Jessie Burns, a PhD student in the Department of Human Health and Nutritional Sciences at the University of Guelph, has won the student travel award for her poster presentation. Jessie, also a student in the Guelph Family Health study at the University of Guelph, presented her research at the recent Canadian Lipid and Bioresource Conference. Her poster presentation was on omega-3s and their effects on the spleen and their potential to cause inflammation. Jessie’s research was conducted with her PhD advisor Dr. David W.L. Ma.
“The Effects of Omega-3s on the Spleen and Their Potential to Cause Inflammation”

-Jessie Burns

The Student Travel Award
The Student Travel Award is awarded to a graduate student participating in the conference oral or poster presentation competitions. The recipient was chosen based on both quality of research/presentation and distance travelled.

The Conference:
The Canadian section of the American Oil Chemists’ Society (CAOCS) organized the Canadian Lipid and Bioresources Conference of 2018. The conference centred around current topics in lipid and bioresource research as well industrial processing and production.
Jessie Burns, a PhD Student in the Department of Human Health and Nutritional Sciences at the University of Guelph presented her research at the recent Canadian Lipid and Bioresource Conference where she won the student travel award for her poster presentation on omega-3s and its effects on the spleen and potentially inflammation.
