

Equipment training form - One form per student - Food Science -

Procedure: This form must be completed for all individuals working in laboratories (i.e., employees, students, visiting scientists, volunteers engaged in research, and teaching assistants). The safety training record is to be updated on an ongoing basis as new training is provided. Training activities may be delegated to a qualified individual, however, the supervisor ultimately is responsible and must ensure that this record is updated. The form must be filled in a binder marked "Safety" and housed in a visible location in the lab

Personnel Name		Email Address	
Professor in		Competent Supervisor	
Position		Start Date	

Safety Training	Competent Supervisor Initials/Date	Lab Personnel Initials/Date
