
Accrued investment income	6,170	5,804
	<u>1,268,644</u>	<u>1,247,325</u>
Future foreign exchange contracts asset (liability)	(4,428)	(1,952)
	<u>1,264,216</u>	<u>1,245,373</u>
<b>Fair value of Master Trust</b>		
Plan's share (\$)	<u>17,294</u>	<u>17,082</u>
Plan's share (%)	<u>1.4%</u>	<u>1.4%</u>

Fluctuations in the comparative figures noted above reflect changes in both asset mix and year end market values of securities held in the Master Trust.

(b) Increase in fair value of investment in Master Trust for the year ended September 30 is summarized as follows:

[in thousands of dollars]	2015	2014
Net realized gain	33,979	78,215
Net change in unrealized gains (losses)	(39,455)	53,919
Net change in fair value of investment assets and liabilities	<u>(5,476)</u>	<u>132,134</u>
Interest income	13,618	11,846
Dividend income		
Canadian	8,578	7,340
Foreign	15,235	16,809
Total investment income	<u>37,431</u>	<u>35,995</u>
	<u>31,955</u>	<u>168,129</u>
Plan's share (\$)	<u>999</u>	<u>2,571</u>

**6. Investment in Master Trust (continued)**

- (c) The following table lists all the investments which have a fair value or cost equal to or greater than 1% of the fair value or cost of the total Master Trust investments as at September 30, 2015:

[in thousands of dollars]	Cost	Fair Value
Canadian bonds and debentures		
Canada Housing Trust	64,286	66,106
Government of Canada	59,369	63,333
Province of Ontario	42,073	45,512
Province of Quebec	24,459	26,460
Canadian equities		
Toronto-Dominion Bank	11,146	14,111
Canadian pooled fund - real estate		
Greystone Real Estate Fund	50,000	58,883
Total	<u>251,333</u>	<u>274,405</u>
Plan's share (\$)	<u>3,438</u>	<u>3,754</u>

- (d) The Master Trust has entered into foreign currency forward contracts to minimize exchange rate fluctuations and the resulting volatility on future financial results. All outstanding contracts have a remaining term to maturity of less than one year. The notional and fair values of these financial instruments are as follows:

[in thousands of dollars]	<u>2015</u>		<u>2014</u>	
	Notional value	Fair value	Notional value	Fair value
United States Dollar	171,119	(3,036)	151,700	(3,570)
Euro	43,826	(501)	37,889	684
Japanese Yen	20,723	(398)	14,051	428
British Pound	22,562	(183)	21,855	(26)
Other	32,445	(310)	29,671	532
	<u>290,675</u>	<u>(4,428)</u>	<u>255,166</u>	<u>(1,952)</u>
Plan's share (\$)	<u>3,976</u>	<u>(61)</u>	<u>3,501</u>	<u>(28)</u>
