

2018 Symposium

"Food Fraud: Do you know what you're eating?"

Posters

A systematic review and meta-regression of older consumers' food safety knowledge and behaviours in the home setting

Abhinand Thaivalappil¹ (presenter), Ian Young², Charles Paco³, Apiramy Jeyapalan¹, and Andrew Papadopoulos¹

¹University of Guelph, Guelph, Canada; ²Ryerson University, Toronto, Canada; ³Queen's University, Kingston, Canada

Characterizing the ecology and diversity of bacterial communities from imported Date Fruits to control *Listeria monocytogenes*

Krishna S. Gelda¹, Valeria R. Parreira¹, Jeffrey M. Farber¹

¹ University of Guelph, Ontario Agriculture College (OAC), Department of Food Science

Discovery of novel small molecules/metabolites and/or probiotic strains from plant ecosystem to control foodborne pathogens

Bowornnan Chantapakul^a, Valeria R. Parreira^a, Jeff Farber^a

^a Canadian Research Institute in Food Safety (CRIFS), Department of Food Science, University of Guelph, Ontario

Survival of *Listeria monocytogenes* on pistachios, corn flakes and chocolate liquor stored at 4°C and 23°C

Vivian Ly⁽¹⁾, Valeria R. Parreira⁽¹⁾, Alma Fernanda Sánchez-Maldonado⁽²⁾, Jeff Farber⁽¹⁾

⁽¹⁾ Canadian Research Institute in Food Safety (CRIFS), Department of Food Science, University of Guelph, Ontario; ⁽²⁾ Agri-Neo Inc., Toronto, Ontario

The Evaluation of Droplet Digital Polymerase Chain Reaction (ddPCR) Methods for The Quantification of Genetically Modified Content in Food

Shu Chen¹, Amarsha Sodhi^{1,2}

¹Agriculture and Food Laboratory and the ²Department of Food Science, University of Guelph

UV-C Dose Response of *Cronobacter sakazakii* Using Low Pressure Collimated Beam Device

Mubashira Zaidi¹, Jeffrey Farber¹, Sampathkumar Balamurugan²

¹ Department of Food Science, University of Guelph, Ontario; ² Agriculture and Agri-Food Canada
