Shipping Ticket

Administrators may give users the ability to partially process shipments. This feature is useful for users who want to process a package with UPS CampusShip before they know the actual weight or when the shipment will be complete for processing.

At the time of shipment processing, the user who created the Shipping Ticket or another designated Shipping Ticket processor can access the shipment, enter or modify shipment data, complete the shipment, and print the label when the Ship Now button is selectable.

If you are creating a shipping ticket, in order for someone else to process the ticket and finalize your shipment, select the checkbox to Save as Shipping Ticket.

To review your details, including price before completing your shipment, keep the checkbox selected before completing your shipping ticket or shipment. When complete, select Next.

Note: These UPS CampusShip features are only available if assigned by your Administrator.
Review Shipment Details

When you are satisfied with all shipment details, select the **Ship Now** button and your shipment data will be sent to UPS.
