Course Learning Outcomes

In this course, we examine the relationship between society and the environment, recognizing that the two are inexorably linked and influence each other. Part I (Units 1-4) of the course examines multiple approaches or perspectives that offer ways of characterizing and addressing environmental challenges. We discuss population and scarcity, political economy, risks and hazards and other concepts or theories. In Part II (Units 5-9), we apply the lessons from Part I to a variety of environmental challenges, such as carbon dioxide, bottled water, wolves and electronic waste. The final units, which make up Part III, introduce environmental governance and includes a week focused on Indigenous peoples and their role in environmental governance, particularly in a Canadian context.

Learning objectives

By the end of this course, you should be able to:

1. Communicate in discipline-specific language;
2. Understand and critically assess multiple theoretical orientations related to environmental studies;
3. Apply theory to real-life environmental challenges;
4. Undertake independent research and communicate the results in a manner appropriate to a second-year university course; and
5. Critically assess written materials, both academic and not.

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The Academic Misconduct Policy is detailed in the Undergraduate Calendar.
