Mathematics & Statistics: MSc, PhD

Graduate students in the Department of Mathematics & Statistics have the opportunity to make a substantive contribution to solving important scientific and societal problems in a wide variety of fields. Our proximity to the Fields Institute, the Institute for Quantum Computing, the Perimeter Institute and countless government, industry and academic partners makes us an ideal place to engage in mathematical and statistical research.

mathstat.uoguelph.ca

Program

We offer both Master’s and Doctoral programs. The Doctoral program typically requires 3-4 years to complete. Master’s students can choose to complete their degree by thesis or by major research project. A master’s thesis typically requires 1-2 years to complete and a master’s major research project typically requires 1 year to complete.

Research Fields

- Mathematics
- Statistics

Admission Requirements

For the Master’s program, an honours degree with the equivalent of a major or minor in mathematics or statistics, with a minimum B- average over the last two years of full-time equivalent study.

For the Doctoral program, a recognized Master’s degree obtained with high academic standing is required.

For application advice and tips, consult the Graduate Application Checklist on our department website.

Application Deadline:
February 15, 2018

Entry: Fall, Winter*, Spring*
*contact department

Faculty Research Areas

The Department of Mathematics and Statistics is an active department with 23 faculty and over 50 graduate students. Specific research interests include:
- Agent-Based Simulations
- Applied Analysis
- Big Data
- Bioinformatics
- Biomathematics
- Biostatistics
- Computational Statistics
- Data Science
- Dynamical Systems
- Evolutionary Computation
- Matrix Analysis
- Mathematical Modelling
- Numerical Analysis
- Operations Research
- Quantum Computing
- Scientific Computing
- Statistical Genetics
- Survival Analysis

ARE YOU INTERESTED IN:

- Developing, analyzing and utilizing novel mathematical and statistical tools?
- Collaborating with industrial, academic and governmental partners?
- Helping to solve important scientific and societal problems?

CAREER OPPORTUNITIES:

- Visit our department website to see career profiles of recent graduates and a list of over 30 careers recently available in Mathematics and Statistics:
