
Graduate Research Assistant Position

Meat Science and Muscle Biology

Food Science Department

University of Guelph

- Positions are available for motivated and creative students seeking graduate education leading to a M.S. degree with a focus on meat science and/or muscle biology
- Successful applicants will participate in research on meat (beef, pork, or poultry) that addresses issues relevant to quality, yield, shelf life, and eating experience
- Successful applicants will become part of a dynamic and supportive research team that values scholarly effort, professionalism, and documented scientific exchange
- For additional information, please contact Benjamin Bohrer
