Online Course Registrations

EHS Online Course Registrations

Welcome to Environmental Health and Safety’s Online Course Registration System and Training Record Database. Scroll through the list of the current course offerings at the website hyperlinked below and select a course by clicking on its title. We encourage you to register in all the courses you’re interested in, even those that are full. When you register for a program that’s full, you’re automatically placed on the waiting list. When a space becomes available, you will receive an email confirming that you are registered. Waiting lists are monitored, and if there is sufficient demand additional sections may be added, so please help us to gauge demand by registering early.

EHS is also offers several online training modules in addition to the in-class training sessions. Registration for the current course offerings and online modules can be completed by following the link below.

- Laboratory Safety
- Workplace Hazardous Materials Information System (WHMIS)
- Worker and Supervisor Health and Safety Training
- Emergency and Standard First Aid, CPR and AED Training

[Online Course Registration][1]

Following submission of your registration you will receive instructions for access to the module.
