Course Description

All successful communication and media strategies in sport and events must take into account the complexities of this diverse and dynamic market of sport-related goods and services. This course examines sport and events communications through the investigation of internal and external factors that shape consumer demand in related industry sectors with an emphasis on digital media applications. Specifically, it will analyse the social, cultural and economic factors influencing consumer behaviour and the marketing of products, services and ideas.

Course Learning Outcomes

Knowledge and Understanding:

1. Appreciate the critical importance of a thorough and sound understanding of consumer targets to the design of effective sport and event marketing strategy.
2. Demonstrate the ability to critically evaluate practical communication and media applications from both an executional and theoretical perspective.

3. Analyse brand and category positioning, weaknesses and opportunities using both executional and theoretical rationale.

Discipline/Professional and Transferable Skills:

4. Demonstrate effective communication in a professional environment through report writing and oral presentation.

5. Demonstrate the ability to effectively research and source information resources across a variety of sources.

6. Evaluate marketing applications using professional terminology.

Attitudes and Values:

7. Demonstrate comprehension of the relationship between the environmental, societal, and moral impact of sport marketing and media applications.

Course Policies

1. Late Policy:

The CourseLink DropBox timestamp will be the sole arbitrator to determine whether an assignment is late or not. DropBox is set up so that you can submit early drafts of work—only the last one submitted will be graded—but all submissions will be saved. Submit early and submit often to avoid late penalties. Individual seminar prep work submitted after the deadline will receive a grade of zero (0), no exceptions. Group work not submitted at the end of seminar will also receive a grade of zero (0), no exceptions. Component Culminating Project submissions which are late will be assessed at a 5% penalty each day and will receive 100% penalty after 3 days. Component Culminating Project submissions submitted after 24 hours from the deadline is assessed a 100% penalty (i.e., it receives a grade of zero). The CourseLink DropBox will send out an automated acknowledgement e-mail that the work has been successfully uploaded. The large penalties for late submissions are necessary to ensure all team members are contributing to group work. If one team member misses a 'individual seminar prep' deadline, then the work of the entire team is compromised. Furthermore, group submissions at the end of each seminar are essential to ensure that the seminar time is used productively. DropBox is the ONLY place for documents; do not e-mail them to your professor.

2. Turnitin.com:

In this course, we will be using Turnitin, integrated with the CourseLink Dropbox tool, to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to maintain academic integrity at the University of Guelph.

ALL submitted assignments will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site.

A major benefit of using Turnitin is that students will be able to educate and empower themselves in preventing academic misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports (like the Originality Report) that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.

3. Document Format:

All written documents must be in Adobe's Portable Document Format (PDF). You can create your document using Microsoft Word, Apple's Pages, Google Docs, etc., but the final submission must be in PDF. There is a cost to the instructor in terms of time lost downloading an incorrectly formatted document and attempting to make sense of it. PDF documents always work all the time—no issues with fonts, formatting, etc.

4. Technology Policy:

Technology-related issues will NOT be considered grounds for an extension to assignment deadlines or a reason to forgive a penalty for late or wrong format submissions. You need to ensure you plan for potential technology challenges or issues. 'No internet access' is NOT grounds for a late submission. The availability of free internet in many places as well as the ability to Hot spot phones makes this excuse non-valid. I strongly recommend that you back up your work, use google docs, shared dropboxes, email, etc...to ensure that you do not lose your work. During presentations, I strongly recommend you pre-test the technology (including sound etc...). There will be NO extra time to resolve technical difficulties. Always plan for a technical challenge, by coming to class early to test your technology and by having a back-up plan in case your audio visual does not work. There are many times in business where the technology is not working; when you only have one chance the show must go on!

No academic consideration will be given for technology-related issues.

Please note that these policies are binding unless academic consideration is given to an individual student.

5. Course Policy on Group Work:

Work submitted by a team of students will be allocated one grade. Therefore, teams must work together to ensure that their submission is representative of the entire team. If plagiarism is detected through Turnitin the entire team will be held responsible for the misconduct and will be penalized accordingly (at Guelph this also entails a visit to the Dean's office). Make sure that once your document is complete that it flows as one document and that there is no plagiarism within the document. When grading, the group submission should be a cohesive (not a cut and paste of various different parts from different individuals). All members of the team get a grade for the final document; there are not different grades for different parts. The only time that a student will be graded separate from the team is in the case of on-going free-riding behaviours identified by others in your group through the group assessment process. This assessment by team members can be easily verified by the 'quality of the individual seminar preparation' work uploaded to the drop box in advance of the seminar. It is often the case that a team member is unaware of how their behaviour affects their teammates, as such the team has an opportunity to complete a group assessment four times throughout the semester. After each evaluation teams will meet and discuss key issues and

develop an action plan which will be signed by all team members. Therefore, team members have an opportunity to improve their performance, in which case no marks will be deducted.

6. Communication

I will be available for a meeting via appointment.

All e-mail communication sent from students to instructors, and from students to staff, must originate from the student's own U of Guelph e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student's responsibility to ensure that communication is sent to the university from an U of Guelph account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

Please READ the Course Outline and/or assignment instructions and/or Courselink Discussions before sending out an e-mail. Often the answer is already found therein!

Start the subject line of your email with HTM 3080; makes it easy to sort out your requests from other emails.

Announcements, grades, lecture slides, information on exams and other course materials will be posted on to COURSELINK. Check COURSELINK daily. Any changes and critical information will be posted on COURSELINK. You are responsible for making yourself aware of any changes made to the course by checking COURSELINK daily.

7.Examination Policy:

Missing a midterm will automatically result in a grade of zero for that midterm. A consideration for missed exams will only be given in the case of illness or emergency reasons. Such excuses as prior personal travel plans and extra-curricular commitments are not legitimate reasons. If you were ill, you must get Verification of Illness Form (the only acceptable document), with approval you may write a deferred midterm exam. There will be a single deferred exam at the end of the term which is CUMULATIVE that applies to students who missed either one or both midterm exams due to legitimate reasons such as illness or emergency. The illness form must be obtained the day of the exam and submitted within 3 days of the exam. This remedy is a privilege and not a right. No additional assignments or work will be assigned to improve the marks. Students will receive a mark of zero on a missed test without the Verification of Illness Form. The midterm exam schedule has been set and will not be changed.

Electronic devices –including electronic dictionaries – are NOT permitted in exams. The only exception is a standard (i.e. non-programmable) calculator.

8. Course Modification Warning:

The instructor and university reserve the right to modify elements of the course during the term. The University may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check his/her U of Guelph email and course website on COURSELINK daily during the term and to note any changes.

9.Course Policy regarding use of electronic devices and recording of lectures:

Electronic devices—phones, tablets, laptops: you may bring and use your device in class. However, I reserve the right to ask you to put away your laptop if I find it to be distracting to myself, yourself, or your peers.

Electronic recording—electronic recording of classes is expressly forbidden without consent of the instructor. When recordings are permitted (e.g., in the case of a CSD student) they are solely for the use of the authorized student and may not be reproduced, or transmitted to others, without the express written consent of the instructor.

University Policies

Academic Consideration

When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor in writing, with your name, id#, and e-mail contact. See the academic calendar for information on regulations and procedures for

Academic Consideration:

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community, faculty, staff, and students to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring.

University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection. Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The Academic Misconduct Policy is detailed in the Undergraduate Calendar:

<http://www.uoguelph.ca/registrar/calendars/undergraduate/current/c08/c08...>

Accessibility

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact the Student Accessibility Services as soon as possible.
