Learning Outcomes

Course Learning Outcomes

Tourism is a major global industry and is essentially geographic, involving the movement of people from one locale (physical, cultural and social) to another. This course takes an integrative perspective on tourism as a global, national, and local phenomenon, addressing diverse interactions between people and places. Emphasis is on experiences derived from the use of resources, the environmental, economic and cultural impacts of tourism, and approaches to managing these impacts (to achieve sustainable tourism). This course focuses on tourism in the developing world, especially new forms of tourism (e.g. ecotourism), and considers theoretical issues of globalization, development theory, sustainability, and power.

By the end of this course, you should be able to:

1. Explain and apply geographical theories and concepts (e.g. globalization, development theories, sustainability, geographical imagination, and power) in relation to international tourism;

2. Compare and assess the opportunities and constraints different actors in the tourism industry face in acting more sustainably (e.g. government, tourists, private sector, local communities);

3. Describe the influence of sustainable development on tourism, compare different perspectives on sustainable tourism, and examine the challenges associated with realizing sustainable tourism in practice;

4. Evaluate the sustainability of contemporary examples of tourism;
5. Effectively communicate your ideas about tourism in both informal and formal written formats; and
6. Appraise your own values and behaviours in relation to tourism and assess your position as a citizen in an inequitable global system.

### Assessment Descriptions

**Online Discussions**

Over the course of the semester, each student will be expected to participate in 4 online discussions with his/her group. Each discussion will focus on a discussion question (or set of questions) and a particular chapter from the required text, as well as any other material noted in the description of each discussion.

**Term Paper Proposal & Annotated Bibliography**

For the term paper assignment, you will write a position paper and argue either for or against one of the following positions: Tourism contributes meaningfully to human well-being; or, tourism effectively supports environmental conservation. In order to present a more robust and nuanced argument for or against one of the position statements, you will need to narrow your focus (to a specific type of tourism, to be chosen from an approved list) and use one region as your case study. The purpose of this assignment is to help you identify a specific argument and focus for your term paper and to begin finding evidence to support this argument.

**Term Paper**

Like a debate, a position paper presents one side of an arguable opinion about an issue. The goal of a position paper is to convince the audience that your opinion is valid and defensible. It is important to ensure that you are addressing all sides of the issue and presenting it in a manner that is easy for your audience to understand. Your job is to take one side of the argument, to persuade your audience that the available evidence supports this argument, and to refute any counterclaims. You need to ensure that your position is well supported with reference to the academic literature.

**Final Exam**
This course requires you to write a traditional sit-down final exam. Final exams are written on campus at the University of Guelph or at alternate locations for students at a distance. The final exam is comprehensive and may consist of a combination of multiple choice questions, short answer questions, and long essay answer questions. There will be some choice among questions requiring written responses.

It is assumed that all DE students will be writing their final examination on campus at the University of Guelph. University of Guelph degree and associate diploma students must check WebAdvisor for their examination schedule. Open Learning program students must check the Open Learning Program Final Examination Schedule for their examination schedule.

If you are studying at a distance, you can request to write your final exam at an alternate location. It is recommended that you make arrangements as early as possible in the semester since changes cannot be guaranteed after the deadline. Exam schedules for off-campus exams will be emailed by Week 9 of the course. For more information, please visit Final Exams.

Communicating with Your Instructor

During the course, your instructor will interact with you on various course matters on the course website using the following ways of communication:

- **Announcements:** The instructor will use Announcements on the Course Home page to provide you with course reminders and updates. Please check this section frequently for course updates from your instructor.

- **Ask Your Instructor Discussion:** Use this discussion forum to ask questions of your instructor about content or course-related issues with which you are unfamiliar. If you encounter difficulties, the instructor is here to help you. Please post general course-related questions to the discussion forum so that all students have an opportunity to review the response. To access this discussion forum, select Discussions from the Tools dropdown menu.

- **Email:** If you have a conflict that prevents you from completing course requirements, or have a question concerning a personal matter, you can send your instructor a private message by email. The instructor will respond to your email within 48 to 72 hours.

- **Skype:** If you have a complex question you would like to discuss with your instructor, you may book a Skype meeting. Skype meetings depend on the availability of you and the instructor, and are booked on a first come first served basis.

Netiquette Expectations

For distance education courses, the course website is considered the classroom and the same protections, expectations, guidelines, and regulations used in face-to-face settings apply, plus other policies and considerations that come into play specifically because these courses are online.
Inappropriate online behaviour will not be tolerated. Examples of inappropriate online behaviour include:

- Posting inflammatory messages about your instructor or fellow students;
- Using obscene or offensive language online;
- Copying or presenting someone else’s work as your own;
- Adapting information from the Internet without using proper citations or references;
- Buying or selling term papers or assignments;
- Posting or selling course materials to course notes websites;
- Having someone else complete your quiz or completing a quiz for/with another student;
- Stating false claims about lost quiz answers or other assignment submissions;
- Threatening or harassing a student or instructor online;
- Discriminating against fellow students, instructors, and/or TAs;
- Using the course website to promote profit-driven products or services;
- Attempting to compromise the security or functionality of the learning management system; and
- Sharing your username and password.

Submission of Assignments to Dropbox

The Term Paper Proposal & Annotated Bibliography and the Term Paper should be submitted electronically via the online Dropbox tool. When submitting your assignments using the Dropbox tool, do not leave the page until your assignment has successfully uploaded. To verify that your submission was complete, you can view the submission history immediately after the upload to see which files uploaded successfully. The system will also email you a receipt. Save this email receipt as proof of submission.

Be sure to keep a back-up copy of all of your assignments in the event that they are lost in transition. In order to avoid any last-minute computer problems, your instructor strongly recommend you save your assignments to a cloud-based file storage (e.g., Google Docs), or send to your email account, so that should something happen to your computer, the assignment could still be submitted on time or re-submitted.

It is your responsibility to submit your assignments on time as specified in the schedule section of this outline. Be sure to check the technical requirements and make sure you have the proper computer, that you have a supported browser, and that you have reliable Internet access. Remember that technical difficulty is not an excuse not to turn in your assignment on time. Don’t wait until the last minute as you may get behind in your work.
If, for some reason, you have a technical difficulty when submitting your assignment electronically, please contact your instructor or CourseLink Support.  
http://spaces.uoguelph.ca/ed/contact-us/

**Late Policy**

If you choose to submit your individual assignments to the Dropbox tool late, the full allocated mark will be reduced by 10% per day after the deadline for the submission of the assignment to a limit of five days at which time access to the Dropbox folder will be closed.

Extensions will be considered for medical reasons or other extenuating circumstances. If you require an extension, discuss this with the instructor as soon as possible and well before the due date. Barring exceptional circumstances, extensions will not be granted once the due date has passed. These rules are not designed to be arbitrary, nor are they inflexible. They are designed to keep you organized, to ensure that all students have the same amount of time to work on assignments, and to help to return marked materials to you in the shortest possible time.

**Obtaining Grades and Feedback**

Unofficial assessment marks will be available in the Grades tool of the course website. Your instructor will have grades posted online within 2 weeks of the submission deadline, if the assignment was submitted on time. Once your assignments are marked you can view your grades on the course website by selecting Grades from the Tools dropdown menu on the navbar. Your course will remain open to you for seven days following the last day of the final exam period.

University of Guelph degree students can access their final grade by logging into WebAdvisor (using your U of G central ID). Open Learning program students should log in to the OpenEd Student Portal to view their final grade (using the same username and password you have been using for your courses).

Turnitin Originality Check

In this course, your instructor will be using Turnitin, integrated with the CourseLink Dropbox tool, to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to maintain academic integrity at the University of Guelph.

All individual assignments submitted to the Dropbox tool will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site.

A major benefit of using Turnitin is that you will be able to educate and empower yourself in preventing academic misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.
