Benefit Programs

The University of Guelph provides a wide range of employee benefit programs to offer support to our employees and to enhance the working environment. The benefit programs provided can help you with healthcare and dental expenses for you and your family; provide income replacement should you become disabled and unable to work; provide you with counselling services; and offer financial assistance to your family in the event of your death. The information provided here is to help keep you well informed and enable you to take full advantage of the benefit programs available to you. The information describes the principle features of the group benefit plans but does not replace the formal benefit agreements and policies in place.
