Postdoctoral Fellowship

Department of Pathobiology, Ontario Veterinary College
Temporary Full-time (1 year)

Hiring #: 2016-0005

The Department of Pathobiology, Ontario Veterinary College, University of Guelph, seeks a highly motivated researcher for a one year Postdoctoral Fellow position. The researcher will work with department faculty and graduate students on a variety of pro- and eukaryotic genomics and sequencing projects including RNA-seq.

Applicants should hold a PhD in a relevant field of science (e.g. genomics, bioinformatics). Knowledge of, and research experience in, next generation sequencing is an absolute requirement. The ideal candidate will have experience with both the pre-sequencing and post-sequencing/bioinformatics aspects of next generation sequencing, including, but not limited to, study design of NGS projects, the advantages and limitations of NGS, and NGS analysis methods, including biostatistics. The candidate should be familiar with at least one programming language (Perl, Python, C/C++) and have experience with R, SAS, and/or Matlab. Excellent written and oral communications skills are essential. Training of HQP in NGS and NGS data interpretation will be a key aspect of the position.

The anticipated start date is negotiable, but the position is available immediately. Salary will commensurate with qualifications.

Applications, including a cover letter that includes career goals, CV including a description of research experience, and three professional/academic references (with contact details) should be emailed or sent to:

Dr. John Lumsden
Chair, Department of Pathobiology, Ontario Veterinary College
Bldg. 89, Room 3824
University of Guelph
Guelph, Ontario, Canada  N1G 2W1
Email: jsl@uoguelph.ca [2]

Applications will be accepted until a suitable candidate is found.

Email jsl@uoguelph.ca [2] for questions regarding this position.
