

The Food Science Department is seeking individuals interested in tasting Maple sugar protein smoothies on either August 7th or 8th. Participants will be asked to participate in one, 30-minute long session on campus; an incentive of \$15 will be provided. Data from this study will be used to characterize protein-enriched maple sugar products.

If you are interested in participating, please contact Annie McGillivray at [foodtest@uoguelph.ca](mailto:foodtest@uoguelph.ca) for more information.

This project has been reviewed by the Research Ethics Board for compliance with federal guidelines for research involving human participants (REB#19-05-020).
